## FIGURES

1-1	A Phenomenological Approach to an Ecological Systems Theory of Human Development	51
1-2	Modified Model of Relationships between Preexisting Risks and Adaptational Outcomes as Mediated by Perceptions about Context, Coping Strategies, and Emergent Identity Elements	52
1-3	Machismo Score as a Function of Violence/Aggression Experienced in the Neighborhood	61
10-1	Model of the Relationship between Marijuana/Hashish Use and Delinquency over Time	251
10-2	Structural Relationships among Male Youths' Marijuana/Hashish Use and Self-Reported Delinquent Behavior over Time	266

## TABLES

1-1	Expected Behavioral Outcomes as a Function of Individual Vulnerability and Environmental Risks	46
5-1	Labor Force Participation of Black and White Youth Ages 16 to 24 by School Enrollment: March 1991	147
5-2	Employment Status of Black and White Youth Ages 16 to 24 in the Labor Force by School Enrollment: 1991	148

9-1	1991 U.S. Drug and Alcohol Use by Age and Race	229
9-2	1986 Substance Use among New York State Residents Aged 18 and Older	231
9-3	1985 Adult Cocaine Lifetime Prevalence: Three City Comparison by Race, Gender, and Usage Status	232
9-4	Drug Use Prevalence: Longitudinal Harlem Sample Ages 18 to 23 (1975–1976) and 26 to 31 (1983–1984)	233
9-5	1991 Chronic Drug Abuse–Related ER Contacts Expressed as Percentage of Total Number of Contacts by Race and Age	235
9-6	1991 Prevalence of Dependence as Drug-Use Motive Expressed as Percentage of Total Number of ER Contacts by Race and Age	235
10-1	Follow-up Interview Results	253
10-2	Youths' Claimed Lifetime Use of Various Illicit Drugs at Their Initial Interview	256
10-3	Use of Various Illicit Drugs Reported by the Youths Since Their Initial Interview	257
10-4	Youths' Self-Reported Delinquent Behavior	260
11-1	National Trends in Birthrates for Unmarried Teenage Women by Race	283
11-2	Composition of Sample Age Cohorts by Age at First Birth and Heroin Use	287
11-3	Reproductive Histories (reported at ages 26–31)	289
11-4	Substance Use and Early Parenting Age at First Birth	293
11-5	Adult Social and Economic Attainment by Age at First Birth by Heroin Use (Ages 26–31)	297
11-6	Marriage, Parenting, and Household Composition by Age at First Birth by Heroin Use	303
12-1	Employment and Unemployment Rates, 1954–1983	320
