

## TABLE OF CONTENTS

<b>ABSTRACT .....</b>	<b>7</b>
<b><i>Chapter 1. INTRODUCTION AND BACKGROUND.....</i></b>	<b>9</b>
Background on carbon tax and trading programmes .....	10
Overview of the tax and trading approaches.....	10
Compliance cost savings from emissions tax and trading programmes.....	11
Distributional impacts .....	11
Issues in distributive analyses.....	12
Factors affecting the comparability of distributive effects .....	12
Objectives of this study .....	13
Overview of the report .....	14
<b><i>Chapter 2. DISTRIBUTIVE IMPACTS OF NATIONAL CARBON TAX AND TRADING PROGRAMS .....</i></b>	<b>15</b>
Global warming damages .....	15
U.S. damage studies by sector .....	15
Geographic variability .....	18
Income and other population groups .....	18
Costs of carbon taxes .....	19
Approaches to cost estimation .....	19
Government revenues .....	20
Income distributional impacts.....	21
Empirical results for developed countries.....	21
Empirical results for developing countries .....	24
Additional considerations .....	25
Energy sector impacts.....	26
Market conditions.....	26
Empirical studies .....	28
Alternatives to a carbon tax .....	28
Impacts on other domestic sectors .....	28
Impacts on imports and industries tied to international markets .....	29
Impacts on regions .....	30
Carbon trading programmes .....	30
Allocation formula .....	30
Carbon trading programmes and government taxes .....	31

<i>Chapter 3. DISTRIBUTIVE IMPACTS OF INTERNATIONAL CARBON TAX AND TRADING PROGRAMMES</i> .....	.33
Global warming damages .....	.33
Damages by region of the world .....	.33
Other international damage estimates .....	.34
Costs of international carbon taxes .....	.36
Global system of national carbon taxes .....	.36
Changes over time in regional impacts .....	.37
Global tax scheme .....	.38
Energy use impacts .....	.39
International carbon trading programmes .....	.41
Costs of international programmes .....	.42
Cost savings from emissions trading .....	.43
Joint implementation .....	.43
Importance of initial allocation .....	.45
Other issues affecting distributive effects .....	.47
Cost-benefit comparisons .....	.48
<i>Chapter 4. AVOIDING ADVERSE DISTRIBUTIONAL IMPACTS</i> .....	.51
Mitigation versus compensation .....	.51
Mitigation options for carbon tax and carbon trading programmes .....	.51
Carbon taxes .....	.52
Carbon trading .....	.53
Compensation options .....	.54
Carbon taxes .....	.54
Carbon trading programmes .....	.55
Prospects for mitigation or compensation .....	.56
<i>Chapter 5. CONCLUDING REMARKS</i> .....	.57
Tentative results .....	.57
Next steps .....	.58
<b>REFERENCES</b> .....	.61
<b>NOTES</b> .....	.67
