

TABLE OF CONTENTS

Executive summary	7
-------------------------	---

Chapter 1 **CONTEXT AND SCOPE OF THE STUDY**

1.1. Background and objectives	9
1.2. Main characteristics and trends in OECD countries	9
1.3. Basic concepts of environmental taxation	10
1.4. Environmental taxation and regulation	11
1.5. Regulation and tax policy integration	13
1.6. Scope of the report	14
Notes	14
<i>Annex to Chapter 1</i>	
Table A.1. Overview of environmentally-related taxes and charges in OECD countries	16
References	18

Chapter 2 **DESIGNING AND IMPLEMENTING ENVIRONMENTAL TAXES**

2.1. Background	19
2.2. Developing an appropriate policy framework	19
Linkage	20
Acceptability	21
2.3. Designing environmental taxes	22
The tax base and the point of imposition	22
How to determine the tax rate?	23
2.4. Administrative and compliance issues	26
Regulatory authorities	26
Monitoring	28
Administrative and compliance costs	28
2.5. "Tax Packaging" issues	28
Elimination of non-price barriers	29
Revenue recycling	29
Distributional effects and compensation measures	31
2.6. Concluding remarks	32
Notes	32
References	33

Chapter 3 **INTERNATIONAL IMPLICATIONS OF ENVIRONMENTAL TAXES**

3.1. Introduction	35
3.2. Trade and environmental taxes	35
Environmental taxes and competitiveness: key factors	36
Short-term versus long-term effects	37
3.3. Trade: key factors and assumptions	37
3.4. Empirical evidence	40
Effects on competitiveness and trade	40
Environmental effectiveness and leakage issues	42

3.5.	Mitigation measures	43
	Sectoral differentiation of environmental taxes	43
	Border tax adjustments	44
	Implementation strategy of environmental taxes	45
3.6.	Conclusions	45
Notes		46
References		47

Chapter 4

DISTRIBUTIONAL EFFECTS OF ENVIRONMENTAL TAXES AND COMPENSATION MEASURES

4.1.	Introduction	49
4.2.	Analytical framework	49
	Relevant costs and benefits	49
	Formal and effective incidence	50
	The baseline for comparison	50
	Relevant distributional dimensions	50
4.3.	Empirical evidence and simulation results	51
	Distributional impacts of carbon taxes and other energy taxes	51
	Distributional implications of other taxes	55
4.4.	Policy implications	56
	Mitigation and compensation	57
	Compensation through adjustments to other taxes	58
	Other compensation approaches	59
	The role of adjustment policies	60
4.5.	Conclusions	61
Notes		62
References		63

Chapter 5

THE USE OF REVENUES FROM ENVIRONMENTAL TAXES

5.1.	Alternative uses of revenues	65
5.2.	The incidence of an environmental tax	66
5.3.	Taxes on energy resource owners	66
	A consumption based energy tax	66
	A production based energy tax	67
	Tax exemptions for energy intensive sectors	68
	The sustainability of energy tax revenues	68
	The impact on employment	68
5.4.	Environmental taxes and complementary policies	68
	Taxes on labour	68
	Labour taxation, real wages and employment	69
	Taxes on capital	69
	Empirical evidence	70
5.5.	Conclusions	71
Notes		71
References		72

Chapter 6

SUMMARY AND CONCLUSIONS

6.1.	A new trend in environmental policy	73
6.2.	Designing and implementing environmental taxes	73
6.3.	International implications of environmental taxes	76
6.4.	Distributive effects of environmental taxes and compensation measures	79
6.5.	The use of environmental tax revenues	80
Annexes		83
A.1.	Environmental taxation of energy	85
A.2.	Environmental taxes in energy sectors	89
