Foreword xi

1. Challenges in Urban Flood Management 1
Chris Zevenbergen & Berry Gersonius

2. Sustainable Measures for Flood Attenuation: Sustainable Drainage and Conveyance Systems SUDACS 13
Joachim T. Tourbier & Iain White

3. Characterisation of Urban Streams and Urban Flooding 29
Ian Douglas, Mira Kobold, Nigel Lawson, Erik Pasche & Iain White

4. Flood Modelling in Urban Rivers – the State-of-the-Art and Where to Go 59
Erik Pasche

5. Urban Flood Management – Simulation Tools for Decision Makers 91
Peter Oberle & Uwe Merkel

6. Flood Frequency Analysis for Extreme Events 123
Félix Francés & Blanca A. Botero

7. A Critical Review of Probability of Extreme Rainfall: Principles and Models 139
Demetris Koutsoyiannis

8. Role of Detention and Retention Basins in Stormwater Management and Environmental Protection 167
Miodrag Jovanović

9. Flood Induced Indirect Hazard Loss Estimation Models 195
William Veerbeek

10. Flood Damage Estimation and Flood Risk Mapping 213
Andreas Kron

11. Flood Risk Modelling in Urban Watercourses – Results of the European FLOWS Project 237
Erik Pasche & Nicole von Lieberman

12. Flood Repair Standards for Buildings 277
Stephen L. Garvin & David J. Kelly

13. Economic Feasibility Study of Flood Proofing Domestic Dwellings 299
Chris Zevenbergen, Berry Gersonius, Najib Puyan & Sebastiaan van Herk

14. Local Flood Defence Systems in Europe 321
Mitja Brilly

15. European Flood Strategies in Support of Resilient Buildings 339
David J. Kelly & Stephen L. Garvin

16. FloReTo – Web Based Advisory Tool for Flood Mitigation Strategies for Existing Buildings 359
Nataša Manojlović & Erik Pasche

17. New Approaches to Flood Risk Management – Implications for Capacity-Building 383
Joanne Tippett & Emma J. Griffiths

18. Towards Integrated Approaches to Reduce Flood Risk in Urban Areas 415
Richard Ashley, John Blanksby, Jonathan Chapman & JingJing Zhou

19. Hydrological Modelling of Floods 433
Mira Kobold

20. An Overview of Flood Protection Barriers 453
Jean-Luc Salagnac

21. An Innovative Semi-permanent Flood Protection Structure – Alternative to Sandbags and Supplements to Conventional Earth Embankments 461
Jarle T. Bjerkholt & Oddvar G. Lindholm

22. The English Planning System and Flood Risk Management 473
Juliet Richards

23. French Regulations for Urban Flood Management 483
Nicolas-Gérard Camphuis
