# CONTENTS

Preface      xiii

## **I      Scope of Emergency Response**

Introduction	1
Key Factors Influencing Programmatic Emergency Response Programs	12
Extended Partnership	19
Proactive and Reactive Dimensions	23

## **2      Elements of Holistic Planning and Management**

Introduction	25
Scope of Emergency Planning	26
Assessment of Hazard and Risk	28
On- and Off-Site Management	37
Authority and Responsibility	41
Communication and Information Handling/Processing	44
Provisions and Support	46
Medical Treatment and Surveillance	48
Remediation and Review	51

## **3      The Emergency Response Plan**

Introduction	53
Contents of Emergency Response Plan	58
Implementation	76

## **4      Command**

Introduction	82
Incident Command System	82
Adaptation of ICS to Other Command Structures	97
Additional Considerations	100

## **5 Physical and Chemical Hazards**

Introduction	103
Structural, Material, and Operational Sources of Hazards	104
Hazard Evaluation and Mitigation	110
Consolidation of Information and Database	119

## **6 Biohazards**

Introduction	122
Bloodborne Pathogens	126
Universal Precautions	132
Exposure Control Plan	137
Nonbloodborne Pathogens	139

## **7 Medical Surveillance**

Introduction	145
Surveillance Objectives and Concerns	145
Liaison with Medical Authority	154
Types of Medical Analysis	158
Programmatic Review	171

## **8 Personal Protective Clothing and Equipment**

Introduction	172
Selection of PPC and PPE	173
Protective Clothing and Ensembles	175
Respiratory Protection	195
Hearing Protectors	206

## **9 Personnel Training**

Introduction	208
Proactive Management of Hazards: Corporate Perspective	209
Incident Response Personnel	220

## **10 Hazard and Risk Reduction Strategies**

Introduction	239
Mitigation Measures	243
All-Hazard Mitigation	254
Shift in Paradigm	258

## **11 Decontamination**

Introduction	265
--------------	-----

Scope of Decontamination Plan	266
Emergency Decontamination	286

## **12 Data and Information Management**

Introduction	293
Expert Software	295
Elements of In-Service Data and Information Base	297
Modular Approach to Database Design	306

## **13 Monitoring Strategies and Devices**

Introduction	313
Chemical Monitoring Technologies	314
Other Monitoring Technologies	322
Design and Implementation of Monitoring Program	323
Proactive Industrial Monitoring	326

## **14 Terrorism**

Introduction	331
Potential Terrorist Weapons	332
Incident Site as Crime Scene	345
Threat and Risk Target Assessment	347
Emergency Operations Plan	348

## **A Glossary 351**

## **B FEMA Addresses 388**

## **C Regional and Area OSHA Offices 393**

## **D States with Approved Occupational Safety and Health Plans 400**

## **E OSHA Consultation Directory 403**

## **F State Emergency Response Committees 409**

## **G FEMA Emergency Management Guide for Business and Industry**

Introduction	423
Section 1—Four Steps in the Planning Process	426
Section 2—Emergency Management Considerations	440

Section 3—Hazard-Specific Information 457

Section 4—Information Sources 467

**H OSHA Training Curriculum Guidelines 1910.120  
(Hazardous Waste Operations & Emergency Response)  
APP E (Nonmandatory)**

Suggested General Criteria 470

Suggested Program Quality Control Criteria 472

Suggested Training Curriculum Guidelines 476

**I Terrorism Incident Annex to the Federal  
Response Plan**

Introduction 488

Policies 489

Situation 490

Concept of Operations 491

Responsibilities 496

Funding Guidelines 500

References (Not Otherwise Referenced in the FRP) 500

Primary Point of Contact 501

**J Presidential Decision Directive 39 (Unclassified)**

United States Policy on Counterterrorism 503

**K National Fire Academy and Emergency Management  
Institute Courses Related to Consequence Management**

National Fire Academy (NFA) Courses 507

Emergency Management Institute (EMI) Courses 513

For More Information 514

**L Emergency Procedures for Employees with Disabilities  
in Office Occupancies (U.S. Fire Administration:  
June 1995)**

Review Panel 515

Introduction 516

Planning 519

Special Equipment/Devices 522

Providing Assistance 527

Glossary 534

Resources 538

## **M    How to Prepare for Workplace Emergencies (U.S. Department of Labor, Occupational Safety and Health Administration, 1995, Revised)**

Introduction	541
Purpose	541
Planning	542
Chain of Command	543
Communications	543
Accounting for Personnel	544
Emergency Response Teams	544
Training	545
Personal Protection	546
Medical Assistance	549
Security	550
Some OSHA Requirements	550
Information and Consultation Services	552
Free On-Site Consultation	552
Voluntary Protection Program	553
Training and Education	553
Other Sources of OSHA Assistance	554
State Occupational Safety and Health Plans	554

Index	557
