

CONTENTS

1	SECTIONAL RADIOGRAPHIC ANATOMY AND SCANNING	1
	ANATOMIC RADIOGRAPHS	1
	<i>John M. Loré, Sr., 1938</i>	
	Sagittal Section Through the Midportion of the Maxillary Sinus and Orbit	2
	Sagittal Section Through the Lateral Wall of the Nose, Lateral Border of the Tongue, and Lamina of the Thyroid Cartilage Showing Its Superior and Inferior Cornua	4
	Sagittal Section Through the Floor of the Nose and the Body of the Tongue	6
	Sagittal Section Through the Middle of the Skull	8
	Frontal Coronal Section in the Region of the Second Molar Teeth	10
	Frontal Coronal Section Just Beyond the Third Molar Teeth	12
	Frontal Coronal Section in the Region of the Anterior Faucial Pillar and Tonsil	14
	CT AND MRI	16
	<i>David F. Hayes and Scott Cholewinski</i>	
	Single-Plane CT Scans	16
	Frontal Coronal Section in the Region of the Second Molar Teeth	16
	Frontal Coronal Section Just Beyond the Third Molar Teeth	17
	Frontal Coronal Section in the Region of the Anterior Faucial Pillar and Tonsil	18
	Three-Dimensional Reconstructed CT Scans	18
	MR Images	26
	Imaging in the Diagnosis and Treatment of Head and Neck Disease	26
	Overview	26
	<i>Scott Cholewinski</i>	
	ADVANCED TECHNIQUES FOR CT IN THE HEAD AND NECK	34
	<i>Ronald A. Alberico and Ahmed Abdehalim</i>	
	The Role of Imaging in the Head and Neck	34
	Detection of Perineural Disease at the Skull Base	35
	Oblique Imaging of the Oral Pharynx to Avoid Dental Artifact	36
	Multiplanar Techniques to Evaluate Tumor Location and Margins	37
	Three-Dimensional CT of the Inner Ear	39

Contrast Medium–Enhanced High-Resolution CT	40
CT Angiography of the Neck: Venous Malformation With Traumatic Arteriovenous Fistula	42
CT Venography of Facial Venous Malformation	44
CT Angiogram of ECA/ICA Bypass	45
Three-Dimensional CT of Vascular Tumor Relationship	46
Endoluminal and Cut-Away View of the Trachea With Medial Deviation of the Carotid Artery	47

EXAMPLES OF MRI IN THE SUPERIOR MEDIASTINUM	48
<i>John M. Loré, Jr.</i>	

OTHER EXAMPLES OF CT AND MRI	52
<i>John M. Loré, Jr.</i>	

Multinodular Goiter in the Mediastinum	52
Paraganglioma (Second Primary Thoracic Chain, T4 by CT Scan)	53
Metastatic Papillary Carcinoma of the Thyroid (Usual Type)	53
Magnetic Resonance Angiography	54

ULTRASOUND	54
<i>David F. Hayes</i>	
Example Uses of Ultrasound	54

POSITRON EMISSION TOMOGRAPHY	56
<i>Robert S. Miletich and John M. Loré, Jr.</i>	
Role of PET in Oncology	57
Role of FDG-PET in Head and Neck Cancer	57
Conclusion	63

 EMERGENCY PROCEDURES	65
--	-----------

VENOUS AIR EMBOLISM	65
<i>John Lauria</i>	

MALIGNANT HYPERTHERMIA	65
<i>John Lauria</i>	

Other Untoward Events Associated With Endotracheal Anesthesia	66
--	----

BLINDNESS AND OPHTHALMIC COMPLICATIONS OF SURGERY OF THE HEAD AND NECK	66
<i>Daniel P. Schaefer and Arthur J. Schaefer</i>	

Blindness	66
-----------------	----

CARDIOPULMONARY RESUSCITATION	70
<i>William M. Morris</i>	
Emergency Cardiac Care	70
Sequence of BLS	70
Closed Cardiac Massage	72
Open Cardiac Massage Resuscitation	72
Thoracentesis	74
Insertion of Intercostal Catheter	74
Open Thoracotomy for Empyema Drainage	78
Intercostal Catheter Suction Drainage With Underwater Seals	80
Cricothyroidotomy	82
Management of Acute Respiratory Emergencies	84
Emergency Establishment of Airway	84
 3 BASIC CONSIDERATIONS	 87
Needle Biopsy Techniques	87
<i>Ashok Koul</i>	
Needle Aspiration Biopsy	87
Core Needle Biopsy	87
Large-Needle Aspiration Biopsy	89
Commonly Used Terminology for Squamous Epithelium	91
<i>Ashok Koul</i>	
Commonly Used Special Stains for Head and Neck Lesions	91
Mucosal Biopsy: Toluidine Blue Staining Technique	91
Exfoliative Cytology Biopsy Technique	91
Z-Plasty	91
Definition	91
Technique of Basic Z-Plasty	92
Types and Modifications of Z-Plasty	98
Tissue Expansion	100
Effects of Tissue Expansion	100
W-Plasty	102
Rhombic Flap	104
Excision of Dog-Ears	106
Bone, Cartilage, and Nerve Grafts	107
Basic Principles Relative to Bone and Cartilage Grafts and Implants	107
Rib, Iliac, and Costochondral Grafts	107
Iliac Bone Graft—"Trap Door Type"	110
Auricular Cartilage Graft	110
Sural Nerve Grafts	112
Skin Incision	112
Nonabsorbable Sutures for Mucosal Repair	112
Preoperative and Postoperative Care	114
<i>William R. Nelson and R. Lee Jennings</i>	
Preoperative Care	114
Postoperative Care	116

Common Departures From Sound Management —“Pitfalls”	123
<i>Donald P. Shedd</i>	
Open Biopsy of a Lump in the Neck Before Performing a Complete Head and Neck General Examination	124
Inadequate Incisional Biopsy of an Oral Cavity Lesion	124
Inadequate Excisional Biopsy of a Suspicious Oral Cavity Lesion	124
Failure to Review Previous Histopathologic Slides	124
Permitting a Single Histopathologic Benign Diagnosis to Override a Clinical Diagnosis of Carcinoma	125
Biopsies of the Larynx, Hypopharynx, Nasopharynx, Esophagus, or Trachea Before Radiologic Studies and Imaging Techniques	125
Lack of Multidisciplinary Approach When Indicated	125
Tailoring the Scope of Surgical Resection to the Ability of the Surgeon Rather Than to the Objective Requirements Imposed by the Lesion	125
A Compromise of the Ablative Phase of Surgery to Accommodate Limited Reconstructive Skills	126
Compromise of Surgical Margins Because Radiation Therapy or Chemotherapy Was or Is to Be Given	126
Performing the Right Operation on the Wrong Patient	126
Assessing the Degree of Success or Failure of Radiation Therapy on the Basis of the Response of the Lesion During or Immediately on the Completion of Treatment	126
Failure to Realize the Implication of the “Condemned Mucosa” or Multiple Primary Syndrome	127
Failure to Perform a Complete General Physical Examination as Well as a Complete Head and Neck Examination	127
Prolonged Watch-and-Wait Attitude in the Face of an Asymptomatic Mass	127
Inadequate Search for an “Occult” Primary Tumor	127
Abandonment of the Patient With Neck Metastasis From an Undetectable Primary Tumor	128
Enucleation of Tumors of the Major Salivary Glands and Thyroid Gland	128
Treating a Patient With Antibiotics for an Extended Period of Time Without a Biopsy	128
The Place for Chemotherapy in Management of Squamous Cell Carcinoma of the Head and Neck	128
<i>Monica B. Spaulding</i>	
Recurrent or Metastatic Head and Neck Cancer	129
Preoperative Chemotherapy, Uncompromised Surgery, and Selective Radiotherapy in the Management of Advanced Squamous Cell Carcinoma of the Head and Neck	132
<i>John M. Loré, Jr., Sol Kaufman, Nan Sundquist, and Kandala Chary</i>	

A Comprehensive, Interdisciplinary Head and Neck Service	141
<i>John M. Loré, Jr., A. Charles Massaro, and Angela Bontempo</i>	
Bone Imaging and Pathology	142
<i>Scott Cholewinski, John Asirwatham, Daniel Broderick, and John M. Loré, Jr.</i>	
Methods of Bone Involvement: Mandible	142
VOICE, SPEECH, AND SWALLOWING REHABILITATION OF THE HEAD AND NECK PATIENT	143
<i>Allen M. Richmond</i>	
Total Laryngectomy	143
Conservation Surgery: Cancer of the Larynx	144
Swallowing	144
Glossectomy	146
Palatal Surgery	147
Voice	147
Hearing, Cochlear Implants, and Middle Ear Surgery	148
Malignant Melanoma	149
<i>Constantine P. Karakousis</i>	
Soft Tissue Sarcoma	152
<i>Constantine P. Karakousis</i>	
Thyroid-Related Orbitopathy	154
<i>Daniel P. Schaefer</i>	
Pathogenesis	154
Epidemiology	154
Clinical Course	155
Differential Diagnosis	156
Treatment Plan	160
Dental and Prosthetic Considerations in Head and Neck Surgery	161
<i>David M. Casey</i>	
Maxillofacial Prostheses	166
<i>David M. Casey</i>	
Osseointegrated Implants in Head and Neck Reconstruction	171
<i>Maureen Sullivan</i>	

4 DIAGNOSTIC ENDOSCOPY 179

PERORAL ENDOSCOPY OF THE HEAD AND NECK 179

Indirect Mirror Laryngoscopy and Nasopharyngoscopy and Cervical Esophagoscopy	179
Direct Optical Laryngoscopy and Nasopharyngoscopy	180
Cervical Esophagoscopy	181
Direct Rigid Laryngoscopy and Nasopharyngoscopy	181
Direct Rigid Laryngoscopy and Hypopharyngoscopy	182
Rigid Bronchoscopy	188
Flexible Bronchoscopy	192
Tracheal Lengths	192
Esophagoscopy	194
Cervical Esophagoscopy After Total Laryngectomy or Cervical Esophageal Surgery	194
Rigid Esophagoscopy	196
Microscopic Endolaryngoscopy	200

Telescopic Endolaryngeal Surgery	204
Nasopharyngoscopy	205
Rigid and Flexible Direct Optical Nasopharyngoscopy, Laryngoscopy, Cervical Esophagoscopy, and Rhinoscopy	210
Rigid Nasopharyngoscopes	210
Flexible Nasopharyngoscopes	210
Rigid and Flexible Direct Optical Rhinoscopy	210
Cervical Esophagoscopy	212
 5 THE SINUSES AND MAXILLA	214
Intranasal Antrostomy	214
Rhinoscopy	214
Caldwell-Luc Antrotomy	217
Intranasal Ethmoidal Surgery for Benign Disease	220
Uncapping of Anterior Ethmoidal Cells	220
Ethmoidectomy	220
Endoscopic Diagnosis and Surgery for Sinusitis	222
External Ethmoidectomy	223
Sphenoidal Sinusotomy	226
Puncture of Anterior Wall of Sphenoidal Sinus	226
Enlargement of Natural Sphenoidal Ostium or Anterior Wall Puncture Site	226
Other Approaches to the Sphenoidal Sinus	228
Frontal Sinusotomy (Trephination)	230
External Frontoethmoidectomy	232
Osteoplastic Approach to the Frontal Sinus	234
Anatomy of Frontonasal Duct	234
Partial and Radical Maxillectomy	236
Case 1: Esthesioneuroblastoma	237
Case 2: Esthesioneuroblastoma, Nonresectable, Stage C	238
Case 3: Neuroendocrine Carcinoma, Nonresectable, Stage C	238
Removal or Saving Remainder of Soft Palate After Partial Maxillectomy	238
Radical Resection of Maxilla With Orbital and Partial Ethmoidal Exenteration	239
Resection of Maxilla Including the Floor of the Orbit With Preservation of the Globe	246
En-Bloc Resection for Chondrosarcoma	246
Limited Resection of the Maxilla	248
Cysts of Maxilla	250
Excision of Nasoalveolar Cyst	252
Excision of Nasopalatine Duct Cyst	254
Closure of Oroantral Fistula	256
 ENDOSCOPIC SINUS SURGERY	258
<i>Keith F. Clark</i>	

THE NOSE AND THE NASOPHARYNX 267

Anatomy of the Lateral Wall of the Right Nasal Cavity	267
---	-----

Uncinate Process	267
Bulla Ethmoidalis	267
Infundibulum Ethmoidalis	267
Anatomy of Epistaxis	270
Anterior and Posterior Packing for Epistaxis	272
Ligation of Ethmoidal Arteries	276
External Ethmoidectomy Approach to Epistaxis	279
Septal Dermoplasty	280
Ligation of Internal Maxillary Artery	282
Removal of Nasal and Nasopharyngeal Polyps	286
Transpalatine Exposure of the Nasopharynx and the Sphenoidal Sinus	288
Transmaxillary Approach to Nasopharynx and Base of the Skull	294
Posterior Choanal Atresia	295
Newborn and Young Children	295
Older Children and Adults	296
Submucous Resection of Nasal Septum	300
Septoplasty Type I	304
Septoplasty Type II	310
Rhinoplasty	316
Alternate Techniques of Rhinoplasty	324
Correction of Broad Nasal Tip	325
Augmentation of Dorsum of Nose	326
Additional Nasal Tip Procedures	326
Columellar Graft for Collapsed Nasal Tip	328
Type I	328
Type II	328
Nares and Columella Procedures	330
Nasofacial and Nasolabial Flaps	332
Septal Flap for External Nasal Defect	334
Nasolabial Flap	336
Excision and Reconstruction of Ala Nasi	336
Excision and Reconstruction of Columella	336
Resection of Tumor of Tip of Nose	338
Resection and Reconstruction of Tumor of the Superior Dorsum of the Nose	340
Full-Thickness Graft to Nose	340
Composite Graft From Ear to Nose	342
Type of Flap	342
Reconstruction of Nose With Arm Flap	344
Nasal Reconstruction With Lateral Forehead Flap	346
Nasal Reconstruction With Combined Scalp and Forehead Flaps	348
The Sickie Flap	348
The "Scalping" Flap	348
Nasal Turn-in Flaps	350
Nasal Reconstruction	352
Transection of Forehead and Scalp Pedicle	352
Revision of Nasolabial Fold and Ala Nasi	352
Enlargement of Nares With Z-Plasty	352
Resection of Nasal Septum for Carcinoma (Lateral Rhinotomy Approach)	354

Total Resection of Nose for Carcinoma	356
Resection of Nasal Glioma—External Ethmoid Approach ...	358
Excision of Rhinophyma	362

7 THE FACE 367

Anatomy of Facial and Scalp Muscles	367
Basic Technique for Facial Excisions	369
Sebaceous Cysts	369
Dermabrasion	371
Excision of Tumors of Skin of Forehead	373
Excisions for Carcinoma of Skin of Temple	375
Basal Cell Carcinoma	375
Squamous Cell Carcinoma	376
Rotation Flaps	377
Temporal Scalp Flap	377
Cheek Flap	378
Excision of Tumors of Cheek by Cheek Flap Rotation	379
Facial Paralysis	380
<i>Shirley A. Anain and John M. Loré, Jr.</i>	
Management Possibilities	381
Facial Reanimation	381
Cross-Face Nerve Grafts with Microvascular Muscle Transfer	381
Upper Lid Gold Weights	382
Hypoglossal-Facial Nerve Anastomosis	384
Masseter Muscle Transposition—Intraoral	386
Fascial Slings for Facial Paralysis	388
Treatment of Paralysis of the Depressors of the Lower Lip	390
Trigeminal Neuralgia (Tic Douloureux)	392
Incision and Drainage of Abscesses	394

GENERAL PURPOSE FLAPS

Introduction: Flap Selection and Design	399
Classification of Large Transposed Myocutaneous Flaps	400
Limitations and Pitfalls with Major Standard Regional Flaps	401
Limitations and Pitfalls According to Specific Flaps	401
Blood Supply to Skin Flaps	402
Pectoralis Major Myocutaneous Flap	404
Reconstruction of the Entire Hypopharynx and Portion of Cervical Esophagus, Oropharynx, and Nasopharynx	412
Cross Section of Reconstructed Hypopharynx	412
Applications of the Pectoralis Major Flap	420
Deltopectoral Flap	425
Reconstruction of Oropharynx, Hypopharynx, and Portion of Cervical Esophagus	425
Applications of Deltopectoral Flap	434
Apron Flap	436

Laterally Based Chest Flap	438
Mutter (1842) Nape of Neck Flap	440
Posterior Scapula Flap	442
Forehead Flap (Temporal Flap)	444
Reconstruction of Cheek with Forehead Flap	446
Midline Forehead Flap	452
Fat Flip Flap	454

9 THE LIPS 458

Lip Excision and Reconstruction	458
Planing of Lip	458
Shield Excision of Lower Lip	458
Cupid's Bow	460
Elliptical Excision of Benign Lip Lesion	460
Distortion of Mouth Corrected by Z-Plasty	460
Excision of Large Benign Lesions of Upper Lip with Nasolabial Flap	460
Repair of Large Vermilion Defects	462
Abbe-Estlander Lip Operation	464
Correction of Rounded Commissure of Lips	467
Plication of the Orbicularis Oris Muscle to Repair Partial Paralysis of the Lower Lip	468
Modifications of Abbe-Estlander Lip Operation	469
Reconstruction of Center Lower Lip Defect	469
Reconstruction of Upper Lip Defect	470
Correction of Rounded Commissure of Lips	470
Reconstruction of Large Defects of Upper Lip	472
Reconstruction of Upper Lip with Cheek Flap	472
Fan Flap Reconstruction for Large Defects of Upper Lip	474
Excision and Repair of Large Lesions of Upper Lip	476
Burow's Technique	476
Gillies' Technique	476
Repair of Large Defects of Upper Lip	478
Bitemporal ("Visor") Flap for Large Upper Lip and Cheek Defects	480
Resection of Lower Lip with Bernard Reconstruction	482
Reconstruction of the Lower Lip	484
Reconstruction of the Lower Lip after the Extirpation of a Lip Cancer	484
Reconstruction of the Upper Lip after an Operation of Lip Cancer	485
Reconstruction of the Lower Lip from the Cheeks after an Operation of a Lip	486
Cancer with the Resection of a Part of the Lower Jaw	486

CLEFT LIP AND PALATE 493 ROBERT J. PERRY and JOHN M. LORÉ, JR.

Cleft Lip	493
Types of Cleft Lip Deformities	493
Normal Anatomy	493

Unilateral Cleft Lip Repair	494
Triangular Flap Cleft Lip Repair: Tennison-Randall Technique	496
Rotation Advancement Cleft Lip Repair	498
Bilateral Cleft Lip Repair	500
Basic Deformities of Cleft Lip (Bilateral Complete)	500
Repair of Complete Bilateral Cleft Lip (Straight-Line Closure)	502
Repair of Incomplete Bilateral Cleft Lip (Rotation- Advancement Technique)	504
Cleft Palate	506
Types of Cleft Palate Deformities	506
Reconstructive Goals	506
Optimal Age for Operation	506
Repair of Complete Cleft of Secondary Palate	506
Repair of Incomplete Cleft of Secondary Palate	512
Repair of Complete Unilateral Cleft Palate	514
Pharyngeal Flap in Cleft Palate Repair	516
Pharyngeal Flap for Velopharyngeal Insufficiency	517
11 PERIORBITAL REGION	523
Anatomy	523
Repair of Lids and Conjunctiva	523
Wounds of the Conjunctiva	524
Repair of Lid Lacerations	524
Management of Disruption of the Canaliculi	524
Reconstruction of Lids	524
Reconstruction of Lower Lid	526
Resection of Large Basal Cell Carcinoma of Lower Lid With Reconstruction Using Lateral Cheek Flap	532
Reconstruction of Upper Lid	534
Bridge Flap Repair of Large Upper Lid Defects, Cutler-Beard Technique	542
Resection of Large Basal Cell Carcinoma Involving Both Lids and Nose	544
Excision of Superficial Basal Carcinoma in Region of Lateral Canthus of Lower Lid	546
Excision of Benign Lesion of Upper Lid	548
Reconstruction of Superficial Horizontal Defect of Portion of Lower Lid	548
Eyelash Reconstruction	550
Eyebrow Reconstruction	550
Excision of Lesions at the Medial Canthus	552
Medial Canthoplasty and Repair of Related Injuries	554
Dacryocystorhinostomy	558
Correction of Scar Contracture of the Lids and Ectropion	560
Tarsorrhaphy	562
Lateral Permanent Tarsorrhaphy or Canthorrhaphy	562
Temporary Tarsorrhaphy	562
Graft for Defect of Infraorbital Rim	564
Decompression of the Orbit for Exophthalmos	566

Resection of Benign Tumor of Lacrimal Gland	569
Resection of Adenoid Cystic Carcinoma of the Lacrimal Gland	570

12 THE EAR 573

Otoplasty	573
Cartilage Incision Technique	573
Mattress Suture Technique (Correction of Prominent or Deformed Ears)	576
Surgical Treatment of Hematoma of the Auricle: "Cauliflower Ear"	580
Z-Plasty for Stenosis of External Auditory Canal	582
Excision of Small Malignant Tumor of Cartilaginous Portion of External Auditory Canal	584
Excision of Malignant Tumors of the Auricle	586
Excision of Hemangioma of the Face Involving Lobule of the Ear	586
En Bloc Resection of the External Auditory Bony Canal	588
Total Resection of the Auricle With a Portion of the External Auditory Canal, Parotidectomy, and Radical Neck Dissection for Recurrent Malignant Melanoma	590
Technique	590
Posterior Approach to the 7th (Facial) Nerve	590
Final Pathology Diagnosis	592

13 FRACTURES OF FACIAL BONES 595

JOHN M. LORÉ, JR. and DOUGLAS W. KLOTCH

Basic Principles	595
Reduction of Fractured Nose	596
Depression of Right Nasal Bone with Lateral Displacement of Left Nasal Bone	597
Depression of Nasal (Frontal) Process of Right Maxilla	598
Fractures of Mandible—Outline	599
Fracture of Condylar Process—Outline	600

FRACTURES OF MANDIBLE 602

Douglas W. Klotch

Overview of Fracture Repair	602
Open Reduction of Fractures of the Mandible	603
Technical Aspects of Fracture Repair	605
Compression Plating for Treatment of Mandibular Fractures	610
<i>Douglas W. Klotch and Joachim Prein</i>	
Outline of Procedures for Rigid Internal Fixation	612
Fracture in Row of Teeth	614
Fracture Posterior to Row of Teeth	614
Fractures at Angle of Mandible	616
Use of Eccentric Dynamic Compression Plate	616
Use of Dynamic Mandible Defect-Bridging Plate	616
Fracture in the Edentulous Mandible	618
Treatment of Oblique Fractures by Utilizing the Lag Screw Principle	618

Repair of Large Mandibular Defects Utilizing the DBDB Plate	618
Open Reduction of Depressed Fracture of Zygomatic Arch With or Without Fracture of Body of Zygoma (Gillies' Technique)	620
Open Reduction of Depressed Fracture of Zygoma and Portion of Maxilla	622
Early Reduction	622
Late Reduction	622
Early Reduction of Depressed Comminuted Fracture of Anterior Wall of Maxilla	624
Intraosseous Wiring for Facial Fractures	626
"Tent Peg" Method of Reduction and Fixation of Facial Bone Fractures	628
Open Reduction of Complete Fracture of Upper Dental Arch of Maxilla (Le Fort I or Guérin)	630
Suspensory Wire Technique	630
Direct Intraosseous Wiring Technique	630
Internal Fixation of Fracture Through Middle Third of Maxilla (Le Fort II or Pyramidal Fracture)	632
Open Reduction of Fractures Through Glabella, Orbit, and Zygomatic Arch (Le Fort III or Craniofacial Dysjunction)	634
Techniques of the Use of Miniplates in Le Fort I, II, and III Fractures	636
Le Fort I—Basic	636
Le Fort I—Complicated	636
Le Fort II	636
Le Fort III	637
Internal Fixation of Fractured Hard Palate	638
Fractures Involving the Frontal Sinus	638
Fractures of Floor of Orbit	640
External Traction for Depressed Facial Fracture	646
Management of Zygomatic (Malar) Fractures	648
<i>Douglas W. Klotch</i>	
Repair of Simple Fractures	649
Repair of Complex Fractures	650

CYSTS AND TUMORS INVOLVING THE MANDIBLE 653

Excision of Cysts of the Mandible	653
Radicular Cyst	653
Dentigerous Cyst	656
Marginal Segmental Resection of Mandible	658
Resection of Large Benign Tumors of Mandible	660
Mandibular Reconstruction	664
Reconstruction of Mandible Using Steinmann Pin and Tie Wires	665
Mandibular Reconstruction Using Steinmann Pin	666
Other Options Relative to Mandibular Reconstruction	672
Results of Reconstruction With Kirschner Wire and Steinmann Pin	672

Reconstruction of the Mandible Using Plates With or Without Free Autogenous Nonvascularized Bone Grafts	675
Resection and Second-Stage Reconstruction of Anterior Portion of Mandible Using Iliac Bone Graft	678
Resection and Reconstruction of Major Portion of Body of Mandible With Bent Steinmann Pin and Tie Wires and Forehead Flap	682
Summary	686
Marginal Resection of Mandible, Partial Glossectomy, and Radical Neck Dissection for Carcinoma of the Floor of the Mouth	688

15 ORAL CAVITY AND OROPHARYNX 698

Excision of Dysplasia (Leukoplakia) and/or Erythroplasia (Erythroplakia) of Tongue and Buccal Mucous Membrane	698
Excision of Carcinoma In Situ or Small Limited Carcinoma of Tongue	700
Excision of Small Midline Cancer of Anterior Third of Tongue	702
Median Labiomandibular Glossotomy (Trotter Approach to Base of Tongue, Pharynx, and Base of Skull)	704
Resection of Stage T1 Carcinoma of the Midline of the Floor of the Mouth	708
Inlay Graft to Floor of Mouth for Carcinoma	710
Resection of Malignant Tumors of the Oral Cavity and Oropharynx With Extension Above Into the Nasopharynx and Below to the Hypopharynx With Cervical Metastasis With or Without Involvement of the Mandible Including the Parapharyngeal Space	714
Approaches	714
Bone Involvement: Mandible	716
Guidelines	716
Resection for Carcinoma of Tonsil, Soft Palate, or Base of Tongue by Mandibulotomy and Reconstruction	720
Resection of Hemimandible, Lateral Oropharyngeal Wall, and Portion of Soft Palate and Hemiglossectomy With Reconstruction Using a Forehead Flap Versus Pectoralis Major Flap	724
Combined Radical Neck Dissection, Partial Glossectomy or Hemiglossectomy, and Hemimandibulectomy Including Retromolar Trigone	726
Base of Tongue	732
Anatomy of the Tongue	732
Resection of Base of Tongue	732
Approaches to Base of Tongue	733
Resection of Base of Tongue via Midline Mandibulotomy (Mandibular Swing)	734
Midline Mandibulotomy (Mandibular Swing)	736
Resection of Base of Tongue and Total Glossectomy	738
Resection of Lesions of the Buccal Wall	742

Buccal Wall Lesions: Benign, Premalignant, and Malignant Squamous Cell Carcinoma	742
Plan for Resection of Premalignant and Malignant Lesions of the Buccal Wall	744
Radical Resection of Buccal Wall With Mandibulectomy Associated With Oropharyngeal and Retromolar Trigone Invasion: Advanced Squamous Cell Carcinoma	745
Reconstruction of Buccal Wall Lesions	746
Resection of Carcinoma of the Retromolar Trigone and the Buccal Wall	747
Excisions of Lesions of Soft and Hard Palate	752
Resection of Extensive Benign Minor Salivary Gland Tumors of the Soft Palate	760
Resection of Carcinoma of Soft Palate	764
Excision of Ranula	766
Resection of Hemangioma and Neurofibroma of Tongue	768
Tonsillectomy and Adenoidectomy	770
Adenoidectomy	770
Salivary Duct Calculi	773
Repair of Laceration of the Stensen Duct (Parotid)	773
Reconstruction and Reimplantation of Stensen's Duct in the Buccal Wall	774
Pierre Robin Syndrome	774

16 THE NECK 780

JESUS E. MEDINA and JOHN M. LORÉ, JR.

Cervical Lymph Nodes	780
Spinal Accessory Nerve	781
Cervical Lymph Node Metastatic Guide	781
Classification	786
Radical Neck Dissection	788
Evaluation of Cervical Lymphadenopathy on Computed Tomography and Magnetic Resonance Imaging	797
Modifications of Radical Neck Dissections	797
Parotid Extension of Radical Neck Dissection (High Exposure of Internal Jugular Vein and Internal Carotid Artery)	798
Modified Radical Neck Dissection Preserving the Spinal Accessory Nerve (Type I)	802
Incision Modifications of Radical Neck Dissection	804
Modified Radical Neck Dissection Preserving the Spinal Accessory Nerve, the Internal Jugular Vein, and the Sternocleidomastoid Muscle (Type III)	808
Selective Neck Dissections	811
Extended Neck Dissections	814
Resection of Lower Margin of Mandible Combined with Radical Neck Dissection	814
Posterior Neck Dissection	818
<i>Keun Lee</i>	
Excision of Thyroglossal Cyst and Sinus	824
Resection of Submandibular Salivary Gland for Benign Disease	828

Phrenic Nerve Crush	832
Scalene and Infraclavicular Internal Jugular Node Biopsy	832
Muscle Lengthening for Torticollis	834
Branchial Cleft Cysts	836
First Branchial Cleft	836
Second Branchial Cleft (Most Common)	838
Third Branchial Cleft (Rare)	838
Fourth Branchial Cleft	838
Resection of Branchial Cleft Cysts	840
Second Branchial Cleft	840
Excision of Branchial Fistula and Sinus Tract	843
Excision of Cystic Hygroma (Lymphangioma)	845
Excision of Benign Lesions of the Submental Space	848
Resection of Ganglioneuroma of the Neck and Superior Mediastinum	850
Excision of Neuroma	852
Incision and Drainage of Abscesses of the Neck	854
Abscess of Tongue and Floor of Mouth Presenting in Submental Space (Ludwig's Angina)	854
Lateral Cervical Abscess	854
Penetration Wounds of the Neck	856
Diagnosis and Treatment	856

17 THE PAROTID SALIVARY GLAND AND MANAGEMENT OF MALIGNANT SALIVARY GLAND NEOPLASIA 861

General Considerations	861
Fine-Needle Aspiration Biopsy	861
Total Lateral Lobectomy of the Parotid Salivary Gland	862
Facial Nerve in Infants	866
Deep Lobectomy of Parotid Salivary Gland	868
Mandibulotomy and Deep Lobe Lobectomy of the Parotid Salivary Gland with Dissection of Parapharyngeal Space	872
Free Facial Nerve Graft	876
Gustatory Sweating (Frey's Syndrome)	876
Excision of the Recurrent Benign Tumor of the Parotid Gland	878
Management of Salivary Gland Tumors	880
<i>Thom R. Loree</i>	
Additional Caveats Relative to Malignant Tumors of the Parotid Salivary Gland	882
<i>John M. Loré, Jr.</i>	
Adenocarcinoma Not Otherwise Specified (NOS)	883
Malignant Mixed Tumor	884
<i>Nieva B. Castillo</i>	
Parotid Extension of Radical Neck Dissection	886
High Exposure of Internal Jugular Vein and Internal Carotid Artery	886
Parotitis	888

18 ENDOCRINE SURGERY 892

JOHN M. LORÉ, JR., MEGAN FARRELL
and NIEVA B. CASTILLO

THYROID GLAND	892
Diagnostic Evaluation	892
History	892
Physical Examination	893
Fine-Needle Aspiration of the Thyroid Gland	893
Thyroid Scans (¹²³ I and ^{99m} Tc)	895
Sonography	895
Computed Tomography	896
Magnetic Resonance Imaging	896
Positron Emission Tomography	896
Anatomic Considerations	896
Posterior Suspensory Ligament	897
Recurrent Laryngeal Nerve	897
Inferior Thyroid Artery	898
External Branch of the Superior Laryngeal Nerve	899
Parathyroid Glands	899
Access to the Superior Mediastinum	900
Motor Nerve Supply to the Strap Muscles	901
Thyroglossal Duct Tract	901
Normal Ectopic Thyroid	901
Basic Surgical Technique	903
Definition of Terms	904
Evaluation of Laryngeal Nerve Function	905
Arytenoid Dislocation	906
Management of Thyroid Cancer	907
Total Thyroidectomy Versus Subtotal Thyroidectomy or Lobectomy	907
Nerve Paralysis	908
Hypoparathyroidism	908
Potential Problems in Management	909
Hormonal Replacement	910
Additional Evidence Supporting Total Thyroidectomy	910
Management of Well-Differentiated Thyroid Cancer (Includes Papillary, Follicular, and Hürthle Cell Oncocytic Carcinoma)	914
Pathologic Classification	914
<i>Nieva B. Castillo</i>	
Danger of Underestimating Malignancy	919
Treatment	919
Imaging	922
Medullary Carcinoma of the Thyroid	922
Origin and Characteristics	922
Types	923
Classification of Multiple Endocrine Neoplasia	923
Diagnosis	923
Familial MCT	924
Suggested Follow-up Regimen	924
Family Screening	925

Management of Residual or Recurrent MCT	926
Scope of the Operation	926
Prognosis	927
Hürthle Cell Carcinoma	927
Papillary Tall Cell Carcinoma	927
Undifferentiated or Anaplastic Carcinoma	928
Squamous Cell Carcinoma	928
Summary of Management of Thyroid Cancer	929
Substernal Goiter (Median Sternotomy and Total Thyroidectomy With Superior Mediastinal Node and Radical Neck Dissection)	929
Graves' Disease	932
Exophthalmic Graves' Disease.....	934
Toxic Multinodular Goiter	934
Total Thyroid Lobectomy	935
Subtotal Thyroid Lobectomy	946
Modified Radical Neck Dissection with Preservation of the Sternocleidomastoid Muscle and the Spinal Accessory Nerve	950
Total Thyroidectomy Without or With Radical Neck Dissection	955
Autonomous Thyroid Nodule	960
Endemic Goiter Not Due to Iodine Deficiency (Beierwaltes)	960
Hashimoto's Thyroiditis (1912)—Struma Lymphomatosa	960
Lingual Thyroid	962
Complications of Thyroid Surgery	963
Suggested Postoperative Orders After Thyroid Surgery	966
PARATHYROID GLANDS	966
Pathology of the Parathyroid Glands	966
<i>John E. Asirwatham</i>	
Embryology	966
Anatomy	966
Diseases of Parathyroid	966
Intraoperative and Frozen Section Examination of Parathyroid	967
Hypercellularity	968
Surgery of Parathyroid Glands	968
Blood Supply of the Parathyroid Glands	968
Hyperparathyroidism	972
Hyperparathyroidism Associated With MEN Syndromes	975
Preoperative and Intraoperative Techniques for the Surgical Management of Sporadic Hyperparathyroidism: Adenoma and Hyperplasia	976
<i>John M. Loré, Jr.</i>	
Section 1: The Author's (JML) Experience and Suggestions Regarding Imaging	976
Section 2: Summary Evaluations, Pros and Cons, for Each Imaging and Nonimaging Modality	980
Section 3: Pearls and Pitfalls Regarding Parathyroid Imaging	982
Indications for Surgery in Primary Hyperparathyroidism	984
Chemical Diagnosis of Hyperparathyroidism	984

Overview of Surgical Principles	985
Detailed Review of Surgical Principles	986
Excision of Parathyroid Adenomas	990
Excision of Mediastinal Parathyroid Adenomas and Cystadenoma	996
Mediastinoscopy	997
Anatomy	997
Discussion	997
Excision of Posterior Superior Mediastinal Parathyroid Cystadenoma via Median Sternotomy	999
Postoperative Care	1002
Osteoporosis	1002
Hypocalcemia	1002

THE TRACHEA AND MEDIASTINUM 1015

Tracheoscopy	1015
Tracheostomy	1015
Cervical Mediastinotomy and Tracheomediastinotomy	1024
Tracheal Resection	1026
Closure of Cutaneous Tracheal Fistula	1034
Closure of Cervical Tracheoesophageal Fistula	1036
Mediastinum Anatomy	1036
Mediastinoscopy	1038
Mediastinal Dissection	1040
Suprasternal Approach via the Superior Thoracic Inlet (Limited Dissection)	1040
Resection of the Medial Third of the Clavicle on One Side	1040
Median Sternotomy	1041
Resection of the Manubrium With or Without a Portion of the Sternum and Medial Portion of the Clavicle	1041
Exposure of the Mediastinum by Resection of the Medial Third of the Clavicle	1041
Diseases Amenable to the Approach With Medial Third Clavicle Resection	1041
Median Sternotomy, Total Thyroidectomy, With Superior Mediastinal Node and Radical Neck Dissection	1046
Mediastinal Dissection for Tracheostoma Recurrence (Sisson Procedure)	1056
Transcervical Total Thymectomy	1062

THE LARYNX 1069

Indirect Mirror Laryngoscopy	1069
Anatomy of Superior Laryngeal Nerve	1069
Punch Biopsy of Lesions of Larynx and Hypopharynx	1073
Stripping (De-Epithelialization) of a Vocal Cord	1074
Endoscopic Removal of Congenital Cyst of Ventricle in Newborn (Internal Laryngocele)	1076
CO ₂ Laser in Laryngeal and Endobronchial Surgery	1077
Microlaryngoscopy Using the CO ₂ Laser	1077

Endoscopic Intracordal Injection of Teflon Paste	1078
Thyroplasty/Vocal Cord Medialization	1080
Laryngofissure (Thyrotomy)	1082
Corpectomy and Arytenoidectomy for Bilateral Abductor Cord Paralysis	1084
Lateralization of Arytenoid Cartilage (Arytenoidopexy) for Bilateral Abductor Vocal Cord Paralysis	1086
Cancer of the Larynx	1089
Treatment	1094
Radiation Therapy for Laryngeal Cancer	
<i>Dhiren K. Shah</i>	
Partial Laryngectomy (Outline)	1100
Corpectomy for Small Carcinoma of True Vocal Cord	1105
Vertical or Frontolateral Laryngectomy	1106
Omohyoid Muscle Laryngoplasty	1114
Strap Muscle Laryngoplasty	1116
Horizontal or Supraglottic Laryngectomy	1118
Simultaneous Radical Neck Dissection	1120
Laryngeal Suspension	1125
Total Laryngectomy	1126
Tracheostomal Problems	1134
Technique of Construction of Large Tracheal Stoma	1134
Correction of Tracheal Stomal Stenosis	1135
Total Laryngectomy and Radical Neck Dissection	1136
Tongue Flap (Myomucosal) for Reconstruction of Portion of Hypopharynx Associated With Total Laryngectomy	1142
Voice Prostheses: Post-Total Laryngectomy	1143
Tracheal Esophageal Puncture (TEP)	1143
Singer-Blom Technique (Modified)	1144
Panje Voice Button Prosthesis	1146
Total Laryngectomy and Radical Neck Dissection	1148
Resection of External Laryngocele	1152
Laryngeal Trauma	1154
Correction of Laryngeal Web	1162
Technique of McNaught (1950)	1162
Technique of Frazer (1968)	1162
Aspiration	1162
Carbon Dioxide Laser	1164

21 THE HYPOPHARYNX AND THE ESOPHAGUS

Repair of Pharyngoesophageal Diverticulum	1171
Exposure of the Superior Portion of the Thoracic Esophagus	1176
Repair of Iatrogenic Injury to the Esophagus	1176
Resection of Adenocarcinoma From the Cervical Esophagus	1176
Cricopharyngeal Myotomy	1178
Transhyoid Pharyngotomy	1180
Anterior Pharyngotomy	1180

Resection of Carcinoma at Posterior Wall of Hypopharynx and Oropharynx and Radical Neck Dissection (Lateral Pharyngotomy Approach)	1181
Introduction to Reconstruction of Pharynx and Esophagus	1186
Carcinoma of the Hypopharynx and Cervical Esophagus	1187
Myomucosal Tongue Flap and Dermal Graft for Reconstruction of Entire Hypopharynx, Posterior Wall of Oropharynx, and Nasopharynx Associated With Total Laryngectomy and Total Hypopharyngectomy	1188
Cervical Esophagoscopy	1190
Reconstruction of Hypopharynx and Cervical Esophagus Using PMF With Dermal Graft	1190
Reconstruction After Partial "Cuff" Cervical Esophagectomy, Hypopharyngectomy, and Total Laryngectomy Above the Thoracic Inlet Using Local Cervical Flaps	1192
Free Skin Graft Over Tantalum Gauze	1196
Thoracic Skin Flap	1196
Resection for Cancer of the Cervical Esophagus	1199
Gastric Pull-Up	1200
Gastric Pull-Up With Extrathoracic Esophagectomy	1200
Resection of Cancer of Cervical Esophagus at the Thoracic Inlet	1206
Cervical Esophagocolostomy	1213
Reconstruction of Esophagus Using Transverse and Descending Colon	1216
Stamm Gastrostomy	1222
Janeway Gastrostomy	1224
Percutaneous Endoscopic Gastrostomy	1227
<i>Daniel Sette Camara</i>	

22 VASCULAR PROCEDURES 1233

JOHN M. LORÉ, JR., JOSEPH M. ANAIN,
NIEVA B. CASTILLO, and L. NELSON HOPKINS

Vascular Surgery in Operations of Neck, Extracranial Portions of Head, Face, and Thoracic Outlet	1233
Basic Principles	1233
Degenerative Vascular Disease	1240
Extracranial Cerebrovascular Disease	1242
Exposure of Bifurcation of Carotid Arteries and Endarterectomy	1244
Endarterectomy With Patch Graft	1248
Intraluminal Shunts Used in Endarterectomy	1248
Complications of Carotid Artery Surgery	1250
Controversies of Carotid Artery Surgery	1252
Carotid Artery Stenting: Indications, Technique, and Results	1254
<i>L. Nelson Hopkins</i>	
Exposure of Cervical Portion of Subclavian Arteries and Proximal Portion of Vertebral Arteries	1256
Vertebral Artery Reconstruction	1258
Surgical Treatment of Occlusion of Vertebral Arteries	1258

Exposure of Distal Common Carotid Artery and Placement of Bypass Graft	1262
Subclavian Steal Syndrome	1262
Surgical Treatment of Occlusion of Common Carotid and Subclavian Arteries and Subclavian Steal	1264
Atherosclerotic Aneurysm	1266
Anomalies of the Internal Carotid Artery	1266
Exposure of Innominate Artery and Proximal Portion of Right Subclavian and Common Carotid Arteries via Sternal-Splitting Incision	1268
Bypass Graft for Obstruction of Innominate Artery	1270
Resection of Kinked Obstruction in Internal Carotid Artery	1272
Alternate Method to Correct Kinked Internal Carotid Artery	1274
Fibromuscular Dysplasia	1274
Vasculitis	1275
Radiation Arteritis	1275
Spontaneous Carotid Artery Intimal Dissection	1275
Neoplastic Disease	1276
Metastatic Squamous Cell Carcinoma	1276
Resection of Portion of Common and Internal Carotid Arteries Involved by Cancer	1277
Results of Resection and Reconstruction of the Internal Carotid Artery in Metastatic Carcinoma	1283
Paragangliomas—Head and Neck	1283
Resection of Carotid Body Tumor	1294
Resection of Intravagale Paraganglioma With Preservation of Major Vessel Continuity	1300
Intravagale Paragangliomas and Bilateral Superior Sympathetic Ganglion Paragangliomas and Unilateral Carotid Body Tumors	1302
Intravascular (Glomus) Jugulare Paraganglioma Tumor	1307
Trauma to Vessels	1310
Vascular Trauma Outline	1310
Immediate Sequelae of Vessel Injuries	1310
Late Sequelae of Vessel Injuries	1313
Resection of Arteriovenous Aneurysm of the Face	1314
Resection of Aneurysm of Common or Internal Carotid Artery	1320
Transection of Internal Carotid Artery/Internal Jugular Vein Fistula With Resection of False Aneurysm	1320
Lateral Venotomy for Foreign Body	1326
Control of Hemorrhage	1328
Effects of Cancer: Carotid Artery Blowout	1328
Prevention and Management of Carotid Artery Blowout	1328
Protection for Carotid Artery	1331
Protection for Carotid Artery and Sources of Muscle Bulk	1334
Ligation of More Proximal Vessel	1336
External Carotid Artery Ligation	1336
Harvesting Saphenous Vein for Graft	1338

Thoracic Outlet Syndrome—Scalenotomy	1340
--	------

23 BASE OF THE SKULL SURGERY 1348

Base of Skull and Parapharyngeal Space	1349
Parapharyngeal Space	1350
Anatomy of the Parapharyngeal Space	1350
CT versus MRI	1351
Approaches to the Parapharyngeal Space	1352
Glossopharyngeal Neuralgia	1361
Infratemporal Approach to the Skull Base	1365
<i>Ernesto A. Diaz-Ordaz</i>	
Surgery of the Parapharyngeal Space	1365
Advanced Radical Exposure	1368
Mandibular Swing	1374
Craniofacial Resection	1377
Bilateral Total Maxillectomy for Chondrosarcoma	1386
Supraorbital Approach to the Orbit and Paranasal Sinuses	1391
Cranial Portion	1391
<i>Gregory J. Castiglia and Daniel P. Schaefer</i>	
Facial Portion	1394
<i>John M. Loré Jr. and Daniel P. Schaefer</i>	
Reconstruction	1394
Transseptal Transsphenoidal Hypophysectomy —Cryosurgical and Surgical	1395
Cryosurgical Hypophysectomy	1400
Surgical Ablative Hypophysectomy	1400
Endoscopic Endonasal Transsphenoidal Approach to the Pituitary Gland	1404
<i>Douglas B. Moreland</i>	
Temporal Bone Resection	1408
<i>John S. Lewis</i>	

24 MICROVASCULAR SURGERY 1417 ROBERT W. DOLAN

Microvascular Free Flaps	1417
Historical Perspective and Introduction	1417
Flap Classification	1418
Typical Donor Flaps	1418
Recipient Defects and Microvascular Flap Selection	1420
Microsurgery	1422
Advantages and Disadvantages of Specific Flaps	1428
Radial Forearm	1429
Fibular Osteocutaneous	1436
Rectus Musculocutaneous	1441
Scapular Osteocutaneous	1448
Latissimus	1456
Jejunal	1462
Iliac Crest Osteocutaneous	1464
Gracilis	1468

INDEX 1471
