The	Transformation	Crisis	and the	Economics	of	Transition	1
-----	----------------	--------	---------	------------------	----	------------	---

1. BREAKDOWN AND INITIAL HOPES	2
2. THE TRANSFORMATION CRISIS: THE STYLISED FACTS	4
2.1 Macroeconomic Disruptions	4
2.2 Macroeconomic Policies	7
2.3 Maladjustment at the Microeconomic Level	9
2.4 Open Questions	12
3. MACROECONOMIC ANALYSIS OF THE TRANSITION CRISIS	14
3.1 Keynesian Demand Explanations	14
3.2 Neoclassical Supply Side Explanations	16
3.3 Post-Keynesian Credit Crunch Theories	17
3.4 Monetarist Answers	18
3.5 Conclusions	20
4. THE MICROECONOMICS OF TRANSITION	21
5. THE APPROACH OF THE PRESENT STUDY	23
MICROECONOMIC DISTORTIONS	31
I. The Role of the Financial Sector for Stability and Grov	vth 35
1. INTRODUCTION	36
2. THE ROLE OF THE FINANCIAL SECTOR IN A MARKET ECONOMY	38
2.1 Capital Allocation	38
2.2 Corporate Governance	40
2.3 Transmission of Monetary Impulses	46
3. THE ROLE OF THE FINANCIAL SECTOR IN A PLANNED ECONOMY	48
3.1 Institutional Features of Post-Soviet Financial Systems	49
3.2 Accomplishment of the Tasks Under Central-Planning	50
3.3 Macroeconomic Stability under Central Planning	51
4. THE ROLE OF THE FINANCIAL SECTOR IN THE TRANSITION	53
4.1 Stabilisation	53
4.2 Privatisation and Restructuring	54
4.3 The Sequencing Problem	55
5. CONCLUSIONS	

II. Banking Sectors in FSU Economies	
- Credit Allocation in Transition -	59
1. INTRODUCTION	60
2. EARLY DEVELOPMENTS IN THE BANKING SECTOR	62
2.1 From Rigid Planning to the Gorbatchev Reforms	62
2.2 Price Liberalisation and Banking Sector Expansion	63
2.3 The Break-up of the Ruble Zone	65
3. MICROECONOMIC BEHAVIOUR AND OPERATIONAL PROBLEMS	67
3.1 A Taxonomy of Banks	67
3.2 Corporate Governance in Banks	70
3.3 Problems of Credit Allocation	71
4. MACROECONOMIC IMPLICATIONS OF SYSTEMIC WEAKNESSES	74
4.1 Financial Repression: Regulations and Rules of Behaviour	74
4.2 Lending Boom and Credit Crunch	76
4.3 Bad credit and Perverse Incentives	79
4.4 The Interest Wedge and Disintermediation	80
4.5 Credit Rationing and Stagnation	81
5. CONCLUSIONS	82
III. Enterprises in FSU Economies - Corporate Governance in Transition -	85
1. INTRODUCTION	86
2. EARLY DEVELOPMENTS AND OUTCOMES OF PRIVATISATION	87
2.1 Enterprises Under Central Planning	87
2.2 Methods of Privatisation	89
2.3 Privatisation Outcomes	92
3. HYPOTHESES OF ENTERPRISE BEHAVIOUR	94
3.1 Enterprises are Not Allowed (The May-not Hypothesis)	94
3.2 Enterprises are Not Able (The Cannot Hypothesis)	97
3.3 Enterprises are Not Willing (The Will-not Hypothesis)	99
4. A SYNTHESIS: THE SURVIVAL-ORIENTED ENTERPRISE	102
4.1 Macroeconomic Instability and Uncertainty	104
4.2 Inter-Enterprise Coordination	106
4.3 Intra-Enterprises Cooperation	109
5. CONCLUSIONS	112

IV. Transmission Mechanisms in FSU Econor	nies
- Monetary Policy in Transition -	117
1. INTRODUCTION	118
2. THEORIES OF MONETARY TRANSMISSION	119
2.1 The Money View	119
2.2 The Credit View	123
2.3 The Developing Countries Perspective	126
3. TRANSMISSION MECHANISMS IN TRANSITION	130
3.1 Difficulties in the Application of Theories	130
3.2 Impediments to Monetary Transmission	131
3.3 Possible Transmission Processes in FSU Transition	133
4. MONETARY POLICY IN TRANSITION	135
4.1 Policy Objectives	135
4.2 The Choice of Instruments	137
5. CONCLUSIONS	139
C. ARREARS, SOFT BUDGET CONSTRAINTS AN ENDOGENOUS MONEY	D 143
V. The Emergence of Arrears in FSU Econom	ies 149
1. INTRODUCTION	150
2. THE LEGACY OF THE PAYMENTS SYSTEM:	130
A TECHNICAL APPROACH	152
2.1 Inertia of Payments System Procedures	153
2.2 Payments System Inefficiencies and Float	156
2.3 Abundance of Non-Cash versus Shortage of Cash	161
3. CREDITOR-DEBTOR RELATIONS:	101
A PROPERTY RIGHTS APPROACH	165
3.1 Bankruptcy Laws and Non-Enforceability of Property Rights	165
3.2 Relationships Between Enterprises and Banks	167
3.3 Creditor Passivity: Missing Incentives	169
4. LOBBIES AND IMPLICIT CONTRACTS:	10)
A POLITICAL ECONOMY APPROACH	171
4.1 The Struggle over the Central Bank	172
4.2 Tax Arrears and Implicit Contracts	174
4.3 Wage Arrears: Ex Post Adjustment versus Inflationary Potentia	1 176
5. CONCLUSIONS	470

VI.	Systemic Change, Collusive Arrears and Credibility	183
	1. INTRODUCTION	184
	2. THE MODEL OF REFERENCE	187
	2.1 Decision Rules of Enterprises	187
	2.2 Formation of Rational Expectations	188
	2.3 The Impact of Stabilisation on Adjustment and Arrears	190
	2.4 Conclusions from the Model	192
	3. CAUSES OF THE LACK OF CREDIBILITY	194
	3.1 The Reputation of Monetary Policy-Makers	194
	3.2 The Structure of the Economy	196
	3.3 The Nature of the Credit Crunch	197
	4. AN EXPLICIT MECHANISM OF COLLUSION	198
	4.1 Non-Cooperative Games and Anti-Social Behaviour	199
	4.2 A Formalisation of Contagion	200
	4.3 Path-Dependency and the Role of Political Leadership	201
	5. CONCLUSIONS	203
	Macroeconomic Effects of Arrears	207
	1. INTRODUCTION	208
	2. CONDITIONS AT THE MICROECONOMIC LEVEL	211
	2.1 Ownership Structures and Intra-enterprise Cooperation	212
	2.2 Survival-Orientation and Inter-enterprise Coordination	214
	2.3 The Passivity of the Banking System	217
	3. MICROECONOMIC DECISION MAKING DURING TRANSITION	220
	3.1 Assumptions	220
	3.2 The Scheme	222
	3.3 Results and Microeconomic Implications	227
	4. A MACROECONOMIC MODEL OF THE POST-SOVIET ECONOMY	229
	4.1 Assumptions	229
	4.2 The Model	231
	4.3 Results and Macroeconomic Implications	232
	5. ACTIVE MONETARY POLICY	233
	5.1 Raising Interest Rates	233
	5.2 Monetary Restraint	234
	5.3 Imposing a Ban on Arrears	236
	6. CONCLUSIONS AND A PROPOSAL FOR A SHORT-TERM PROGRAMME	238
