	Preface: Competing Flat Out	xix
Chapter 1:	The Orchestration Imperative	1
	The Challenge of Globalization 3.0	4
	Ripping the Roof Off the Factory.	5
	Increasing Flexibility: Precipitating Supply Chains from the Network.	8
	Orchestration: Most Evident in Its Absence	11
	The Broad Opportunities for Orchestration	13
	The Three Roles of Network Orchestration	15
	Role #1: Design and Manage Networks	16
	Role #2: Control through Empowerment	16
	Role #3: Create Value through Integration	16
	A Multiplier.	17
	Bumps, Mountains, and Superhighways: The Need for Balance.	18
	Not Where, but How	19
	Orchestrate or Be Orchestrated.	20
PART I:	Focus: Firm and Network	23
Chapter 2:	Orchestrate the Network	25
	What Is Network Orchestration?	26
	The Constraints of Ownership	28
	What Is “It”? Where Is “It”?	30
	The Myth of Vertical Integration	32
	Global Dispersion: Why Tickle Me Elmo Wasn’t Born in Manhattan	33
	The Illusion of Trade Deficits	35

Importance of the Conductor	36
Two Types of Networks: Fixed or Flexible	38
Sharing Economic Value	39
A Baton at the Front	41
Chapter 3: Compete Network Against Network	43
The New Competition	45
Improving the Network	47
The Wisdom of Networks	49
Beyond the Cheapest Needle: The Logic of the Network.	51
Feed Me More Mommy! Accessing Best-in-Class Capabilities	52
9/11 and SARS: Building Resilience	54
Two Million Christmas Trees: Boosting Speed	55
Improving Forecasts: Increasing Responsiveness	57
Floral Buttons: Discovering New Resources	58
Maintaining Continuity of Supply for South Africa: Navigating Shifting Global Trade Regulations	58
RFID: Creating Standards	59
Clustering in a Flat World.	60
A Robust Network.	62
Trust and Relationships.	63
A Machete and a PDA	64
PART II: Management: Control and Empowerment	67
Chapter 4: Take Responsibility for the Whole Chain (Whether You Own It or Not)	69
There Is Greater Transparency in a Flat World	71
Minding the Factory	72

Addressing the Root Cause: Control Without Ownership	73
Creating a Code of Conduct	74
Monitoring Rigorously	76
Anticipating	76
Ensuring Accountability	77
Creating the Context	78
Extending the Supply Chain: Return, Recycle, Reuse	79
A Broader View of the Business	80

Chapter 5: Empower “Little John Waynes” to Create a Big-Small Company	83
The Perils of the Flat-World Frontier	84
The Frontier Spirit	86
Encashing and Incentives	87
Policies and Culture	88
Creating Plug-and-Play Enterprises	89
The Wagon Trains: The Back Office and Middle Office	91
Why Not Outsource?	92
Expanding into the Middle Office	93
Facilitating Growth	94
How the West (and East) Were Won: Giving Wings to a Tiger.	96

Chapter 6: Establish the Three-Year Stretch to Balance Stability and Renewal	99
The Problem with Moving Targets	100
Stability and Renewal	101
The Power of the Stretch	102
Where’s the Stick?: No Penalties for Falling Short	106
Formulating the Plan	107
1. Paint Scenarios for the Next Three Years . .	108
2. Set a Vision and Stretch Objectives	109

3. Use Backward Planning to Develop Strategies to Bridge Gaps	109
4. Develop the Organizational Architecture ..	110
5. Create an Implementation Plan	110
Planning for Networks	110
A New Organization Every Three Years	111

Chapter 7: Build the Company Around the Customer	115
Launching a New Business.....	116
Customers Evoking Supply Chains	117
Cosourcing with Customers	119
Understanding and Anticipating Customers ...	120
Increasing Customization	121
Engaging in Co-Development	122
Why Disintermediation Didn't Happen: The Need for Thick Connections.....	124
Building Narrow and Deep Relationships	125
Technology in the Service of the Business ...	126
Customers Are the New Axis of the Flat World	129

Chapter 8: Follow the 30/70 Rule to Create Loose-Tight Organizations	131
Loose Coupling	133
Leveraging Learning.....	134
Leveraging Capital	135
Benefits for Suppliers: Democratizing the Network.....	136
Building and Expanding Relationships with Suppliers	139
Knowledge of Supplier Strengths	139
Building the Capacity of the Network	139
Forging Connections to Suppliers	140
Loose but Not Laid-Back	141

PART III:	Value Creation: Specialization and Integration	143
Chapter 9:	Capture the “Soft \$3” by Looking Beyond the Factory	145
	Opportunities to Capture the Soft Dollars. . . .	147
	Boosting Efficiency: Containers and Flawless Execution	148
	Improving Coordination: Minimizing Markdowns	149
	Creatively Rethinking the Supply Chain	150
	Taking on More of the Chain	152
	Higher Stakes	153
Chapter 10:	Sell to the Source by Bridging Marketing and Operations	155
	From Outsourcing Programming to Selling Generators in India	156
	Breaking Down Walls Between Marketing and Operations	157
	Opportunities in Emerging Markets	159
	Markets Follow the Factories	160
	Seizing Opportunities While Avoiding Ghost Malls	161
	Regulations and Policy	163
	Risks	164
	Knowledge of Competition	164
	Detailed Local Market Knowledge	164
	Market Shifts	165
	Bringing Worlds Together.	167
PART IV:	Implications for Policy and Practice	169
Chapter 11:	Policy: Building a Borderless Business in a World of Nation-States	171
	New Silk Roads	172
	Regulatory Mountains and Superhighways . . .	173

Increasing Complexity and Bilateral Agreements	175
Advantages of Nations	176
Democratization of Trade	177
Deciding Where to Play	178
Country of Origin: The Need for a New Language	179
Ferraris on Dirt Roads	180

Chapter 12: Practice: A Lever to Move the World ... 183

Rethinking the Business	184
The Flat World Requires Network Orchestration	185
Opportunities for Network Orchestration	186
Google's Bus Network: Taking a Broader View of the Business	187
Building Collaborative Networks to Strike Gold	188
Orchestrating Consumer and Social Networks	189
Nike + iPod: Innovative Combinations	190
Beyond Business	191
Striking a Balance in a Flat-Round World	193
Balancing Firm and Network	194
Balancing Control and Empowerment	195
Balancing Specialization and Integration	197
Participating in Networks	199
Leading Networks	200
An Ever-Flattening World	201

Conclusion: Are You Ready to Compete Flat Out? ... 203

A Plan for Action	204
What Should You Do Next?	205
How Do You Achieve Profitable Growth? ...	206
How Can You Build the Competencies You Need to Compete?	207

A New World View	212
An Evolving World	213
Appendix: About Li & Fung	215
Notes	219
Index	225
