

1. Introduction	1
1.1. Present Situation in the Automotive Industry	1
1.2. Goals of this thesis	2
2. Supply Chain Management.....	4
2.1. Definition of the terms Supply Chain and Supply Chain Management.....	4
2.2. Importance of Supply Chain Management in the Automotive Industry	7
2.2.1. The Situation of Original Equipment Manufacturer	10
2.2.2. Supplier's Situation	12
2.3. Difficulties of Supply Chain Management.....	13
2.3.1. The Bullwhip-Effect.....	13
2.3.2. Manufacturing Resource Planning	17
2.3.3. Trust and Commitment.....	18
2.4. Future trends of Supply Chain Management.....	19
2.4.1. The role of Third and Fourth Party Logistics providers.....	19
2.4.2. Influences of Radio-Frequency-Identification for Supply Chains	20
2.4.3. Supply Chain Event Management.....	21
3. Communication	23
3.1. Definitions and problems of communication	23
3.2. Communication Models	27
3.2.1. Linear Model.....	27
3.2.2. Dynamic Models	29
3.3. Importance of communication for business processes	30
3.3.1. Transactional Analysis	31
3.3.2. Theme-Centered Interaction.....	35
3.3.3. Neuro-Linguistic Programming	37
3.4. Communication Management	39
3.4.1. Definition of communication management.....	39
3.4.2. Directions and corresponding problems of communication	43
3.4.3. Costs of communication management	44

4. Intersection & Comparison 47

 4.1. *Comparison of the supply chain-diagram and the communication model.* 47

 4.2. Conclusion of the comparison..... 49

 4.2.1. Problems of SCM could be solved with improved communication... 49

 4.2.2. Communication problems solved by understanding communication
 as a supply chain..... 50

5. Outlook..... 56

6. Appendix 58

7. References.....60
