

# **1 Abnormal Behavior in Our Times, 3**

Popular Views of Abnormal Behavior, 4

- Views carried over from history*
- Ideas carried over from literature*
- Some popular misconceptions*

Abnormal Behavior As the Scientist Sees It, 14

- What do we mean by “abnormal”?*
- The problem of classification*
- Assessing and treating maladaptive behavior*

The Orientation of This Book, 22

# **2 Historical Perspectives and the Medical Model, 25**

Abnormal Behavior in Ancient Times, 26

- Demonology among the ancients*
- Early philosophical and medical concepts*

Demonology in the Middle Ages, 31

- “Mass madness”*
- Treatment in medieval times*
- Witchcraft*

Development of Humanitarian Approaches, 36

- Reappearance of scientific questioning in Europe*
- Establishment of early asylums and shrines*
- Humanitarian reform*

Development of the Organic Viewpoint and the Medical Model, 45

- Medical breakthrough in the understanding of mental disorders*
- Advances achieved by the medical model*

# **3 Psychosocial Models, 49**

The Psychoanalytic Model, 50

- Roots of psychoanalytic thought*
- Basic principles of the psychoanalytic model*
- Impact on our views of normal and abnormal behavior*

The Behavioristic Model, 57

- Roots of behaviorism*
- Basic principles of learning*
- Impact on our views of normal and abnormal behavior*

The Humanistic Model, 65

- Emphasis on self-direction and self-fulfillment*
- Positive view of man and his potentialities*
- Impact on our views of normal and abnormal behavior*

The Existential Model, 69

- Central themes and concepts*
- Existential anxiety*
- Impact on our views of normal and abnormal behavior*

The Interpersonal Model, 72

- Social processes and personality*
- Disordered interpersonal relations*
- Impact on our views of normal and abnormal behavior*

## **4 Sociocultural and Interdisciplinary Approaches, 77**

The Sociocultural Perspective, 78

*Cross-cultural studies*

*Epidemiological studies*

*Social pathology and community mental health*

The Interdisciplinary Approach and Its Implications, 81

*Decline of the medical model*

*Increasing influence of psychosocial models*

*Development of innovative approaches to treatment*

A Look Ahead, 86

*Toward comprehensive health*

*General systems theory*

## **5 Personality Development and Adjustment, 93**

Determinants of Development, 94

*Heredity*

*Environment*

*Self as a third determinant*

Patterning of Development, 98

*Trends toward personal maturity*

*Developmental stages and tasks*

*The crucial role of learning*

*Variations in development*

Human Needs and Strivings, 103

*Tendencies toward maintenance and actualization*

*Biological needs*

*Psychological needs*

*Social forces in motivation*

*Motivation and behavior*

Types of Adjustive Demands (Stress), 115

*Frustration*

*Conflict*

*Pressure*

*Unique and changing patterns of stress*

Coping with Adjustive Demands, 118

*Some general principles of adjustive behavior*

*Steps in coping with adjustive demands*

*Task- and defense-oriented coping patterns*

## **6 Causative Factors in Abnormal Behavior, 137**

Faulty Development, 138

*Genetic defects*

*Constitutional vulnerabilities and physical handicaps*

*Maternal deprivation*

*Early psychic trauma*

*Pathogenic family patterns*

*Social pathology*

*Inadequate self-structure*

- Severe Stress, 168
  - Biological stress*
  - Severe frustrations*
  - Core conflicts of contemporary life*
  - Pressures of modern living*
  - Sociological factors*
- The Interplay of Inadequate Resources and Excessive Stress, 177
  - Factors determining the severity of stress*
  - Costs of adaptation to stress*
  - Decompensation under excessive stress*
- General Perspectives on Causation, 182
  - Differing models of causation*
  - Changing views of causal relationships*

## **7 Transient Situational Disorders, 187**

- Traumatic Reactions to Combat, 188
  - Clinical picture*
  - Dynamics*
  - Treatment and outcomes*
  - Current military psychology and psychiatry*
- Reactions to Civilian Catastrophes, 201
  - Clinical picture*
  - Dynamics*
  - Treatment and outcomes*
- Reactions to Chronic Situational Stress, 206
  - Reactions of prisoners of war*
  - Dynamics*
  - Treatment and outcomes*
- Psychological Problems in Space Flights, 213

## **8 Neuroses, 217**

- The Basic Nature of Neuroses, 218
  - The neurotic nucleus*
  - The neurotic paradox*
- Specific Neurotic Patterns, 220
  - Anxiety neurosis*
  - Phobic neurosis*
  - Obsessive-compulsive neurosis*
  - Hysterical neurosis: conversion type*
  - Hysterical neurosis: dissociative type*
  - Hypochondriacal neurosis*
  - Neurasthenic neurosis*
  - Depressive neurosis*
  - Is there an existential neurosis?*
- General Etiology, Treatment, and Outcomes, 254
  - Development and maintenance of neuroses*
  - Treatment procedures*
  - Outcomes*

## **9 Schizophrenia and Paranoia, 267**

- Schizophrenia, 268
  - Clinical picture in schizophrenia*

*Types of schizophrenia*  
*Biological factors in schizophrenia*  
*Psychological and interpersonal factors*  
*General sociological factors*  
*Treatment and outcomes*

Paranoia, 311

*Clinical picture in paranoia*  
*Dynamics of paranoia*  
*Treatment and outcomes*

## **10 Major Affective Disorders and Suicide, 321**

Manic-Depressive Psychoses, 322

*Clinical picture*  
*Dynamics of manic-depressive reactions*  
*Treatment and outcomes*

Involucional Melancholia, 343

*Clinical picture*  
*Dynamics*  
*Treatment and outcomes*

Suicide, 347

*The dynamics of suicidal behavior*  
*Suicide prevention*

## **11 Sociopathic Disorders, Delinquency, and Crime, 365**

Antisocial (Psychopathic) Disorders, 366

*Clinical picture*  
*Dynamics*  
*Treatment and outcomes*

Compulsive Gambling, 376

*Clinical picture*  
*Dynamics*  
*Treatment and outcomes*

Delinquent Behavior, 379

*Incidence*  
*Dynamics*  
*Treatment and outcomes*

Criminal Behavior, 390

*Incidence*  
*Etiological factors in criminal behavior*  
*Treatment and outcomes*

## **12 Alcoholism and Drug Dependence, 405**

Alcoholism, 406

*Incidence and social effects of alcoholism*  
*Clinical picture*  
*Phases in alcohol addiction*  
*Dynamics of alcoholism*  
*Treatment and outcomes*

Drug Dependence, 424

*Opium and its derivatives*  
*The barbiturates*  
*Cocaine and the amphetamines*  
*The major hallucinogens: LSD*  
*Marijuana*  
*Perspectives on drug usage*

## **13 Sexual Deviations, 451**

Classification and Causes of Sexual Deviance, 452

*Types of sexual deviations*

*General causal factors in sexual deviations*

“Normal” Sexual Deviations, 455

*Masturbation*

*Premarital coitus*

*Extramarital coitus*

Abnormal Sexual Deviations, 459

*Impotence and frigidity (sexual inadequacy)*

*Exhibitionism*

*Voyeurism*

*Fetishism*

*Pedophilia*

*Rape*

*Incest*

*Sadism*

*Masochism*

Socially Organized and Related Sexual Deviations, 478

*Prostitution*

*Homosexuality*

*Transvestism*

*Transsexualism*

## **14 Psychosomatic Disorders, 497**

Clinical Picture, 498

*Classification of psychosomatic disorders*

*Some specific reaction patterns*

Dynamics of Psychosomatic Disorders, 503

*Biological factors*

*Psychological and interpersonal factors*

*General sociological factors*

Treatment and Outcomes, 512

## **15 Organic Brain Syndromes, 517**

Disorders Associated with Infection, 520

*Cerebral syphilis*

*Epidemic encephalitis*

Disorders with Brain Tumors, 528

*Clinical picture*

*Treatment and outcomes*

Disorders with Head Injury, 532

*General symptoms and dynamics*

*Treatment and outcomes*

Disorders with Toxins and Metabolic Disturbances, 538

*Toxic deliria (psychoses)*

*Nutritional deficiencies*

*Endocrine disturbances*

*Postpartum (childbirth) disturbances*

Psychoses of the Aged, 547  
    *Senile dementia*  
    *Psychosis with cerebral arteriosclerosis*  
    *Dynamics in old-age psychoses*  
    *Treatment and outcomes*

## **16 Mental Retardation, 561**

Classification and Causes of Mental Retardation, 562  
    *Degrees of mental retardation*  
    *Physiological and psychosocial causes of mental retardation*  
  
Types of Mental Retardation Associated with Physiological Causes, 569  
    *Down's syndrome (mongolism)*  
    *Thyroid deficiency (cretinism)*  
    *Cranial anomalies*  
    *Phenylketonuria (PKU)*  
  
Treatment, Outcomes, and Prevention, 575  
    *Treatment and outcomes*  
    *General preventive measures*

## **17 Behavior Disorders of Childhood, 585**

Comparison of Maladaptive Behavior in Childhood and Later Life Periods, 586  
  
Types of Childhood Behavior Disorders, 588  
    *Autism*  
    *Hyperactive (hyperkinetic) reaction*  
    *Unsocialized aggressive reaction*  
    *Runaway reaction*  
    *Overanxious and withdrawal reactions*  
    *Stuttering*  
    *Other "developmental" disorders*  
  
Problems in Treatment and Prevention, 606  
    *Problems associated with the treatment of children*  
    *Child advocacy programs*

## **18 Maladaptive Behavior of Groups, 611**

War and Threat of War, 612  
    *The costs of war*  
    *Psychological bases of aggression*  
    *Toward preventing war*  
  
Prejudice and Discrimination Against Groups, 618  
    *The scope of the problem*  
    *Learning and maintenance of group prejudice and discrimination*  
    *Eliminating group prejudice and discrimination*  
  
Overpopulation and Ecological Violations, 624  
    *Effects of overpopulation*  
    *Violations of ecological balance*  
    *Coping with overpopulation and ecological problems*  
  
Uncontrolled Social Change, 632  
    *"Future shock"*  
    *Cultures in collision*  
    *Toward coping with uncontrolled change*

## **19 The Problem of Assessment, 641**

Interdisciplinary Sources of Assessment Data, 642

*Medical evaluation*

*Psychological assessment*

*Integration of assessment data*

*Assessment of groups (social systems)*

Problems and Progress in Assessment, 651

*The "antitest" revolt*

*Use of computers and other innovative approaches*

## **20 Contemporary Approaches to Therapy, 657**

Biological Therapy, 658

*Chemotherapy*

*Electrotherapy*

*Brain-wave therapy*

Psychotherapy, 663

*Psychoanalytic therapy*

*Behavior therapy*

*Humanistic-existential therapies*

*Interpersonal therapy: marital and family therapy,  
transactional analysis*

*Group therapy and the encounter group*

Sociocultural Approaches to Therapy, 691

*Institutionalization and aftercare*

*Community mental health services*

*Modifying larger social systems*

Current Issues and Trends in Treatment, 698

*Crisis intervention*

*The use of paraprofessionals*

*Evaluation of "success" in psychotherapy*

*The issue of values*

*The human potential movement*

## **21 Action for Mental Health and a Better World, 707**

Perspectives on Prevention, 708

*Primary prevention*

*Secondary prevention*

*Tertiary prevention*

Organized Efforts for Mental Health, 712

*Governmental, professional, and lay organizations*

*International efforts for mental health*

*Limitations in mental health efforts*

Horizons in Mental Health, 720

*Toward a "good future" for man*

*The individual's contribution*
