Introduction	1
<i>Judith Piggott and Mark Cook</i>	
Structure of the book	2
 1 The changing nature of international business	 5
<i>Judith Piggott and Mark Cook</i>	
Objectives	5
Introduction	5
Growth of large firms	5
Deregulation and the internationalisation process	6
The impact of technology	8
Types of growth	9
Joint ventures	11
Strategic alliances	12
Mergers and acquisitions in Europe	12
Main targeted regions	15
The shrinking boundaries of the firm	18
The business environment in Europe	21
Europe's best?	26
Conclusion	29
Questions	30
Note	30
References	31
 2 International trade	 32
<i>Judith Piggott</i>	

Objectives	32
Introduction	32
Mercantilism	32
Absolute advantage	33
Comparative advantage	34
An empirical study of comparative advantage	37
Criticisms of the comparative advantage theory	38
The Heckscher-Ohlin theorem	39
The Leontief paradox	39
World trade flows	41
Increasing returns and imperfect competition	45
Linder's preference similarity hypothesis	46
Posner's technological gap theory	47
Vernon's product cycle model	47
Porter's competitive advantage theory and Porter's diamond	48
Fair and ethical trade	52
Conclusion	55
Questions	55
Notes	56
References	57

3 The protection of trade 58

Judith Piggott

Objectives	58
Introduction	58
Arguments for protectionism	58
Infant industry	58
Strategic argument	59
Revenue reasons	59
Unfair competition	60

Terms of trade/optimal tariff argument	61
Strategic trade policy	61
The balance of trade effect	61
Tariffs as a barrier to trade	62
Non-tariff barriers to trade	65
Quotas	65
Voluntary export restraints (VERs)	67
Production subsidies	68
Export subsidies	69
Discriminatory government procurement	72
Multiple exchange rates	74
Indirect non-tariff barriers	74
Differences in indirect taxes	76
Why there was a growth in non-tariff arrangements	76
GATT	76
The GATT rounds	77
The Uruguay Round	78
Since the Uruguay Round: the WTO in practice	82
Ministerial meetings and the Doha Development Agenda	82
Green trade issues	84
Conclusion	85
Questions	86
Notes	86
References	86

4 Economic integration	89
<i>Haluk Sezer and Judith Piggott</i>	
Objectives	89
Introduction	89
Forms of economic integration	89
The theory of customs unions	91
Partial equilibrium theory of customs unions	93
Conclusions from Viner's analysis	94
The terms of trade effects	95
Dynamic consequences of economic integration	95
Empirical studies	96
The adjustment costs of integration and implications for distribution	98

Economic integration in practice	99
A historical background	99
Origins and nature of the European Union	100
The development of the European Union	101
The 1980s	102
The Single European Market	103
The Maastricht Treaty 1993/enlargement of the European Union	105
The new EU constitution	110
Economic integration outside the European Union	111
NAFTA	112
Mercosur	113
FTAA	114
ASEAN	115
APEC	115
Conclusion	116
Questions	116
Notes	118
References	118
Appendix 4.1 Regional trading blocs in the world	121
5 Foreign exchange markets	124
<i>Judith Piggott and Andy Kilmister</i>	
Objectives	124
Introduction	124
The foreign exchange market	125
How the exchange rate is measured	125
Nominal exchange rates	126
Effective exchange rates (EER)	127
Real exchange rates (RER)	127
Who buys and sells foreign currencies?	129
Factors that determine foreign exchange movements	132
Fixed and floating exchange rates	132
Advantages and disadvantages of floating and fixed exchange rates	135
Other types of exchange rate systems	136
Adjustable peg system	136

Contents

Target zones	136
Currency boards	137
Managed floating (sometimes called dirty floating)	137
Theories of exchange rate determination	137
Purchasing power parity	137
Monetary models of the exchange rate	141
Interest parity conditions	141
The Dornbusch 'overshooting' model	143
Portfolio balance and currency substitution	144
Empirical challenges and new developments	146
European monetary union	146
Optimum currency areas and the rationale for a single currency	146
The international role of the euro	150
Conclusion	153
Questions	153
Notes	155
References	155

6 Multinational corporations or MNCs 157

Alan Jarman

Objectives	157
Introduction	157
What are MNCs?	158
Why are MNCs important?	159
The largest companies in the world	160
MNC research	163
The positive and negative effects of MNCs	166
MNCs – a case for action?	173
Globalisation and MNCs – is action possible?	178
Conclusion	183
Questions	183
References	184

7 Foreign direct investment 186

Haluk Sezer

Objectives	186
Introduction	186
Definition	186
Historical pattern of FDI	187
Pre-First World War period	187
The inter-war period	189
The post-war period	189
Recent developments	190
Distribution and structure of FDI	193
Theories of FDI	194
The paradigm of ownership, location and internalisation (OLI)	195
Traditional theories of FDI	196
Capital arbitrage theory	196
FDI and international trade theory	199
Modern theories of FDI	200
The Hymerian view	200
The Uppsala internationalisation model	200
Aliber's theory of FDI	201
The product cycle model	201
The internalisation theories of FDI	202
The eclectic theory of FDI	202
The radical (heterodox) explanations of FDI	204
FDI in the European Union	207
Inflows	207
Outflows	208
Distribution of FDI in the European Union	210
Intra-EU FDI	210
The sectoral distribution of FDI in the European Union	213
The impact of FDI	215
The effect on the labour market	215
Technology transfer	216
The effect on the capital market	216
The effect on the balance of payments	217
The effect on management styles	218
Policy issues	218

Conclusion	219
Questions	219
References	220
8 International and European capital markets	223
<i>Andy Kilmister</i>	
Objectives	223
Introduction	223
Historical developments	224
Financial regulation	227
Proposals for a single European financial market	231
Recent developments in European financial policy	234
Measuring financial integration	236
The European money markets	237
The European bond markets	237
The European credit market	240
The European equity markets	244
Conclusion	247
Questions	247
Note	248
References	249
9 Labour markets	251
<i>Mark Cook</i>	
Objectives	251
EU and international/global labour markets	251
The Social Charter	254
Flexible labour markets	255
Occupational mobility	257
Skills level and mobility	258
Regional impact of skills	258
Demographic change and its impact on labour markets	259
Skills needs and skill deficiencies of industry	262
Labour costs and business location	266
Wages and other labour costs	268
Corporate pay	270
Other labour costs	272
Productivity in European and international labour markets	272
Conclusion	276
Questions	277
References	278

10 Industry policy and competition policy	280
<i>Alan Jarman</i>	
Objectives	280
Introduction	280
IP in the EU context	281
What is IP?	282
The theory behind, and the rationale for, IP	283
IP in the United Kingdom	285
IP in the European Union	286
Public procurement	286
State aid	288
State aid: the legal framework	289
Procedures for supervision of state aid	290
What is meant by CP?	291
The objectives of CP	293
The purpose of EU CP	295
The practice of EU CP	297
Article 81	297
Article 82	301
Mergers, acquisitions and joint ventures	305
The rationale for mergers and joint ventures	305
Public policy and mergers	305
Mergers and EU CP	306
Joint ventures	308
Conclusion	309
Questions	310
Note	311
References	311

11 EU policy and its impact on business: regional, transport and environmental policy	314
<i>Mark Cook</i>	
Objectives	314
Introduction	314
Regional policy	314
Theories behind the need for regional policy	314
The EU states' approach to regional policy	318

Contents

Comparing the EU regional approaches	319
Assessing regional policy at the member state level	320
Changes in EU regional policy over the past 20 years	321
Assessing the performance of regional policy	325
Assessing cohesion policies	325
Proposals for a regional policy after 2006	327
The revised cohesion policy for 2006–13	327
EU environmental policy	329
Water	331
Waste	331
Climate change	332
Environment standards	335
How can the European Union achieve its policy of protecting the environment?	336
The environment and trade	337
Transport policy	338
Road haulage	339
The air transport and passenger industry	341
Conclusion	343
Questions	344
References	345

12 Small business and EU policy	346
<i>Mark Cook</i>	
Objectives	346
Introduction	346
Size and structure of European SMEs	347
The country level	348
SMEs and industrial sectors	348
SMEs in the enlarged Europe	349
SMEs in the United States and Japan	349
Changes in the performance of SMEs	350
Changes in performance across European countries	352
Internationalisation and SMEs	353

The level of inter-nationalisation within European countries	354
Size and internationalisation	355
The development of alliances and networks	356
Towards a theory of SME internationalisation	357
Born globals	358
The holistic approach to internationalisation	358
Psychic distance research	359
Network theory	359
The drivers of internationalisation among SMEs	359
Push or pull factors	359
Barriers to exporting by SMEs	360
The role of the Internet	361
Shortages of capital as a barrier	361
Trade barriers	362
European policy towards SMEs	362
Other policy measures affecting SMEs	362
Direct policy measures affecting SMEs	364
SMEs and EU enlargement	365
Conclusion	368
Questions	368
References	369

13 Conclusion 372

Judith Piggott and Mark Cook

Enlargement of the European Union	372
Depth of integration	373
Internal structure	374
Changes in the global market	374
Demographics	375
Technology and innovation	375
Environment	376
Note	377
