<i>Preface</i>	xi
I. Cost-Benefit Analysis in Practice	1
1. A History of Application	3
2. The Decision Maker, the Analyst and Cost-Benefit Analysis	15
3. Policy Advocates and Adversaries: Scrutiny and Accountability	21
II. How to Do Cost-Benefit Analysis	31
4. Economics and Cost-Benefit Analysis	33
5. Economic Valuation of Individual Preferences	43
6. Who Is Society?	53
7. “With and Without” Analysis	58
8. Aggregate Benefits and Costs	66
9. Present Value of Benefits and Costs Distributed over Time	74
10. Decision Criteria	81
11. Discount Rate	97
12. Inflation	118
13. Time Horizon	133

14. Uncertainty and Risk	140
15. Principles of Cost-Benefit Analysis	156
III. Benefits and Costs: Identification and Valuation	163
16. Identifying Benefits and Costs	165
17. Market Valuation	177
18. Contingent Valuation Method	187
19. Travel Cost Method	239
20. Hedonic Pricing Method: Property Value Approach	260
21. Valuation of Human Life	269
22. Cost-Effectiveness Analysis	276
23. Principles for Identifying and Valuing Benefits and Costs	296
<i>Bibliography</i>	303
<i>Index</i>	313

Illustrations

BOXES

4.1	Rational Decision Choice in Economic Theory	36
5.1	Consumer Surplus, Consumer Sovereignty and Income Distribution	45
7.1	Opportunity Cost of Prison Labor	65
11.1	Shadow Price of Capital	105
11.2	U.S. Federal Government Practice in Selecting Discount Rates	116
14.1	EPA Risk Assessment and Cost-Benefit Analysis	153
16.1	To Identify All Impacts on Environmental Resources, Use a Systems Approach	166
16.2	Environmental Pollution Damage Is Not Properly Valued by Cleanup Costs	173
19.1	Expenditure Method	241

FIGURES

5.1	Demand Curve and Consumer Surplus in a Private Market	46
7.1	Incremental Benefits of Organic Tomato Farming, Assuming Annual Output Increases 10% "With" and 6% "Without" Project	59
7.2	Incremental Benefits of Organic Tomato Farming, Assuming Annual Output Decreases 0% "With" and 5% "Without" Project	61
7.3	Incremental Costs of Organic Tomato Farming	62
11.1	NPV Profiles for Two Policies	110
17.1	Market Demand Curve	180

18.1	Frequency Distribution of Willingness to Pay	227
18.2	Aggregate Bid Curve	229
19.1	Resource Site Demand Curve	250

TABLES

7.1	With-policy, Without-policy and Incremental Benefits of Organic Farming	63
7.2	With-policy, Without-policy and Incremental Costs of Organic Farming	64
9.1	Project Benefits and Costs over Time	75
10.1	Net Benefits of Alternative Bridge Sites: Dependent Projects	84
10.2	NPV and B/C for Independent Projects	87
10.3	Summary: Decision Types and Criteria	91
10.4	Mutually Exclusive Policies: NPV, B/C and Incremental B/C	93
11.1	Discount Factors	107
11.2	Two Policies' Annual Net Benefits and NPVs	108
12.1	GDP Implicit Price Deflator, 1990–1994	123
12.2	Projected Annual Beachgoer Benefits	125
14.1	Possible Values for Select Uncertain Variables	143
14.2	Selective Sensitivity Analysis: NPVs for Independent Changes in Each Uncertain Variable	144
14.3	Switching Values: Assuming Independent Change in Each Variable	146
14.4	Payoff Matrix	148
14.5	Regret Matrix	150
18.1	Summary: Comparison of Survey Instruments	209
18.2	Summary: Comparison of Valuation Question Formats	220
18.3	Frequency Distribution: Willingness to Pay for Loon Lake Improvements	226
18.4	Aggregate Bid Schedule for Loon Lake Improvements	228
18.5	Cross-Tabulation of Willingness-to-Pay Responses with Respondent Characteristics, Loon Lake Survey	233
18.6	Summary: Survey Designer's Options to Address Each Influence on Respondent Answers	236
19.1	Distance, Travel Time and Visitation Rates by Zone	243
19.2	Costs of Owning and Operating an Automobile, 1993	245
19.3	Travel Costs per Vehicle and per Visitor in 1993	247
19.4	Calculations for Four Points on the Resource Site Demand Curve	251
19.5	Resource Site Demand Schedule	253

22.1	Decision Types and Cost-Effectiveness Ratios	280
22.2	Average C/E Ratios for Independent Health Interventions	282
22.3	Average and Marginal C/E Ratios for Alternative Dosages of a Medication	284
22.4	Incremental C/E Ratios for Mutually Exclusive Policies to Prevent Seagrass Damage	286
22.5	Summary: Decision Types and Criteria for Cost-Effectiveness Analysis	289
