1 Introduction: background and purpose	6
1.1 Purpose and approach of the report	6
1.2 The policy context of integration.....	7
1.3 The IRENA operation	7
2 Driving forces for agricultural trends	8
2.1 Introduction	8
2.2 External driving forces	8
2.2.1 Changing trade patterns	8
2.2.2 Consumer and market factors	9
2.2.3 Availability of land for agricultural production	10
2.3 Internal driving forces.....	11
2.3.1 Economic trends in farming	11
2.3.2 Social trends (attitudes).....	17
2.3.3 Technological developments	17
3 Environmental issues in agriculture	18
3.1 Introduction	18
3.2 Environmental issues and agri-environment indicators.....	18
3.3 Soil	19
3.3.1 Soil erosion	19
3.3.2 Soil quality	20
3.4 Air quality and climate change	21
3.5 Water	22
3.5.1 Water quantity.....	22
3.5.2 Water quality	24
3.6 Biodiversity and landscape	25
3.6.1 Biodiversity	25
3.6.2 Landscapes	27
4 A framework for assessing policy integration	29
4.1 Introduction	29
4.2 Assessing policy integration	29
4.3 Environmental targets and objectives in the agriculture sector.....	30
4.3.1 Review of objectives and targets contained in key documents	31
4.3.2 Summary of the policy framework for environmental integration.....	34
4.4 CAP instruments for environmental integration in the agriculture sector	35
4.4.1 Introduction: the approach to integration in the CAP.....	35
4.4.2 CAP instruments	35
4.5 Review of the potential of policy instruments for environmental integration	38

5	Assessing environmental integration in EU agriculture policy	40
5.1	Introduction	40
5.2	The implementation of policy instruments by Member States.....	41
5.2.1	Assessment of IRENA indicators	41
5.2.2	Other policy instruments	44
5.2.3	Summary.....	45
5.3	Case studies on the integration of environmental concerns into EU agriculture policy	45
5.3.1	The protection of farmland biodiversity	47
5.3.2	Nutrient management.....	51
6	Summary and conclusions.....	55
6.1	Key results of the indicator-based analysis.....	55
6.2	Conclusions of the policy integration assessment	55
6.3	Usefulness of the current indicator framework for integration analysis	56
6.4	Recommendations for future monitoring and evaluation of agri-environment policies	57
