<i>Notes on Contributors</i>	<i>xi</i>
<i>Foreword</i>	<i>xv</i>
1 Youth Drinking Cultures: European Experiences <i>Margaretha Järvinen and Robin Room</i>	1
2 Understanding Cultural Differences in Young People's Drinking <i>Robin Room</i>	17
3 Drunken Behaviour, Expectancies and Consequences among European Students <i>Barbro Andersson and Björn Hibell</i>	41
4 Gender Differences in Youth Drinking Cultures <i>Salme Ahlström</i>	65
5 The Impact of Socio-Economic Status on Adolescent Drinking Behaviour <i>Matthias Richter, Anja Leppin, Saoirse Nic Gabhainn and Klaus Hurrelmann</i>	81
6 The Impact of Parents on Adolescent Drinking and Friendship Selection Processes <i>Rutger C.M.E. Engels, Rebecca N.H. De Leeuw, Evelien A.P. Poelen, Haske Van Der Vorst, Carmen S. Van Der Zwaluw and Jan F.J. Van Leeuwe</i>	101
7 Consumption beyond Control. The Centrality of Heavy Social Drinking in the Lifestyles of English Youth <i>Howard Parker</i>	119
8 Being 'Taught to Drink'. UK Teenagers' Experience <i>Martin Plant and Patrick Miller</i>	131
9 Alcohol Use among Danish Adolescents: a Self- and Social Identity Perspective <i>Kirsten Verkooijen, Gert A. Nielsen, Nanne de Vries and Kim Bloomfield</i>	145

10	Conclusion: Changing Drunken Component or Reducing Alcohol-related Harm <i>Margaretha Järvinen and Robin Room</i>	161
	<i>Index</i>	175

# List of Figures

3.1	Proportion of students (%) who were drunk three times or more during the last 30 days, estimated average consumption in cl. 100% alcohol on the last drinking occasion and proportion of binge drinkers by country	46
3.2	Correlation between positive expectancies (positive) of own alcohol consumption and having been drunk 3 times or more during the last 30 days	49
3.3	Correlation between negative expectancies (negative) of own alcohol consumption and having been drunk 3 times or more during the last 30 days	49
3.4	Experienced problems caused by alcohol. All students	50
3.5	Correlation on country level between any experienced problems in relation to own alcohol consumption and having been drunk 3 times or more during the last 30 days	51
3.6	Correlation on country level between experienced individual problems in relation to own alcohol consumption and having been drunk 3 times or more during the last 30 days	52
3.7	Correlation on country level between experienced relational problems in relation to own alcohol consumption and having been drunk 3 times or more during the last 30 days	53
3.8	Correlation on country level between experienced sexual problems in relation to own alcohol consumption and having been drunk 3 times or more during the last 30 days	53
3.9	Correlation on country level between experienced delinquency problems in relation to own alcohol consumption and having been drunk 3 times or more during the last 30 days	54
4.1	Use of any alcoholic beverage 10 times or more during the last 30 days. Percentages among boys and girls, 2003	69
4.2	Proportion of boys and girls who have been drunk 10 times or more during the last 12 months, 2003	70
4.3	Estimated average consumption of alcohol in cl 100%, on the last drinking occasion	71
4.4	Beer consumption 3 times or more during the last 30 days. Percentages among boys and girls	72
4.5	Wine consumption 3 times or more during the last 30 days. Percentages among boys and girls, 2003	73
4.6	Consumption of spirits 3 times or more during the last 30 days. Percentages among boys and girls, 2003	74
6.1	Parental behaviour, adolescent drinking and friends' drinking. Structural model, total group	109

6.2	Parental behaviour, adolescent drinking and friends' drinking. Structural model, changing friends	110
6.3	Parental behaviour, adolescent drinking and friends' drinking. Structural model, stable friends	111

# List of Tables

2.1	Drinking patterns among teenagers, southern wine, central beer and northern 'spirits' cultures, by gender. HBSC 2001/2002 and ESPAD 2003 studies	29
2.2	Contexts and expectations of drinking among teenagers, southern wine, central beer and northern 'spirits' cultures: percent giving answer. ESPAD 2003 study	33
2.3	Problems caused by own alcohol use among teenagers, southern wine, central beer and northern 'spirits' cultures: percent giving answer. ESPAD 2003 study	35
3.1	Expected personal consequences of alcohol consumption and the 30 days drunkenness prevalence rates among Swedish and Greek students	56
3.2	Expected personal consequences of alcohol consumption by alcohol consumption group on the last drinking occasion. Proportion of Greek and Swedish students	57
3.3	Experienced problems due to alcohol consumption and the 30 days drunkenness prevalence rates among Swedish and Greek students	59
3.4	Experienced problems due to alcohol consumption by alcohol consumption group on the last drinking occasion. Proportion of Greek and Swedish students	59
4.1	Survey characteristics	68
4.2	Gender ratios in drinking variables	75
5.1	Regular alcohol use and repeated drunkenness among 11- to 15-year-olds, by country and gender (%)	87
5.2	The relationship between alcohol use (at least once a week) and parental occupation by country, percentages and odds ratios, <sup>1</sup> girls and boys	88
5.3	The relationship between drunkenness (2 to 3 times or more) and parental occupation by country, percentages and odds ratios, <sup>1</sup> girls and boys	89
5.4	The relationship between alcohol use (at least once a week) and family affluence by country, percentages and odds ratios, <sup>1</sup> girls and boys	91
5.5	The relationship between drunkenness (2 to 3 times or more) and family affluence by country, percentages and odds ratios, <sup>1</sup> girls and boys	92
6.1	Proportions explained variance for alcohol use of adolescent and best friend at two time points	108
7.1	Reasons for drinking alcohol in hierarchical order by drink status at 17/18 years	122
7.2	Alcohol profiles and consumption rates on last occasion by drug status at 22 years	123

7.3	Negative post-drinking experiences since 18 years of age nominated at 22 years, in hierarchical order by drink status	125
8.1	Frequencies of alcohol consumption in those taught and not taught to drink by their parents	134
8.2	Quantities of alcohol consumed on the last drinking occasion	135
8.3	Ages of first consumption and first intoxication	136
8.4	Family circumstances and parental attitudes	138
8.5	Smoking and illicit drug use in the 'taught' and 'untaught' group	139
9.1	Means and standard deviations of Time 1 measures and correlations with Time 2 measures	151
9.2	Hierarchical regression analysis predicting drinking behavior at Time 1	152
9.3	Hierarchical regression analysis predicting drinking behavior at Time 2	154
