A. Barker & B. Gervang: Relaxed ILU Preconditioning for the CG Solution of a Singular Boundary Value Problem for Pressure.....	1
P. Bastian: Locally Refined Solution of Unsymmetric and Nonlinear Problems.....	12
R. Beauwens: Incomplete Factorizations with S/P and Modified S/P Consistently Ordered M-Factors.....	22
M. Griebel: Grid- and Point-Oriented Multilevel Algorithms.....	32
I. Gustafsson & G. Lindskog: Parallelizable Incomplete Factorization Preconditioning Methods.....	47
G. Horton, R. Knirsch, G. Wittum: Modification of the ILU-Method for Enhanced Parallel Efficiency.....	57
R. Kornhuber, G. Wittum: Discretization and Iterative Solution of Convection Diffusion Equations.....	67
Magolu monga-Made: Empirically Modified Block Incomplete Factorizations.....	78
V. Mehrmann: Preconditioning of Blockstructured Linear Systems with Block ILU on Parallel Computers.....	88
G. Molnárka & S. Szabó: Quadrant Tridiagonal Partitioning and Preconditioned Conjugate Gradient Method for Solving Elliptic Problems.....	96
Y. Notay: A New Approximate Factorization Method.....	103
A. van der Ploeg, F.W. Wubs: The Use of Sparse Matrix Techniques for Solving the Incompressible Navier-Stokes Equations.....	113
C. Popa: The Construction of the Interpolation Operator with ILU Decomposition for Algebraic Positive Definite Systems.....	122
A. Reusken: The Smoothing Property for Regular Splittings.....	130
S. Sauter: On the Stability of the ILU-Method for Singular Perturbed Finite Element Problems.....	139

M. Schäfer, E. Schreck: ILU as a Solver in a Parallel Mult-Grid Flow Prediction Code.....	149
R. Stevenson: New Estimates of the Contraction Number of V-Cycle Multi-Grid with Applications to Anisotropic Equations.....	159
S. Turek: On Ordering Strategies in a Multigrid Algorithm.....	168
H. van der Vorst & G. Sleijpen: The Effect of Incomplete Decomposition Preconditioning on the Convergence of Conjugate Gradients.....	179
W. Weiler, G. Wittum: On Parallel Frequency Filtering.....	188
P. Wesseling: The Role of Incomplete LU-Factorization in Multigrid Methods.....	202
P.M. de Zeeuw: Incomplete Line ILU as Smoother and as Preconditioner.....	215
List of Participants	255
