Nonlinear Incentive Contracting in Walrasian Markets: A Cournot Approach

Hellwig, Martin*

September 2000

This paper owes a lot to discussions that I have had over the years with Richard Arnott, Tilman Börgers, Winand Emons, Laurenz Kohleppel, Joe Stiglitz, Thomas von Ungern-Sternberg, and especially Douglas Gale. I am grateful to all of them. I am also grateful for research support from the Deutsche Forschungsgemeinschaft through Sonderforschungsbereich 504 at the University of Mannheim.
