

# Contents

Preface .....	V
Glossary .....	XVII
Introduction .....	1
1. General provisions .....	5
1.1. Objectives .....	5
1.2. Application .....	6
1.3. Reference to other ILO instruments .....	7
2. Industry characteristics .....	8
2.1. Iron- and steel-making .....	8
2.2. Occupational hazards .....	9

## PART I. NATIONAL FRAMEWORK

3. General duties .....	13
3.1. Cooperation .....	13
3.2. Competent authority .....	13
3.3. Labour inspectorates .....	15
3.4. Employers .....	17
3.5. Workers' duties and rights .....	21
3.6. General responsibilities of suppliers, manufacturers and designers .....	25
3.7. General responsibilities and rights of contractors .....	26
4. Occupational safety and health management systems; reporting, recording and notification of work-related injuries and diseases, ill health and incidents; occupational health services .....	28
4.1. Introduction .....	28
4.2. OSH management systems .....	28
4.3. Reporting, recording and notification of work-related injuries and diseases, ill health and incidents .....	29
4.4. Occupational health services .....	30

## **Safety and health in the iron and steel industry**

### **PART II. SAFE IRON- AND STEEL-MAKING OPERATIONS**

<b>5. Industry-specific prevention and protection</b> .....	<b>33</b>
5.1. Hazards and health .....	33
5.2. Physical hazards.....	34
5.3. Chemical hazards.....	52
5.4. Safety hazards .....	66
5.5. Ergonomics.....	80
<b>6. Coke ovens and by-product plants</b> .....	<b>83</b>
6.1. Hazard description .....	83
6.2. Hazard control on by-product coke batteries .....	84
6.3. Hazard control in non-recovery batteries.....	86
6.4. Hazard control in by-product recovery plants.....	86
6.5. Other methods of producing coke.....	88
<b>7. Iron- and steel-making</b> .....	<b>89</b>
7.1. General .....	89
7.2. Preventing fires and explosions .....	90
7.3. Lighting furnaces.....	91
7.4. Dusts and fibres .....	92
7.5. Preventing carbon monoxide poisoning.....	92
7.6. Preventing steam explosion .....	93
7.7. Handling molten metal, dross or slag .....	93
<b>8. Surface preparation</b> .....	<b>96</b>
8.1. Hazard description .....	96
8.2. Hazard control.....	96
<b>9. Iron and steel foundries</b> .....	<b>98</b>
9.1. General .....	98
9.2. Safety specifications for hand-tilted transport ladles	98
9.3. Safety inspection of ladles .....	99
9.4. Tapping .....	100
9.5. Bottom drop .....	100
9.6. Protective equipment .....	100
9.7. Preventing fire and explosion .....	100

9.8. Abrasive blasting .....	101
9.9. Abrasive wheels .....	101
9.10. Process and waste gases .....	102
9.11. First aid .....	103
<b>10. Rolling mills .....</b>	<b>104</b>
10.1. Hazard description .....	104
10.2. Control strategies .....	105
<b>11. Coating lines .....</b>	<b>107</b>
11.1. Hazard description .....	107
11.2. Assessment of risk .....	107
11.3. Control strategies .....	107
11.4. Work practices .....	108
<b>12. Heat treating .....</b>	<b>110</b>
12.1. Hazard description .....	110
12.2. Hazard control .....	110
<b>13. Internal transport .....</b>	<b>112</b>
13.1. Hazard description .....	112
13.2. Control strategies .....	112
<b>14. Recycling iron and steel .....</b>	<b>115</b>
<b>15. Competence, education and training .....</b>	<b>117</b>
15.1. General .....	117
15.2. Qualifications of managers and supervisors .....	119
15.3. Qualifications, training and skills testing for workers .....	120
15.4. Qualifications of contractors and other third parties .....	121
<b>16. Personal protective equipment (PPE) .....</b>	<b>122</b>
16.1. General provisions .....	122
16.2. Head protection .....	124
16.3. Face and eye protection .....	125
16.4. Upper and lower limb protection .....	126

## **Safety and health in the iron and steel industry**

16.5. Respiratory protective equipment .....	127
16.6. Hearing protection .....	128
16.7. Protection from falls .....	129
16.8. Work clothing .....	130
<b>17. Contingency and emergency preparedness .....</b>	<b>132</b>
17.1. General .....	132
17.2. First aid and medical care .....	133
17.3. Escape and rescue .....	134
<b>18. Work organization .....</b>	<b>136</b>
18.1. Job safety analysis .....	136
18.2. Work flow .....	136
18.3. Work teams .....	137
<b>19. Special protection .....</b>	<b>138</b>
19.1. Social protection .....	138
19.2. Working hours .....	138
19.3. Alcohol- and drug-related problems .....	139
19.4. HIV/AIDS .....	140
19.5. Smoking at work .....	140
<b>20. Personal hygiene .....</b>	<b>142</b>
<b>Bibliography .....</b>	<b>145</b>
<b>Annexes</b>	
I. Hazard identification, risk assessment and control .....	151
II. Workers' health surveillance (adapted from the ILO <i>Technical and ethical guidelines for workers' health surveillance</i> , 1998) .....	153
III. Surveillance of the working environment (according to the Occupational Health Services Recommendation, 1985 (No. 171)) .....	158
IV. Establishing an OSH management system (adapted from the ILO <i>Guidelines on occupational safety and health management systems</i> , ILO-OSH 2001) .....	161

V. Occupational exposure limits for hazardous substances, electric and magnetic fields, optical radiation, heat, noise and vibration.....	179
VI. Additional chemicals used in the iron and steel industry ...	187
<b>Index.....</b>	<b>190</b>
