Preface

xxi

Part I Technical Concepts and the Gains from Trade

1	Introduction			
	1.1	The Global Economy	3	
	1.2	Perspective on the Theory of International Trade	4	
	1.3	The Importance of International Trade	7	
		Trade, Growth, and Economic Interrelatedness	7	
		Trade and National Characteristics	9	
		The Sectoral Structure of Trade	10	
	1.4	Plan of the Book	14	
		Notes	16	
		References	16	
2	Sup	ply and Production Possibilities	17	
	2.1	Production Functions	17	
	2.2	Returns to Scale	20	
	2.3	Equilibrium for a Single Producer	22	
	2.4	The Two-Good, Two-Factor Model	24	
	2.5	The Shape of the Production Possibility Frontier	26	
	2.6	Competitive Equilibrium	29	
	2.7	Increasing Returns to Scale	32	
	2.8	Concluding Remarks	35	
		Problems	36	
		Notes	36	
		References	37	
3	Pref	ferences, Demand, and Welfare	38	
	3.1	The Utility Function	38	
	3.2	Characteristics of Indifference Curves		
	3.3	The Maximization of Utility	40	
	5.0	The Maximization of Culity	42	

	3.4	Aggregating Individual Preferences Interpreting Community Indifference Curves:	45
	3.5	Aggregate Demand versus Individual Welfare	47
	3.6	Concluding Remarks	49
	0.0	Problems	50
		Notes	50
		References	50
4	Gene	ral Equilibrium in Open and Closed	
		omies	52
	4.1	General Equilibrium in the Closed (Autarky) Economy	52
	4.2	General Equilibrium in the Open (Trading) Economy	54
	4.3	The Excess Demand Function	55
	4.4	The Shape of Excess Demand Curves	56
	4.5	International General Equilibrium	57
	4.6	Concluding Remarks	58
		Problems	59
		Notes	60
		References	60
5	The C	Gains from Trade	61
•	5.1	Gains from Trade	61
	5.2	The Gains-From-Trade Theorem	63
	5.3	The Gains from Exchange	66
	5.4	The Gains from Specialization	68
	5.5	The Distribution of Gains with Heterogeneous Tastes	71
	5.6	The Distribution of Gains with Heterogeneous	
	0.0	Endowments	72
	5.7	Concluding Remarks	73
		Problems	74
		Notes	74
		References	75
D / II	~	1 Commonage of Trade	
Part II	Ca-	use and Consequences of Trade	
0	m	G flutomotional Trade	79
6	The	e Causes of International Trade	79
	6.1	The No-Trade Model	81
	6.2	Some Methodological Considerations	0.
7	Dif	ferences in Technology	84
	7.1	A Simple Model of Production Function Differences	84
	7.2	Absolute and Comparative Advantage	88
	7.3	The Production Possibility Frontier	87
	7.4	Excess Demand and International Equilibrium	89
	7.5	The Role of Wages	90
	7.6	The Distribution of Gains from Trade: Big versus	~
		Small Countries	92

		Contents	xiii			
	7.7	Concluding Remarks	95			
		Problems	96			
		Notes	96			
		References	97			
8	The	Heckscher-Ohlin Model	98			
	8.1	Introduction	98			
	8.2	The Effects of Endowment Differences	99			
		Factor Endowments	100			
•		Factor Intensities	101			
		Implications	102			
	8.3	The Heckscher-Ohlin Theorem	104			
	8.4	The Factor-Price-Equalization Theorem	108			
	8.5	The Stolper-Samuelson and Rybczynski Theorems	114			
		The Stolper-Samuelson Theorem	114			
		The Rybczynski Theorem	118			
	8.6	Trade Theory with Many Goods and Factors	121			
	8.7	Concluding Remarks	123			
		Problems	124			
		Notes	124			
		References	126			
9	The Specific-Factors Model					
	9.1	Introduction	127			
	9.2	The Specific-Factors Model	129			
	9.3	Commodity Prices and Factor Prices	132			
	9.4	Endowment Changes, Factor Prices, and Outputs	135			
		Factor Price Equalization	135			
		Endowment Changes and Outputs	138			
	9.5	The Pattern of Trade	138			
	9.6	Concluding Remarks	139			
		Problems	140			
		Notes	141			
		References	141			
10	Government Policies as Determinants					
	of Ti	rade	142			
	10.1	Introduction	142			
	10.2	Distinguishing among Consumer, Producer, and World Prices	143			
	10.3	Taxes and Subsidies as Determinants of Trade:				
		A Small Open Economy	145			
	10.4	Taxes and Subsidies as Determinants of Trade:				
		Two Identical Countries	148			
	10.5	Gains from Trade: A Formal Analysis	150			
	10.6	Factor Market Distortions	152			
	10.7	Concluding Remarks	156			
		Problems	157			
		Notes	157
