

CONTENTS

Preface	vii
Asymptotic Expansions for Ordinary Differential Equations: Trends and Problems WOLFGANG WASOW, Mathematics Research Center, U. S. Army, and Mathematics Department, University of Wisconsin	3
Solvable Related Equations Pertaining to Turning Point Problems HUGH L. TURRITTIN, University of Minnesota	27
Asymptotic Methods for the Solution of Dispersive Hyperbolic Equations ROBERT M. LEWIS, Courant Institute of Mathematical Sciences	53
Asymptotic Solutions and Indefinite Boundary Value Problems ROBERT W. MCKELVEY, Mathematics Research Center, U. S. Army, and University of Colorado	109
Some Examples of Asymptotic Problems in Mathematical Physics C. C. LIN, Massachusetts Institute of Technology	129
On the Problem of Turning Points for Systems of Linear Ordinary Differential Equations of Higher Orders YASUTAKA SIBUYA, University of Minnesota and Ochanomizu University, Tokyo	145
Error Bounds for Asymptotic Expansions, with an Application to Cylinder Functions of Large Argument FRANK W. J. OLVER, National Bureau of Standards	163

Asymptotic Solutions of Elastic Shell Problems ROBERT A. CLARK, Case Institute of Technology.....	185
The Integral Equations of Asymptotic Theory ARTHUR ERDÉLYI, The University of Edinburgh	211
Application of Langer's Theory of Turning Points to Diffraction Problems NICHOLAS D. KAZARINOFF, University of Michigan.....	231
Index.....	245
