

CONTENTS

PART I: OVERVIEW AND PRINCIPLES

1	Management, Technology, and the Future	3
1.1	Introduction, 3	
1.2	Technology and Competitive Advantage, 4	
1.2.1	Technology and National Competitive Advantage, 4	
1.2.2	Technology and Competitive Advantage within the Firm, 9	
1.3	The Book, 13	
2	Principles of Sociotechnical Change	17
2.1	Theories of Social Change, 17	
2.2	Developing a Framework for Sociotechnical Change, 20	
2.2.1	Technology Forecasting, 21	
2.2.2	Impact Assessment, 22	
2.2.3	Technology Management, 22	
2.3	The Technology Delivery System, 22	
2.4	Innovation Processes, 24	
2.5	Data for Managing and Studying Sociotechnical Change, 26	
2.6	Conclusion, 27	
3	Technology Planning	30
3.1	Perspective on Planning, 30	
3.1.1	Planning, 30	
3.1.2	General Planning versus Technology Planning, 33	

- 3.2 Technology Planning Methods, 34
 - 3.2.1 Planning Processes, 34
 - 3.2.2 Impact Assessment Principles, 36
 - 3.2.3 A Seven-Step Planning Approach, 39
 - 3.2.4 Some Illustrations of Goal Setting and Mission Statements for Planning, 41
- 3.3 Tools for Technology Planning, 46

4 Forecasting **47**

- 4.1 Introduction, 47
 - 4.1.1 The Future Is Uncertain, 49
 - 4.1.2 Forecasting Targets, 51
 - 4.1.3 Criteria for Good Forecasts, 52
 - 4.1.4 Common Errors in Forecasting, 56
- 4.2 Technology Forecasting, 57
 - 4.2.1 Models of Technology Growth and Diffusion, 58
 - 4.2.2 Technology Forecasting in Context, 62
 - 4.2.3 Technology Forecasting Methods, 63
 - 4.2.4 Forecasts Impact Decision Making, 66
- 4.3 Social Forecasting, 67
- 4.4 Conclusion, 69

5 Managing the Forecasting Project **71**

- 5.1 Introduction, 71
- 5.2 Information Requirements, 72
- 5.3 Project Scheduling, 75
 - 5.3.1 PERT, 76
 - 5.3.2 Gantt Chart, 78
 - 5.3.3 Project Accountability Chart, 78
- 5.4 Management and Communications, 80
 - 5.4.1 Managing the Forecasting Project, 80
 - 5.4.2 Communications Patterns, 84
- 5.5 Conclusion, 85

PART II: METHODS

6 General Methodological Issues **89**

- 6.1 Inquiring Systems, 89
- 6.2 Scientific Inquiry and Forecasting, 92

6.3 Strategies and Techniques for Forecasting, 93	
6.3.1 Strategy for Technique Selection and Application, 93	
6.3.2 Strategy for Communicating Forecasts to Users, 97	
6.4 Conclusion, 98	
7 The Stimulation of Creativity	100
7.1 Five Elements of Creativity, 100	
7.2 Individual Creativity, 101	
7.2.1 Lateral Thinking, 101	
7.2.2 Metaphors and Analogies, 104	
7.2.3 Checklists, 104	
7.2.4 Morphological Analysis, 105	
7.2.5 Random Words, 106	
7.3 Group Creativity, 108	
7.3.1 Brainstorming, 108	
7.3.2 Crawford Slip Writing, 110	
7.3.3 Other Group Techniques, 110	
7.4 Conclusion, 111	
8 Monitoring	114
8.1 Introduction, 114	
8.2 Principles, 117	
8.2.1 Assumptions, 117	
8.2.2 Types of Monitoring, 118	
8.3 Monitoring Steps, 125	
8.3.1 Monitoring Objectives and Focus, 125	
8.3.2 Technology Description and Contextual Mapping, 126	
8.3.3 Monitoring Strategy, 126	
8.3.4 Interpretation and Communication, 129	
8.4 Implementation, 130	
8.4.1 Who Should Conduct Monitoring? 130	
8.4.2 How Should Monitoring Be Conducted? 133	
8.4.3 Integrating Monitoring Results with Other Forecasting Techniques, 134	
8.5 Recommended Sources, 134	
9 Basic Tools for Quantitative Trend Extrapolation	138
9.1 Introduction, 138	
9.2 Selecting the Variables to Extrapolate, 140	
9.3 Naive Models, 141	

- 9.4 Adaptive Weighting, 145
- 9.5 Linear Regression, 147
 - 9.5.1 Regression Model Validity, 148
 - 9.5.2 Fitting the Regression Equation, 148
 - 9.5.3 Using Causal Relationships, 157
 - 9.5.4 Evaluating the Regression Model, 160
- 9.6 Transformations, 163
- 9.7 Regression and Forecasting—Some Extensions, 165

10 Extrapolating Technological Trends 169

- 10.1 Trend Analysis in Technology Forecasting, 169
- 10.2 Steps in Trend Analysis, 169
- 10.3 The S-Shaped Curves, 175
 - 10.3.1 The Fisher-Pry Model, 176
 - 10.3.2 The Gompertz Model, 182
 - 10.3.3 Choosing Fisher-Pry or Gompertz, 185
 - 10.3.4 Selecting an Upper Bound for the Forecast, 187
- 10.4 Toward a General Model of Technological Change: The Lotka-Volterra Equations, 187
 - 10.4.1 Theory, 187
 - 10.4.2 Functional Equivalences of the Model, 190
 - 10.4.3 Issues, 197
- 10.5 Conclusion, 197

11 Expert Opinion 200

- 11.1 Introduction, 200
- 11.2 Selecting Experts, 201
- 11.3 Selecting the Technique, 204
- 11.4 Techniques for Gathering Expert Opinion, 205
 - 11.4.1 Individual Input, 206
 - 11.4.2 Committees, Seminars, and Conferences, 207
 - 11.4.3 The Nominal Group Process, 209
 - 11.4.4 Surveys, 212
 - 11.4.5 The Delphi Technique, 214
 - 11.4.6 Delphi Variants, 218
 - 11.4.7 POSTURE, 219
- 11.5 Conclusion, 220

12 Simulation 222

- 12.1 Introduction, 222
- 12.2 Cross-Impact Analysis, 223
 - 12.2.1 Traditional Cross-Impact, 223

- 12.2.2 Time-Dependent CI, 229
- 12.2.3 Other Time-Dependent CI Schemes—XimpactT, 238
- 12.2.4 Closure, 239
- 12.3 KSIM, 241
- 12.4 Forecasting with System Dynamics, 246
 - 12.4.1 The System Dynamics Philosophy of Human Systems, 247
 - 12.4.2 System Dynamics Methodology, 249
 - 12.4.3 Technology Forecasting with System Dynamics, 250
- 12.5 Gaming Simulation, 254
- 12.6 Conclusion, 257

13 Scenarios 259

- 13.1 Introduction—What are Scenarios? 259
- 13.2 Types of Scenarios, 260
- 13.3 How Are Scenarios Used? 261
- 13.4 Constructing Scenarios, 263
 - 13.4.1 The Topical Dimensions, 263
 - 13.4.2 The User, 264
 - 13.4.3 The Time Frame, 264
 - 13.4.4 The Assumptions, 264
 - 13.4.5 The Dimensions, 265
 - 13.4.6 The Number and Emphasis of Scenarios, 266
 - 13.4.7 Building and Presenting Scenarios, 267
 - 13.4.8 Examples of Scenarios, 267
- 13.5 Critiquing Scenarios, 269
- 13.6 Conclusion, 270

14 Economic Forecasting and Analysis 272

- 14.1 Introduction, 272
- 14.2 Technology and the Economy, 273
- 14.3 Markets and Innovation, 274
- 14.4 Forecasting the Economy, 276
- 14.5 Input-Output Analysis, 279
- 14.6 Conclusion, 283

PART III: ASSESSMENT TO MANAGE TECHNOLOGICAL CHANGE

15 Impact Assessment: General Issues and the Identification of the Impacts of Technology 289

- 15.1 Introduction, 289
 - 15.1.1 General Considerations, 290
 - 15.1.2 Some Distinctions, 291

- 15.2 General Issues in Impact Assessment, 292
 - 15.2.1 Assessment Steps, 292
 - 15.2.2 Issues in Assessment Quality, 293
 - 15.2.3 Impact Assessment at Different Scales of Effort, 294
 - 15.2.4 Problem Formulation and Bounding, 296
- 15.3 Impact Identification, 298
 - 15.3.1 Scanning Techniques, 298
 - 15.3.2 Tracing Techniques, 299
 - 15.3.3 Narrowing the Impact Set and Estimation of Effects, 300
- 15.4 Conclusion, 300

16 Analysis of the Impacts of Technologies 303

- 16.1 Introduction, 303
- 16.2 Impacts on Technology, 304
 - 16.2.1 Vertical Impacts, 304
 - 16.2.2 Horizontal Impacts, 305
 - 16.2.3 Integrative Impacts, 307
- 16.3 Institutional/Organizational Impacts, 308
 - 16.3.1 Internal Organizational Changes, 308
 - 16.3.2 External Institutional Changes, 308
- 16.4 Social Impacts, 309
 - 16.4.1 Social Impact Assessment, 309
 - 16.4.2 Socioeconomic Impact Assessment, 310
- 16.5 Cultural and Behavioral Impacts, 313
 - 16.5.1 Impacts of and on Values, 313
 - 16.5.2 Impacts on Behavior, 315
- 16.6 Political/Legal Impacts, 315
 - 16.6.1 Political Impacts, 315
 - 16.6.2 Legal Analysis, 316
- 16.7 International Impacts, 317
- 16.8 Environmental Impacts, 318
 - 16.8.1 Environmental Impact Assessment Methods, 318
 - 16.8.2 Topical Areas, 319
- 16.9 Health Impacts, 321
- 16.10 Conclusions, 322

17 Benefit/Cost and Risk Analysis 324

- 17.1 Introduction: Opportunity Costs and Choices—Again, 324
- 17.2 Benefit/Cost Analysis—Within the Firm, 325
- 17.3 Accounting for Risk—Within the Firm, 329

- 17.4 Benefit/Cost Analysis—Society's Stake and the Manager's Response, 335
- 17.5 Accounting for Risk in Social Decisions—Risk Assessment, 340
 - 17.5.1 A Four-Part Framework for Health Risk Assessment, 343
 - 17.5.2 Perceived Risk, 345
 - 17.5.3 Risky Decisions, 347
 - 17.5.4 Assessing Risks: Monetary and Basic Values, 350
- 17.6 Conclusion, 351

18 Evaluation of Technologies and Their Impacts 354

- 18.1 Introduction, 354
- 18.2 Criteria, 356
- 18.3 Alternatives, 358
- 18.4 Measures, 359
 - 18.4.1 Types and Levels of Measures, 359
 - 18.4.2 Measurement Inputs and Combinations, 361
- 18.5 The Analytic Hierarchy Process (AHP), 363
- 18.6 Multiple Objective Methods, 369
- 18.7 Participation and Mediation, 374
 - 18.7.1 Participation, 374
 - 18.7.2 Mediation, 375
- 18.8 Conclusion, 376

19 Managing the Present from the Future 380

- 19.1 Alternative Temporal Perspectives, 380
- 19.2 Looking Back: Historical Lessons on Technological Change, 381
- 19.3 Looking Back: Previous Forecasts and Assessments, 383
- 19.4 Looking Back: From the Future, 386
- 19.5 Visions, 387

Appendix A The Technology Forecasting TOOLKIT 391

- A.1 Introduction, 391
- A.2 Hardware Systems Required to Use the Technology Forecasting TOOLKIT, 392
- A.3 Installing and Running the Technology Forecasting TOOLKIT, 393
 - A.3.1 Installing the Technology Forecasting TOOLKIT, 393
 - A.3.2 Running the Technology Forecasting TOOLKIT, 393

A.4 A Quick Tutorial, 393

A.5 Individual Tools Available in the Technology Forecasting TOOLKIT, 397

A.5.1 Analytic Hierarchy Process, 401A.5.2 Creativity Stimulation, 401A.5.3 Cross-Impact Analysis, 402A.5.4 KSIM—Kane Simulation, 403A.5.5 Project Scheduling, 403

A.5.6 Trend Extrapolation, 404

Appendix B.1 F Statistic Values 406Appendix B.2 t Statistic Values 417Appendix C Sensitivity Analysis 419Bibliography 421Index 441

**Enclosure: Technology Forecasting TOOLKIT Disk
(for the IBM PC and compatibles)**
