List of Figures, Tables, and Boxes	viii
Acknowledgments	xii
1. Introduction	1
A. The General Problem	1
B. The Nature of This Book	2
Audiences	3
Approach	3
C. Our Orientation	4
D. Varieties of Qualitative Research	5
Recurring Features of Qualitative Research	5
Three Approaches to Qualitative Data	8
Analysis	9
Analytic Methods: Some Common	9
Features	9
E. The Nature of Qualitative Data	9
General Nature	9
Some Underlying Issues	10
Strengths of Qualitative Data	10
F. Our View of Qualitative Analysis	10
Data Reduction	11
Data Display	11
Conclusion Drawing and Verification	12
G. Using This Book	12
Overview	12

ents

Format of Specific Methods	12
Suggestions for Users	12
2. Focusing and Bounding the Collection of Data: The Substantive Start	16
Tight Versus Loose: Some Trade-offs	16
A. Building a Conceptual Framework	18
B. Formulating Research Questions	22
C. Defining the Case: Bounding the Territory	25
D. Sampling: Bounding the Collection of Data	27
E. Instrumentation	34
Summary Comments	38
3. Focusing and Bounding the Collection of Data: Further Design Issues	40
A. Linking Qualitative and Quantitative Data	40
Rationale	40
Brief Description	42
Illustrations	42
Advice	43
B. Management Issues Bearing on Analysis	43
Computer Use	43
Data Management	45
Staffing and Time Planning	46
Agreements With Study Participants	47
Summary Comments	48

4. Early Steps in Analysis	50
Our Assumptions About “Data”	51
A. Contact Summary Sheet	51
Document Summary Form	54
B. Codes and Coding	55
Reflective Remarks	66
Marginal Remarks	66
C. Pattern Coding	69
D. Memoing	72
Developing Propositions	75
E. Case Analysis Meeting	76
F. Interim Case Summary	77
Data Accounting Sheet	80
G. Vignettes	81
H. Prestructured Case	83
I. Sequential Analyses	85
Summary Comments	88
5. Within-Case Displays: Exploring and Describing	90
Describing and Explaining	90
A. How Data Displays Work	91
B. Partially Ordered Displays	102
Context Chart	102
Checklist Matrix	105
The Transcript as Poem	110
C. Time-Ordered Displays	110
Event Listing	110
Critical Incident Chart	115
Event-State Network	115
Activity Record	117
Decision Modeling	117
Growth Gradient	118
Time-Ordered Matrix	119
D. Role-Ordered Displays	122
Role-Ordered Matrix	122
Role-by-Time Matrix	126
E. Conceptually Ordered Displays	127
Conceptually Clustered Matrix	127
Thematic Conceptual Matrix	131
Folk Taxonomy	133
Cognitive Maps	134
Effects Matrix	137
Summary Comment	141
6. Within-Case Displays: Explaining and Predicting	143
A. Explanations and Causality	144
What Does It Mean to Explain Something?	144
A Way of Thinking About Causality	145
The Power of Qualitative Causal Analysis	147
B. Explanatory Effects Matrix	148
C. Case Dynamics Matrix	148
D. Causal Network	151
Verifying Causal Networks	163
E. Making and Testing Predictions	165

Summary Comments	170
7. Cross-Case Displays: Exploring and Describing	172
A. Cross-Case Analysis: Overview	172
Why Do Cross-Case Analysis?	173
A Key Distinction: Variables Versus Cases	173
Strategies for Cross-Case Analysis	174
B. Partially Ordered Displays	177
Partially-Ordered Meta-Matrix	177
C. Conceptually Ordered Displays	183
Content-Analytic Summary Table	183
Substructuring a Variable	184
Construct Table	184
Decision Tree Modeling	185
D. Case-Ordered Displays	187
Case-Ordered Descriptive Meta-Matrix	187
Ordering Cases Through Summed Indices	193
Two-Variable Case-Ordered Matrix	195
Contrast Table	195
Scatterplot	197
E. Time-Ordered Displays	200
Time-Ordered Meta-Matrix	200
Scatterplots Over Time	203
Composite Sequence Analysis	204
Summary Comments	205
8. Cross-Case Displays: Ordering and Explaining	207
A. Explaining Through Comparative Analysis	207
The Main Issue	207
Working Principles	207
B. Case-Ordered Effects Matrix	208
C. Case-Ordered Predictor-Outcome Matrix	213
Predictor-Outcome Consequences Matrix	217
D. Variable-by-Variable Matrix	219
E. Causal Models	222
Causal Chains	227
F. Causal Networks—Cross-Case Analysis	228
Antecedents Matrix	233
Summary Comments	237
9. Matrix Displays: Some Rules of Thumb	239
A. Building Matrix Displays	240
Matrix Elements	240
Rules of Thumb for Matrix Building	241
B. Entering Matrix Data	241
Rules of Thumb for Data Entry	241
C. Drawing Conclusions From Matrix Data	242
Rules of Thumb for Conclusion Drawing	242
10. Making Good Sense: Drawing and Verifying Conclusions	245
A. Tactics for Generating Meaning	245
1. Noting Patterns, Themes	246
2. Seeing Plausibility	246

3. Clustering	248
4. Making Metaphors	250
5. Counting	252
6. Making Contrasts/Comparisons	254
7. Partitioning Variables	254
8. Subsuming Particulars Into the General	255
9. Factoring	256
10. Noting Relations Between Variables	257
11. Finding Intervening Variables	258
12. Building a Logical Chain of Evidence	260
13. Making Conceptual/Theoretical Coherence	261
B. Tactics for Testing or Confirming Findings	262
1. Checking for Representativeness	263
2. Checking for Researcher Effects	265
3. Triangulating	266
4. Weighting the Evidence	267
5. Checking the Meaning of Outliers	269
6. Using Extreme Cases	270
7. Following Up Surprises	270
8. Looking for Negative Evidence	271
9. Making If-Then Tests	271
10. Ruling Out Spurious Relations	272
11. Replicating a Finding	273
12. Checking Out Rival Explanations	274
13. Getting Feedback From Informants	275
C. Standards for the Quality of Conclusions	277
Objectivity/Confirmability	278
Reliability/Dependability/Auditability	278
Internal Validity/Credibility/Authenticity	278
External Validity/Transferability/Fittingness	279
Utilization/Application/Action Orientation	280
D. Documentation	280
Summary Comments	286
 11. Ethical Issues in Analysis	 288
Some Framing Remarks	288
Ethical Theories	289
Specific Ethical Issues	290
Conflicts, Dilemmas, and Trade-offs	295
Advice	296
Summary Comments	297

12. Producing Reports	298
The General Problem	298
Audiences and Effects	299
Voices, Genres, and Stances	300
Style	301
Formats and Structures	301
Using Reports	304
Summary Comments	306
13. Concluding Remarks	307
Seeing Qualitative Analysis Whole	307
Reflections	309
Advice	310
 Appendix: Choosing Computer Programs for Qualitative Data Analysis	 311
1. Overview and Suggestions for Use	311
2. Software Types and Functions	311
General Types	311
Specific Functions: What to Look For	312
Other Considerations	313
3. How to Choose Software: Key Questions	313
What Kind of Computer User Are You?	313
What Kind of Database and Project Is It?	314
What Kind of Analysis Is Anticipated?	314
4. Program Characteristics	315
5. Program Developers and Distributors	315
6. References	317
 References	 318
 Author Index	 331
 Subject Index	 334
 About the Authors	 337

List of Figures, Tables, and Appendices

Figures

1.1	Qualitative Strategies in Educational Research	6
1.2	Graphic Overview of Qualitative Research Types	7
1.3	Components of Data Analysis: Flow Model	10
1.4	Components of Data Analysis: Interactive Model	12
2.1	Conceptual Framework for a Study of the Dissemination of Educational Innovations	18
2.2	Second Conceptual Framework for a Study of the Dissemination of Educational Innovations	19
2.3	Conceptual Framework for a Multicase “School Improvement” Field Study, Initial Version	20
2.4	General and Specific Research Questions Relating to the Adoption Decision (School Improvement Study)	24
2.5	The Case as the Unit of Analysis	25
2.6	Typology of Sampling Strategies in Qualitative Inquiry	28
2.7	Prior Instrumentation: Key Decision Factors	36
2.8	Excerpts From Interview Guide, School Improvement Study	37
3.1	Illustrative Designs Linking Qualitative and Quantitative Data	41
3.2	Uses of Computer Software in Qualitative Studies	44
3.3	What to Store, Retrieve From, and Retain	46
3.4	The “Arithmetic” for a Project	47
3.5	Questions for Agreement With Study Participants	48

ables, and Boxes

4.1	Contact Summary Form: Illustration (excerpts)	53
4.2	Contact Summary Form: Illustration With Coded Themes (excerpt)	54
4.3	Example of Category Card	61
4.4	Illustration of a Poorly Structured List of Codes (excerpt)	63
4.5	Definitions of Selected Codes From Table 4.1 (excerpt)	64
4.6	A Colleague's Marginal Notes: Excerpt	68
4.7	Mapping of Concepts: Illustration	71
4.8	Interrelation of Pattern Codes	71
4.9	Case Analysis Meeting Form	76
4.10	Case Analysis Form: Exhibit With Data	78
4.11	Summary-Aided Approach to Analysis	79
4.12	Interim Case Summary Outline: Illustration	79
4.13	Prestructured Case Outline: Abbreviated Version	84
4.14	Traditional Analysis Sequence Compared With Prestructured Case	85
4.15	Marginal Notes as a Coding Aid	88
5.1	The Ladder of Analytical Abstraction	92
5.2	Growth Gradient for ECRI Innovation, Masepa Case	97
5.3	Illustration of Context Chart With Assistance Flows (Masepa Case)	99
5.4	Interaction Between Display and Analytic Text	101

5.5	Context Chart for Tindale East High School and District	103
5.6	Cognitive Map: Peter's View of How Restructuring Proceeds	135
5.7	Descriptive Account for Peter's Map of How Restructuring Proceeds	136
6.1	Causal Network for Perry-Parkdale CARED Program	154
6.2	Causal Fragment: Mastery of a New Educational Practice	157
6.3	List of Antecedent, Mediating, and Outcome Variables: School Improvement Study	157
6.4	Excerpt From an Event-State Network: Perry-Parkdale School	158
6.5	Excerpt From a Causal Network: Perry-Parkdale School	159
6.6	Narrative for Causal Network: Perry-Parkdale CARED Program	161
6.7	Factors Supporting "Institutionalization" Prediction	166
6.8	Factors Working Against "Institutionalization" Prediction	167
6.9	Filled-Out Response Form From Case Informant for "Institutionalization" Prediction	168
6.10	Prediction Feedback Form, Part I	169
6.11	Prediction Feedback Form, Part II	169
6.12	Nonrecursive Relationship	171
7.1	Hypothetical Quantitative Data Set: Factors Influencing University Attendance	173
7.2	Hypothetical Path Analysis: Factors Influencing University Attendance	174
7.3	Composite Sequence Analysis: Career Trajectory Data for 11 Cases	176
7.4	Case Examples: Decisions About the Breakfast Contract by Two Students	186
7.5	Composite Model 1: The Freshman's Decision to Buy or Not Buy a Breakfast Contract	187
7.6	Composite Model 2: The Freshman's Decision to Buy or Not Buy a Breakfast Contract	188
7.7	Scatterplot: Relationship of Pressure to Adopt and Degree of Latitude Given to Users at 12 Sites	199
7.3	(Repeated) Composite Sequence Analysis: Career Trajectory Data for 11 Cases	205
8.1	Summary Table: Typical Consequences of Coping, by Case	222
8.2	Causal Flowchart Tracing User Practice Changes	225
8.3	Causal Network for Perry-Parkdale CARED Program (immediate causes of job mobility marked)	229
8.4	Subnetwork: Variable Streams Leading to High Job Mobility, Perry-Parkdale Case	230
8.5	Subnetwork for Job Mobility, Calston Case	231
8.6	Subnetwork for Job Mobility, Banestown Case	232
8.7	Subnetwork for Job Mobility, Plummet Case	233
8.8	Scenario 2: Moderate/High Outcomes From High Mastery and Low Settledness	235

8.9	Scenario 3: Moderate/Low Outcomes From Program Blunting/Downsizing	236
10.1	Illustration of Clustering, Using Dendrogram Method	251
10.2	Reasons Given for Adoption by Users	253
10.3	Two-Variable Relationship	259
10.4	Two-Variable Relationship With Intervening Variables	259
10.5	Example of a Chain of Evidence Supporting an Observed Outcome	260
10.6	Possible Explanation of Spurious Relationship	273
10.7	Display for Testing Explanation in Figure 10.6	273
10.8	Code List for Analysis Operations	285
13.1	Overview of Qualitative Data Analysis Processes	308

Tables

2.1	Characteristics of Field Study Sample	32
2.2	Final Sampling Frame for Field Study	33
4.1	Illustration of a Start List of Codes	59
5.1	Event Listing, Banestown Case	94
5.2	Checklist Matrix: Conditions Supporting Preparedness at Smithson School, Banestown Case	95
5.3	Effects Matrix: Assistance Location and Types (Masepa Case)	96
5.2	(Repeated) Checklist Matrix: Conditions Supporting Preparedness at Smithson School, Banestown Case	107
5.4	Checklist Matrix on Preparedness (alternative format 1)	108
5.5	Checklist Matrix on Preparedness (alternative format 2)	109
5.6	Checklist Matrix on Preparedness (alternative format 3)	109
5.1	(Repeated) Event Listing, Banestown Case	112
5.7	Time-Ordered Matrix: Changes in the CARED Innovation (a work-experience program)	120
5.8	Summary Table for Verifying and Interpreting Time-Ordered Matrix: Changes in the CARED Innovation	121
5.9	Role-Ordered Matrix: First Reactions to the Innovation	124
5.10	Role-Ordered Matrix: Example of a Next-Step Matrix to Analyze Initial Findings (first reactions to the innovation)	126
5.11	Conceptually Clustered Matrix: Motives and Attitudes (format)	128
5.12	Conceptually Clustered Matrix: Motives and Attitudes of Users, Nonusers, and Administrators at Masepa	130
5.13	Componential Analysis: Example for Seven Cars According to Jack	133
5.14	Effects Matrix: Organizational Changes After Implementation of the ECRI Program	138
5.15	Effects Matrix: Direct, Meta, and Side Effects of Program (Environmental Studies, Lido High School)	140

6.1	Case Dynamics Matrix: The IPA Innovation as a Force for Organizational Change in the District and Its Schools	150
6.2	Case Dynamics Matrix: Organizational Dilemmas Posed by ECRI Program	152
7.1	Hypothetical Qualitative Data Set for a Case: Influence Actions and Responses, Case #005, Nynke van der Molen	175
7.2	Case-Level Display for Partially Ordered Meta-Matrix (format)	178
7.3	Case-Level Display for Partially Ordered Meta-Matrix: Users' Second Year of Implementation at Lido	179
7.4	Partially Ordered Meta-Matrix: User Feelings/Concerns and Other Variables (format)	179
7.5	Partially Ordered Meta-Matrix: User Feelings/Concerns and Other Variables (Lido data)	180
7.6	Time-Ordered Meta-Matrix (format)	180
7.7	Summary Table: Individual and Institutional Concerns During Later Implementation	181
7.8	Clustered Summary Table: Problems Stemming From Major Tasks of Later Implementation at Field Sites	182
7.9	Content-Analytic Summary Table: The Content of Organization Changes	183
7.10	Construct Table: Example of Tabulated Evidence for a Power Centralization Construct	185
7.11	Case-Ordered Meta-Matrix: Format for Student Impact Data (version 1)	189
7.12	Case-Ordered Meta-Matrix: Format for Student Impact Data (version 2)	189
7.13	Case-Ordered Descriptive Meta-Matrix (excerpt): Program Objectives and Student Impact (direct, meta-level, and side effects)	191
7.14	Case-Ordered Descriptive Meta-Matrix, Next-Step Version (excerpt): Program Objectives and Student Impact	192
7.15	Time-Ordered Meta-Matrix (preliminary format)	200
7.16	Time-Ordered Meta-Matrix: Job Mobility at Sites	201
8.1	Case-Ordered Effects Matrix (preliminary format)	209
8.2	Case-Ordered Effects Matrix (version 2 of format)	209
8.3	Case-Ordered Effects Matrix (version 3 of format)	210
8.4	Case-Ordered Effects Matrix: Effects of Ongoing and Event-Linked Assistance	211
8.5	Case-Ordered Predictor-Outcome Matrix: Degree of Preparedness as Related to Ease of Early Implementation	214
8.6	Case-Ordered Predictor-Outcome Matrix: Additional Factors Related to Early Implementation	216
8.7	Case-Ordered Predictor-Outcome Matrix: Factors Contributing to Parent Involvement	218
8.8	Variable-by-Variable Matrix: Coping Strategies and Problems, by Case	221
8.9	Predictor-Outcome Matrix: Predictors of Magnitude of User Practice Change	224

10.1	Case-Ordered Meta-Matrix: Percentage of Use, by Cases	247
10.2	Qualitative Analysis Documentation Form	283
11.1	Ethical Frameworks and Aspects of Research	290
12.1	Matrix for Objectives of Dissemination Strategy Planning	305
A.1	Program Characteristics	316

Boxes

2.1	Conceptual Framework for an Ethnographic Study	21
2.2	Emergent Conceptual Framework: The Antecedents and Consequences of Cloaking Organizational Activities	21
2.3	Types of Research Questions: Example	24
4.1	Document Summary Form: Illustration	55
4.2	Reflective Remarks: Illustrations	67
4.3	Marginal Remarks: Illustrations	67
4.4	Data Accounting Sheet: Abstract Example	81
4.5	Data Accounting Sheet: Illustration	82
4.6	Narrative Scene: Excerpt	83
5.1	Excerpt From a Transcript as Poem	110
5.2	Event Flow Network: A Student's Learning and Work Experience	114
5.3	Critical Incident Chart and Time Line (excerpt from Hawthorn School)	115
5.4	Event-State Network, Banestown Case (excerpt)	116
5.5	Activity Record: Example	117
5.6	Decision Modeling: Example	118
5.7	Role-by-Time Matrix: Illustration Role Assistance, by Phase	127
5.8	Thematic Conceptual Matrix: Problems and Coping Strategies (Example From Chester High School)	132
5.9	Portion of Jack's Folk Taxonomy of Cars and Trucks	133
6.1	Two Event Sequences	145
6.2	Explanatory Effects Matrix: Ongoing Assistance	149
6.3	Cause-Effect Loops	153
6.4	Segmented Causal Network: The Influence of PEP Program at Berton College	162
6.5	Smoothed Causal Network: The Variables and Relationships Linking Administrators' Actions and Teacher Development Activities	163
6.6	Response Form for Causal Network Verification	164
7.1	Substructured Variable: Extent of Organizational Change	184
7.2	Summed Indices: Reported Changes in User Practice and Perception	194
7.3	Two-Variable Case-Ordered Matrix: Relationships Between User Practice Stabilization and Local Continuation	196
7.4	Two-Variable Case-Ordered Matrix: Speed of Decision Making and Alternatives Considered	197
7.5	Contrast Table: Exemplary Cases Showing Different Degrees of User Change	198

7.6	Scatterplot Over Time: The Consequences of Assistance	203
8.1	Content-Analytic Summary Table: Short- and Long-Term Effects of Assistance, by Assistance Domain	212
8.2	Content-Analytic Summary Table: Assistance Effects in High- and Low-Assistance Cases	212
8.3	Predictor-Outcome Consequences Matrix: Antecedents and Consequences of Assistance	219

7.2	(Repeated) Summed Indices: Reported Changes in User Practice and Perception	223
8.4	Causal Chain: Illustration	227
8.5	Causal Chain: Illustration	227
8.6	Antecedents Matrix: Antecedents of Student Impact	234
10.1	Clusters of Information-Processing Capacities	248
10.2	Overlapping Clusters: Behavioral Modes at the Workplace	249
