On Notations and Definitions	XII
1. Introduction	1
1.1 Real Number System	1
1.1.1 Axioms of the Set of Real Numbers	1
1.1.2 Order Properties of Real Numbers	1
1.2 Complex Number System	5
1.3 Monotone Functions	8
1.4 Convex Functions	10
1.4.1 Definitions of Jensen Convex Functions	10
1.4.2 Continuity of Jensen Convex Functions	14
1.4.3 Convex Functions	15
1.4.4 Continuity and Differentiability of Convex Functions	17
1.4.5 Logarithmically Convex Functions	18
1.4.6 Some Extensions of the Concept of Convex Functions	20
1.4.7 Hierarchy of Convexity	22
2. General Inequalities	27
2.1 Fundamental Inequalities	27
2.1.1 Simple Means	27
2.1.2 Cauchy's Inequality	30
2.2 Abel's Inequality	32
2.3 Jordan's Inequality	33
2.4 Bernoulli's Inequality and its Generalizations	34
2.5 Čebyšev's and Related Inequalities	36
2.6 Cauchy's and Related Inequalities	41
2.6.1 Some Refinements and Extensions of Cauchy's Inequality	41
2.6.2 Gram's Inequality	45
2.7 Young's Inequality	48
2.8 Hölder's Inequality	50
2.9 Minkowski's and Related Inequalities	55
2.10 Inequalities of Aczél, Popoviciu, Kurepa and Bellman	57
2.11 Schweitzer's, Diaz-Metcalf's, Rennie's and Related Inequalities	59
2.12 An Inequality of Fan and Todd	66
2.13 Grüss' Inequality	70
2.14 Means	74
2.14.1 Definitions	74
2.14.2 Inequalities Involving Means	76
2.14.3 Ratios and Differences of Means	79
2.14.4 Refinement of the Arithmetic-Geometric Mean Inequality	81
2.14.5 Some General Inequalities Involving Means	85
2.14.6 The λ -Method of Mitrinović and Vasić	90

2.15	Symmetric Means and Functions	95
2.15.1	Definitions and Main Relations between Symmetric Means	95
2.15.2	Inequalities of Rado-Popoviciu Type	98
2.15.3	Concavity of Certain Functions Involving the Elementary Symmetric Functions	102
2.16	Steffensen's and Related Inequalities	107
2.17	Schur's Inequality	119
2.18	Turán's Inequalities	122
2.19	Benson's Method	126
2.20	Recurrent Inequalities of Redheffer	129
2.21	Cyclic Inequalities	132
2.22	Inequalities Involving Derivatives	138
2.23	Integral Inequalities Involving Derivatives	141
2.23.1	An Inequality Ascribed to Wirtinger	141
2.23.2	An Inequality of Opial	154
2.24	Inequalities Connected with Majorization of Vectors	162
2.25	Inequalities for Vector Norms	170
2.25.1	Triangle Inequality	170
2.25.2	An Identity of Hlawka and the Associated Inequality	171
2.25.3	An Inequality of Hornich	172
2.25.4	Generalizations of Hlawka's Inequality	173
2.25.5	A Steinitz-Gross Result	176
2.26	Mills' Ratio and Some Related Results	177
2.27	Stirling's Formula	181
3.	Particular Inequalities	186
3.1	Inequalities Involving Functions of Discrete Variables	187
3.2	Inequalities Involving Algebraic Functions	198
3.3	Inequalities Involving Polynomials	217
3.4	Inequalities Involving Trigonometric Functions	235
3.5	Inequalities Involving Trigonometric Polynomials	247
3.6	Inequalities Involving Exponential, Logarithmic and Gamma Func- tions	266
3.7	Integral Inequalities	289
3.8	Inequalities in the Complex Domain	310
3.9	Miscellaneous Inequalities	336
	Name Index	387
	Subject Index	397
