PART I PHYSIOLOGY

1 History of platelets	3
J. Fraser Mustard, Raelene L. Kinlough-Rathbone and Marian A. Packham	
2 Production of platelets	25
Arnaud Drouin and Elisabeth Cramer	
3 Morphology and ultrastructure of platelets	41
James G. White	
4 Platelet heterogeneity: physiology and pathological consequences	70
Anthony Mathur and John F. Martin	
5 Platelet membrane proteins as adhesion receptors	80
Yoshiaki Tomiyama, Masamichi Shiraga and Sanford J. Shattil	
6 Dynamics of the platelet cytoskeleton	93
Kurt L. Barkalow, Hervé Falet and John Hartwig	
7 Platelet organelles	104
Francine Rendu and Brigitte Brohard-Bohn	
8 Platelet receptors for thrombin	113
Lawrence F. Brass, Marina Molino, Peter J. O'Brien and Mark Kahn	
9 Platelet receptors: ADP	127
Christian Gachet and Jean-Pierre Cazenave	
10 Platelet receptors: prostanoids	140
Roberta Vezza and Garret A. FitzGerald	

11	Platelet receptors: collagen	158
	Pia R-M. Siljander and Richard W. Farndale	
12	Platelet receptors: von Willebrand factor	179
	Jerry Ware and Zaverio M. Ruggeri	
13	Platelet receptors: fibrinogen	188
	Edward F. Plow, Thomas A. Haas and Tatiana V. Byzova	
14	Platelet signalling: GTP-binding proteins	204
	Jan-Willem N. Akkerman	
15	Platelet phospholipases A₂	221
	Michael H. Gelb, Carine M. Mounier, Ying Hefner and Steve P. Watson	
16	Roles of phospholipase C and phospholipase D in receptor-mediated platelet activation	238
	Mauro Torti and Eduardo G. Lapetina	
17	Platelet signalling: calcium	260
	Juan A. Rosado and Stewart O. Sage	
18	Platelet signalling: protein kinase C	272
	Charles S. Abrams and Marcelo G. Kazanietz	
19	Platelet signalling: tyrosine kinases	281
	Sylviane Levy-Toledano	
20	Platelet signalling: cAMP and cGMP	290
	James L. Daniel, Barrie Ashby and Fabio M. Pulcinelli	
21	Platelet adhesion	304
	Philip G. de Groot and Jan J. Sixma	
22	The platelet shape change	319
	Adrian R.L. Gear and Renata K. Polanowska- Grabowska	
23	Aggregation	338
	Marian A. Packham, Margaret L. Rand and Raelene L. Kinlough-Rathbone	
24	Amplification loops: release reaction	357
	Marc F. Hoylaerts	
25	Amplification loops: thromboxane generation	369
	Paola Patrignani and Maria G. Sciulli	
26	Platelet procoagulant activities: the amplification loops between platelets and the plasmatic clotting system	381
	H. Coenraad Hemker	
27	Platelets and chemotaxis	393
	Stefania Momi and Paolo Gresele	

28	Platelet–leukocyte interactions relevant to vascular damage and thrombosis	412
	Chiara Cerletti, Virgilio Evangelista, Roberto Lorenzet and Giovanni de Gaetano	
29	Vascular control of platelet function	432
	Scott Willoughby and Joseph Loscalzo	

PART II METHODOLOGY

30	In vitro assays for evaluating platelet function	459
	Perumal Thiagarajan and Kenneth K. Wu	
31	Monitoring antiplatelet therapy	471
	Dermot Cox and Desmond Fitzgerald	
32	Flow cytometric analysis of platelet function	485
	Alan D. Michelson, Marc R. Barnard, Lori A. Krueger, A.L. Frelinger III and Mark I. Furman	
33	Animal models of platelet-dependent thrombosis	499
	Paolo Golino and Francesco Loffredo	

PART III PATHOLOGY

A	Hemostasis	
34	Hereditary thrombocytopenias	515
	Chris Van Geet, Kathleen Freson, Rita Devos and Jos Vermynen	
35	Thrombocytopenias due to bone marrow disorders	528
	Beng H. Chong and Colin Chesterman	
36	Immune-mediated thrombocytopenia	542
	Kathryn E. Webert and John G. Kelton	
37	Thrombocytopenia in childhood	556
	Cécile Kaplan, M. Dreyfus, V. Proulle and G. Tchernia	
38	Alloimmune thrombocytopenia	569
	E. Anders Kolb and James B. Bussel	
39	Drug-induced and drug-dependent immune thrombocytopenias	584
	Andreas Greinacher, Petra Eichler and Norbet Lubenow	
40	Thrombotic thrombocytopenic purpura and hemolytic uremic syndrome	610
	Miha Furlan	

41	Thrombocytosis and thrombocythemia	623
	Tiziano Barbui and Guido Finazzi	
42	Platelet adhesive protein defect disorders	639
	Kenneth J. Clemetson and Jeannine M. Clemetson	
43	Congenital disorders of platelet secretion	655
	Marco Cattaneo	
44	Congenital platelet signal transduction defects	674
	A. Koneti Rao	
45	Acquired platelet function defects	689
	Joel S. Bennett	
46	Platelet storage and transfusion	707
	Scott Murphy	
B	Thrombosis	
47	Pathophysiology of arterial thrombosis	727
	Lina Badimon, Juan-Jose Badimon and Valentin Fuster	
48	Platelets and atherosclerosis	738
	Peter Verhamme and Paul Holvoet	
49	Platelet involvement in venous thrombosis and pulmonary embolism	753
	Andrew D. Blann and Gregory Y. H. Lip	
50	Gene regulation of platelet function	760
	Thomas J. Kunicki	
C	Non-hemostatic disorders	
51	Platelets and bacterial infections	783
	Mark C. Herzberg and Ke Gong	
52	Interactions of viruses and platelets and the inactivation of viruses in platelet concentrates prepared for transfusion	807
	Laurence Corash	
53	Platelets and parasites	815
	Michel Joseph	
54	Platelets and tumours	824
	Maria Benedetta Donati and Virgilio Evangelista	
55	Platelets and renal diseases	837
	Paola Boccardo, Miriam Galbusera and Giuseppe Remuzzi	
56	Platelets and allergic diseases	852
	Simon Pitchford and Clive P. Page	

57	Platelet interactions with other cells related to inflammatory diseases	869
	Patrice E. Poubelle and Pierre Borgeat	
58	Platelets and the preimplantation stage of embryo development	885
	Christopher O'Neill	
59	Platelets in psychiatric and neurological disorders	894
	B. E. Leonard	
60	Platelets in inflammatory bowel disease	907
	Elizabeth Carty, David S. Rampton and Carole E. Collins	

PART IV PHARMACOLOGY

61	Aspirin	919
	Carlo Patrono	
62	Pharmacology of ticlopidine and clopidogrel	929
	Jean-Pierre Cazenave and Christian Gachet	
63	Platelet membrane glycoprotein (GP) IIb-IIIa antagonists and acute arterial thrombosis	940
	David R. Phillips and Lisa Nannizzi-Alaimo	
64	Other antiplatelet agents	955
	Luigi Iuliano, Fausta Micheletta and Francesco Violi	
65	Pharmacogenetics as a new antiplatelet strategy	964
	Giovanni de Gaetano, Chiara Cerletti and Licia Iacoviello	
66	Cardiovascular gene therapy: implications for platelet vessel wall interactions	978
	Pierre Zoldhelyi, Harold Eichstaedt, Thomas Jax, Janice M. McNatt, Zhi Qiang Chen, Harnath S. Shelat, Harris Rose and James T. Willerson	
67	Pharmacological modulation of the inflammatory actions of platelets	991
	Carla Cicala and Giuseppe Cirino	

PART V THERAPY

68	Design of trials to evaluate antiplatelet agents	1003
	Shamir R. Mehta, John W. Eikelboom and Salim Yusuf	

Contents

69	Antiplatelet therapy in cardiology	1013
	Herbert D. Aronow and Eric J. Topol	
70	Antiplatelet therapies in neurology	1040
	Graeme J. Hankey	
71	Antiplatelet treatment in peripheral vascular disease	1055
	Raymond Verhaeghe	
	Afterword	1063
	<i>Platelets: a personal story</i>	
	Gustav V. R. Born	
	<i>Index</i>	1073
	<i>Colour plates between pages 170 and 171</i>
