<b>INTRODUCTION</b>	<b>1</b>
---------------------	----------

<b>CHAPTER ONE. INTRODUCTION TO INTERNET COMMERCE</b>	<b>7</b>
---	----------

The Big Picture	9
New Meanings for a New World	11
Buying and Selling	11
(Digital) Value Creation	12
New Intermediaries' Arrival	13
Opening Digital Markets	14
The Internet Effect	15
The Evolution of Electronic Commerce	16
Business-to-Business versus Business-to-Consumer Electronic Commerce	17
Comparison of Traditional Electronic Commerce with Internet-Driven Electronic Commerce	18
The Future of EDI: Open, Lighter, and Cheaper	21
The Role of Intranets	24
Do-It-Yourself Market Size Assessment	26

<b>CHAPTER TWO. BUSINESS CATALYSTS</b>	<b>29</b>
--	-----------

Distribution Costs and Value Chain Inefficiencies	29
Costs of Business Transactions	32
Search for Growth Markets	33
Competitive Pressures	34
Demands of the Electronic Consumer	35
Globalization Issues and Location Optimization for Commerce	36
Government Role and Competitive Positioning of Nations	37
United States versus Europe versus Japan: Lessons for the Future	39

### **CHAPTER THREE. TECHNOLOGY DRIVERS AND TRENDS** 43

Convergence of Technologies and Capabilities	43
Convergence of Infrastructure Components	43
Convergence of Information Appliances	44
Convergence of Vendors and Industry Services Capabilities	44
Cost of Technology	45
Content Liquidity	45
The Internetworked Enterprise	48
A Human Dimension to Technology	48
Rapidity of Software Development	49

### **CHAPTER FOUR. CHALLENGES AND SOLUTIONS TO INTERNET COMMERCE** 51

Characteristics of Internet Commerce Challenges	51
Categorizing Challenges	52
Technological Challenges	54
Strength of Security	54
Availability/Interoperability of Payment Instruments	55
Interoperability of Technologies and Applications	58
Comparative Buying Capabilities	59
Richness and Depth of Content	60
Lack of Reliable Network Infrastructure Services	60
Lack of Standards	60
Deployment of Public Key Infrastructure (PKI)	61
Technical Integration with Existing Applications	64
Bandwidth Costs	64
Legal and Regulatory Framework	65
Lack of Consistent Rules and Policies	65
Customs and Tax Uncertainties	67
The Role of Governments and Nations	68
Other Regulatory Issues	70
Behavioral and Educational Challenges	70
Trust and Privacy	70
TRUSTe	71
Complexity of PKI	73
Fraud	73
Hype	73
Awareness about Availability of Services	74
E-money Laundering	74
Organizational and Business Barriers	75

Other Miscellaneous Challenges	76
Channel Conflict	76
Critical Mass	77
Fulfillment Process	78

## CHAPTER FIVE. EMBARKING ON INTERNET COMMERCE

81

Approaching the Strategy	82
Your View of the Internet	83
It's a Network	83
It's a Medium	84
It's a Market	84
It's a Transaction Platform	84
It's an Applications Development Platform	84
The Buyer/Seller Model	85
The New Value Chain	87
Scenario 1: It Gets Smaller	87
Scenario 2: It Gets Redefined	89
Scenario 3: It Becomes Virtual	89
The Three Spheres of Connectivity	90
The Main Web Site Is Dead: Strategies for Expanding Multiple Electronic Channels	91
Direct Web	92
Indirect Web	92
Agent Web	93
The Internet Commerce Value Chain	94
Network Infrastructure	95
Commerce Infrastructure	95
Commerce Applications	96
New Intermediaries	99
Commercial Agents and Information Appliances	99
The Role of CommerceNet	102
The Vision	104
The E-co Architecture: Response to Digital Anarchy	107
COINs: Internet Commerce Applications at Work	110

## CHAPTER SIX. STRATEGY ACTIONS

113

Setting Internet's Expectations	113
Answering Strategic Questions	114
10 Steps to Cybermaturity	116
Step 1: Conduct Necessary Education	116
Step 2: Review Current Distribution and Supply Chain Models	119

Step 3: Understand What Your Customers and Partners Expect  
from the Internet 122

Step 4: Reevaluate the Nature of Your Products and Services 123

Step 5: Give a New Role to Your Human Resources  
Department 128

Step 6: Extend Your Current Systems to the Outside 131

Step 7: Track New Competitors and Market Shares in the  
New Digital Marketplace 132

Step 8: Develop a Web-Centric Marketing Strategy 133

Step 9: Participate in the Creation and Development of Virtual  
Marketplaces and Intermediaries, *Now* 134

Step 10: Instill Electronic Markets Management Style 137

**CHAPTER SEVEN. UNCOVERING NEW OPPORTUNITIES** 139

The New Intermediaries 140

Theory and Behavior of Virtual Marketplaces 140

Principle 1: Organization of Information Leads to New  
Market Power 140

Principle 2: The Uncertainty of a Transaction Journey Leads  
to Market Efficiency 144

Principle 3: The Order-of-Magnitude Factor Is the Paradigm  
Shifter 145

Principle 4: Markets Will Do Business with Other Markets 145

A Sample List of Intermediaries 146

Checklist for New Intermediaries 149

A Case of a "Multibroker" 150

New Intermediaries Examples 152

Electronic Auctions 152

On-Line Software Delivery 152

On-Line Support and Service 153

Outsourced Professional Services 153

Multimedia Content Delivery 154

Financial Transaction Brokers 154

Marketplace Concentrators 155

Products and Services Brokers 155

VAN-less EDI 156

Virtual Trading Communities 157

Digital Rights Intermediaries 158

Customer Information Intermediaries 159

Beyond Intermediaries: Real Virtual Marketplaces 159

Intermediaries on Top of Other Intermediaries 160

Virtual Everything, Inc.: Four Examples 161

## CHAPTER EIGHT. THE WIRED CONSUMER 165

Why First-Generation Consumer Malls Failed	166
Evolution of the Wired Consumer	167
Early and Curious Adopters	167
Advantage-Driven Users	167
Requirement-Driven Users	168
Pervasive Users	169
Key Needs for Consumer Internet Commerce	169
Need 1: Customer Self-Service	170
Need 2: Efficient Information Access	171
Need 3: User-Centric Queries Allowing Bidding	175
Need 4: Information Appliances	177
Need 5: Virtual Reality Experience	178
Need 6: On-Line Customer Service and Transaction History	179
Need 7: Universal Payment Instruments, Digital Wallets, and Smart Cards	181
Need 8: Microtransactions	184
Need 9: Casting Technologies	185
Ideal Virtual Shopping Store on the Internet	187
Anatomy of an Ideal Super Virtual Retail Store	188

## CHAPTER NINE. IT STRATEGIES FOR ELECTRONIC COMMERCE 191

Technical Strategy Starting Points	191
Strategies for CIOs and Corporate Web Executives	193
Issue 1: The Internet Redefines the Term <i>Legacy</i>	193
Issue 2: The Internet Is a Strategic IT Platform	193
Issue 3: Take Care of the Internetworking Platform Quickly	194
Issue 4: IT Needs Webmaster, Webmaster Needs IT, Management Needs Both	194
Issue 5: You Want It Done in Three Months?	195
Issue 6: Build versus Integrate	195
Issue 7: Outsourcing versus BOT	196
Issue 8: Get to Know the New Electronic Commerce Standards	197
Architectural Approaches to Internet Commerce	198
Systems Architecture Framework	199
Costs of Implementation	202
Security Architecture	204
Web Delivery Architecture	205
Internet Computing Goes Live	205
Distributed Design Requirements and Plug-and-Go Software	207
Netscape's ONE Model	208
Oracle's Network Computing Architecture™	209
Java Electronic Commerce Framework	209

<b>APPENDIX B. INTERNATIONAL ELECTRONIC COMMERCE ORGANIZATIONS</b>	<b>255</b>
<b>APPENDIX C. WEB INDEX OF COMPANIES CITED</b>	<b>265</b>
<b>APPENDIX D. GLOSSARY OF ACRONYMS</b>	<b>271</b>
<b>APPENDIX E. THE FUTURE OF DIGITAL MARKETS</b>	<b>273</b>
