1. Comparison of Respondents to Nonrespondents of mail Questionnaire	76
2. Demographic Summary of All Respondents to Mail Questionnaire	79
3. Respondent Responses to Validity Check Questions	82
4. Demographic Summary of Entrepreneurs in this Study	83
5. Numbers of New Venture Ideas Identified and Opportunities Recognized: Percentages of Entrepreneurs	88
6. Mean Numbers of Ideas Identified and Opportunities Recognized	89
7. Where Entrepreneurs Obtain their New Venture Ideas	89
8. Activities Conducted by Entrepreneurs which Turned New Venture Ideas into Opportunities	91
9. Timespan Between Idea Identification and Opportunity Recognition	92
10. Timespan between Opportunity Recognition and Actual Firm Founding	94
11. Amount of Modification to Idea Prior to Opportunity Recognition	95

12. Amount of Modification to the Idea Prior to Firm Founding	95
13. Number of Social Contacts the Entrepreneur Discussed the Opportunity with Prior to Firm Founding	97
14. Modifications to Opportunity after the Opportunity was Recognized as a Result of Discussions with Social Contacts	97
15. Descriptive Statistics and Correlations	102
16. Results of Regression Analyses for the Square Root of the Number of New Venture Ideas Identified by Respondents in the Last Year	108
17. Results of Regression Analyses for the Square Root of the Number of New Venture Opportunities Recognized by Respondents in the Last Year	112
18. Results of Regression Analyses for Square Root of the Number of New Venture Opportunities Pursued (Invested Time and/or Money) by Respondents in the Last Year	115
19. A Comparison of the Number of Opportunities Pursued and Number of Opportunities Unrelated to the Current Business for Solo Entrepreneurs vs. Network Entrepreneurs (Supplementary Empirical Tests of Hypotheses 2 and 3)	116
20. Results of Regression Analyses for the Square Root of the Number of New Venture Opportunities Recognized by Respondents in the Last Year that were Unrelated to their Current Business	118
21. Results of Regression Test for the Years of Prior Experience of Respondents: A Test of the Impact of Being More "Networked" (Having More Alters Who Provide Opportunities)	119
22. Results of Regression Test for Self-Perceived Alertness to Opportunities by Respondents: A Test of the Impact of Being More "Networked" (Having More Alters who Provide Opportunities)	119

23. Results of Regression Test for How the Firm was Founded: the Relationship between Being More “Networked” (Having More Alters who Provide Opportunities) and Whether the Entrepreneur First Decided to Found a Firm and then Recognized an Opportunity or Whether the Entrepreneur First Recognized the Opportunity and then Decided to Found a Firm	120
24. Chi Square Test of How the Firm was Founded: Whether the Entrepreneur First Decided to Found a Firm and then Recognized an Opportunity or Whether the Entrepreneur First Recognized the Opportunity and then Decided to Found a Firm (Supplementary Empirical Test of Hypotheses 11a and 11b)	121
25. Results of Regression Analyses for Log of Annual Firm Revenues	123
26. Summary of Resulting Empirical Tests of Hypotheses	124
27. Demographic Comparison of Study Sample Entrepreneurs to those Who were Removed from the analyses (Based on Validity Check Questions)	140
28. Comparison of Respondents Who Agreed with and Understood the Research Model to those Who did Not on a Variety of Factors	142
29. Mean Numbers of Ideas Identified and Opportunities Recognized for the Study Sample and those who were Excluded from the Analyses	144
30. Where Entrepreneurs Obtain their Ideas: Frequency Comparisons of Study Sample to those who were Excluded from Analysis	145
31. Opportunity Recognition Activities: Frequency Comparisons of Study Sample to those who were Excluded from Analysis	145
32. Results of Regression Analyses for the Square Root of the Number of New Venture Ideas Identified by Respondents in the Last Year (Including Self-Perception of Alertness)	147

33. Results of Regression Analyses for the Square Root of the Number of New Venture Opportunities Recognized by Respondents in the Last Year (Including Self-Perception of Alertness)	149
34. Results of Regression Models for the Square Root of the Number of New Venture Ideas Identified by Respondents in the Last Year (Test of Age and Educational Heterogeneities of Network)	153
35. Results of Regression Models for the Square Root of the Number of New Venture Opportunities Recognized by Respondents in the Last Year (Test of Age and Educational Heterogeneities of Network)	155
36. Results of Factor Analysis of Opportunity Recognition Items	158
