

Contents

Preface	11
Chapter 1 Linguistic Foundations	13
1.1 Generalized Thematic Roles and the Thematic Hierarchy	13
1.2 Morphosyntactic Realization of Thematic Dependencies	15
1.2.1 Case Marking	15
1.2.2 Word Order	17
1.2.3 The Special Status of the Dative	18
Chapter 2 Neurophysiology of Language	23
2.1 Basics	23
2.1.1 The Electroencephalogram (EEG)	23
2.1.2 The Event Related Brain Potential (ERP).....	24
2.1.3 ERP Components	25
2.2 Language-Related ERP Components.....	25
2.2.1 Left Anterior Negativities	26
2.2.2 N400.....	27
2.2.3 P600.....	28
2.3 Developmental Aspects.....	29
2.3.1 Brain Development	29
2.3.2 Left Anterior Negativities	30
2.3.3 N400.....	32
2.3.4 P600.....	33
Chapter 3 Sentence Comprehension in Adults	35
3.1 Case and Thematic Interpretation	35
3.2 The Processing of Word Order Information	39
3.3 Sentence Processing Models.....	44

Chapter 4	Sentence Comprehension in Children	49
4.1	Processing of Case Ambiguous Arguments.....	49
4.2	Processing of Case Marked Arguments	51
4.3	Language Acquisition: The Theoretical Perspective	55
4.3.1	The Competition Model	56
4.3.2	The Generalized Hierarchy Approach	58
4.3.3	Bootstrapping Accounts.....	60
4.3.4	The Argument Dependency Model and Language Acquisition	62
Chapter 5	Research Questions	67
Chapter 6	Experiment I: The Processing of Dative Structures in Adults	69
6.1	Introduction.....	69
6.2	Methods.....	70
6.2.1	Participants.....	70
6.2.2	Experimental Material and Design.....	70
6.2.2.1	Experimental Sentences	70
6.2.2.2	Task.....	72
6.2.3	Procedure.....	73
6.2.4	Apparatus	75
6.2.5	Data Analysis	76
6.2.5.1	Behavioral Data.....	76
6.2.5.2	ERP Data.....	76
6.3	Results.....	77
6.3.1	Behavioral Data.....	77
6.3.2	ERP Data.....	78
6.4	Discussion	81
Chapter 7	Experiment II: The Processing of Dative Structures in 11-Year-Old Children	87
7.1	Introduction.....	87
7.2	Methods.....	89
7.2.1	Participants.....	89
7.2.2	Experimental Material, Design, and Procedure	90

7.2.3	Data Analysis	90
7.3	Results	90
7.3.1	Behavioral Data.....	90
7.3.2	ERP Data	91
7.4	Discussion	94

Chapter 8 Experiment III: The Processing of Dative Structures in 8-Year-Old Children 101

8.1	Introduction	101
8.2	Methods.....	102
8.2.1	Participants	102
8.2.2	Experimental Material, Design, and Procedure	103
8.2.3	Data Analysis	103
8.3	Results	103
8.3.1	Behavioral Data.....	103
8.3.2	ERP Data	104
8.4	Discussion	106

Chapter 9 Experiment IV: The Processing of Accusative Structures in Adults and 8-Year-Old Children 111

9.1	Introduction	111
9.2	Methods.....	113
9.2.1	Participants	113
9.2.2	Experimental Material and Design.....	113
9.2.2.1	Experimental Sentences	113
9.2.2.2	Task	114
9.2.3	Procedure, Apparatus, and Data Analysis.....	115
9.3	Results	115
9.3.1	Adults	115
9.3.1.1	Behavioral Data.....	115
9.3.1.2	ERP Data	116
9.3.2	Children	117
9.3.2.1	Behavioral Data.....	117
9.3.2.2	ERP Data	118
9.4	Discussion	119

Chapter 10	General Discussion	125
10.1	Developmental Steps.....	126
10.2	Consequences for Models of Language Processing in Adults.....	132
10.3	Conclusion.....	137
References		139
Appendix A:	Pretesting the Stimulus Material	i
Appendix B:	Pretest	v
Appendix C:	Stimulus Material	vii
Appendix D:	Acoustic Analyses of the Stimulus Material (Experiments I to III).....	xiii
Appendix E:	Acoustic Analyses of the Stimulus Material (Experiment IV)	xvii
Appendix F:	Supplementary ERP Figures	xxi
