

## TABLE OF CONTENTS

ACKNOWLEDGEMENTS . . . . .	vi
LIST OF LOCALITIES . . . . .	xi
LIST OF TABLES AND MAPS . . . . .	xii
<b>Chapter</b>	
I. INTRODUCTION . . . . .	1
II. THE SYNCHRONIC ANALYSIS	
A. Introduction . . . . .	12
B. Oral vowels	
1. Short vowels	
a. Inventory . . . . .	16
b. Lexical representation . . . . .	24
c. Distribution . . . . .	28
2. Long vowels	
a. Inventory . . . . .	35
b. Lexical representation . . . . .	37
c. Distribution . . . . .	41
3. Upgliding diphthongs	
a. Inventory . . . . .	50
b. Lexical representation . . . . .	56
c. Distribution . . . . .	58

4. Ingliding diphthongs	
a. Inventory . . . . .	65
b. Lexical representation . . . .	79
c. Distribution . . . . .	84
C. Nasalized vowels	
1. Introduction . . . . .	86
2. Nasalized monophthongs	
a. Inventory . . . . .	88
b. Lexical representation . . . .	90
c. Distribution . . . . .	93
3. Nasalized diphthongs	
a. Inventory . . . . .	96
b. Lexical representation . . . .	98
c. Distribution . . . . .	99
III. THE DIACHRONIC ANALYSIS	
A. Introduction . . . . .	101
B. History of the Upper Hessian vocalism	
1. The earliest developments: Pre-Old High German to Early Old High German . .	105
2. Early Old High German developments: umlaut . . . . .	113
3. Late Old High German developments: reduction of diphthongs . . . . .	118
4. Early Middle High German developments: lowering and diphthongization of short vowels; raising of long low vowels . . . . .	123
5. Monophthongization of /iə üə uə/ <sub>7,10,13</sub>	134

6. Shortening of /i ï ü/ <sub>7,10,13</sub> ; raising of /ɑ/ <sub>8</sub> . . . . .	138
7. The Upper Hessian vowel shift	
a. General description . . . . .	142
b. Raising of /e ð ö/ <sub>8,11,14</sub> . . . . .	149
c. Diphthongization of /i ï ü/ <sub>6,9,12</sub> and /i ï ü/ <sub>7,10,13</sub> . . . . .	150
d. Raising of /e ð ö/ <sub>8</sub> . . . . .	155
e. Monophthongization of /ei öü ou/ <sub>11,14</sub> . . . . .	156
8. Further development of the reflexes of /ei öü ou/ <sub>11,14</sub> . . . . .	159
9. Unrounding of front rounded vowels . .	167
10. Lengthening of short vowels . . . . .	172
11. Merger of short vowels before /r/ . .	181
12. Early modern developments: diphthong- ization of Middle High German /i ï ü/ <sub>6,9,12</sub> . . . . .	187
13. Reduction of /ai ei au/ <sub>6,9,12</sub> ; lengthening of /a/ <sub>1-</sub> , before /ld/ . .	192
14. Raising of short vowels before /r/; development of ingliding diphthongs .	196
15. Recent developments: emergence of vowel nasality . . . . .	203
16. Restoration of long oral vowels and upgliding diphthongs to prenasal occurrence; changes before /r/ in the southern area . . . . .	211
17. Development of border enclaves . . . .	215
