Anderson, G. D.

Rotation of plane quasiconformal mappings - a summary - - - - - 1

Andreian Cazacu, Cabiria

A generalization of the quasiconformality - - - - - 4

Beckenbach, E. F.

Defect relations for meromorphic minimal surfaces: an introduction - - - - 18

Bennowitz, Christer, and Åke Pleijel

Selfadjoint extension of ordinary differential operators

Read by Åke Pleijel under the title:

Quadratic forms and the spectral theory of ordinary linear selfadjoint
differential equations - - - - - 42

Bers, Lipman

On Eichler cohomology and on Eichler integrals

Read under the title:

Eichler integrals with singularities - - - - - 53

Brelot, M.

Quelques recherches sur l'allure à la frontière des fonctions
harmoniques

Read under the title:

Some new results on the boundary behaviour of functions in potential
theory - - - - - 60

Cartwright, M.L.

Boundedness of solutions of second order differential equations - - - - - 67

Cesari, Lamberto

Functional analysis and partial differential equations

Read under the title:

Functional analysis and boundary value problems for ordinary and
partial differential equations -----

71

Collingwood, E. F.

Dual theorems for functions defined in the unit disc

Read under the title:

Dual theorems in cluster set theory-----

76

Endl, Kurt

Über die funktionentheoretische Konstruktion von dicht-vollständigen
Systemen in allgemeinen normierten Räumen -----

80

Essén, Matts

The generalized Ahlfors-Heins theorem in R^3 -----

90

Fichera, Gaetano

On the approximation of analytic functions by rational functions-----

99

Frank, Evelyn

Continued fraction expansions for the ratios of hypergeometric
functions evaluated on computers

Read under the title:

New developments in continued fractions-----

110

Fuchs, W. H. J.

A formula relevant to functions meromorphic in an angle and its
applications -----

120

Ganelius, Tord, and Stig Westlund

The degree of approximation in Müntz's theorem

Read by Tord Ganelius under the title:

The degree of approximation in Müntz theorem -----

125

Gehring, F. W.

Inequalities for condensers, hyperbolic capacity, and extremal lengths---

133

Goulaouic, C.

Degenerate elliptic boundary value problems and applications-----

137

Grunsky, Helmut

Analytische Fortsetzung über offene Randkomponenten einer berandeten
Riemannschen Fläche -----

143
