CONTENTS

General Fundamentals

Evolution of Regulation examined with a Novel Strategy for Comparitative Optimization 9
Michael A. Savageau

Generalized Exponentials and Dynamic Networks 31
Manfred Peschel

Parallel Search in Evolution and Optimization 46
Werner Ebeling

Evolution Strategies

Some Observations about Evolutionary Optimization Algorithms 57
Hans-Paul Schwefel

Selforganization by Evolution Strategy in Visual Systems 61
Reinhard Lohmann

On a General Evolution Strategy for Dissipative Systems 69
Hans-Georg Beyer

Genetic Algorithms

Parallel Genetic Algorithms, Population Genetics and Combinatorial Optimization 79
Heinz Mühlenbein

ASPARAGOS: A Population Genetics Approach to Genetic Algorithms 86
Martina Gorges-Schleuter

Replicator Networks

Multi-Layer Replicator Network Algorithms 95
Hans-Michael Voigt and Ivan Santibanez-Koref

On the Permanence of Replicator Systems 107
Wolfgang Jansen

Neural Networks and Spin-Glass Models

Learning in Parallel-Sequential Neural Networks 116
Edgar Körner and Hans-Michael Gross

Improving the Accessability of Stored Patterns in Associative Memories by Means of Dynamic Inhibitory Masking 124
Edgar Körner and Katrin Schickhoff

A Learnable Neural Classifier 134
Wolfgang Weller

Finding the Global Minimum of a Spin-Glass Model 145
Wolfgang Banzhaf

Neural Networks as Heteroassociative Memories 158
Harald Englisch and M. Herrmann

Determination of Ground States in Spin Glasses 167
J. Sommrey and Harald Englisch

Applications

Electric Energy Production as an Evolution Process 177
Werner Mende and Karl-Friedrich Albrecht

Travelling Salesman Problem: Optimization by Evolution of Interacting Tours 189
Thorsten Boseniuk

Restricted Branch-and-Bound Algorithm for Combinatorial Optimization: Travelling Salesman Revisited 199
A. Möbius and M. Richter

On the Convergence of the Simulated Annealing Algorithm 208
G. Jetschke

On the Problem of Parameter Grouping 216
Gintautas Dzemyda, Elvyra Senkiene, and Jurate Valeviciene

Fast Algorithm for Computing Fractal Dimensions of Image Segments 225
Reiner Creutzburg and Evgeni Ivanov
