Foreword

Author's Note

	<i>page</i>
1 Sur un théorème métrique. <i>Fundamenta Mathematicae</i> , 5 , 328–30 (1923)	1
2 Contribution to the theory of small samples. <i>Biometrika</i> , 17 , 472–9 (1925)	3
3 Further notes on non-linear regression. <i>Biometrika</i> , 18 , 257–62 (1926)	13
4 On the correlation of the mean and the variance. <i>Biometrika</i> , 18 , 401–13 (1926)	19
5 Sur les lois de probabilité qui tendent vers la loi de Gauss. <i>Comptes Rendus de l'Acad. des Sci., Paris</i> , 182 , 1590–2 (1926)	31
6 Sur une propriété de la loi de probabilité à laquelle obéit le coefficient de variation. <i>Comptes Rendus de l'Acad. des Sci., Paris</i> , 183 , 107–9 (1926)	33
7 Méthodes nouvelles de vérification des hypothèses. <i>Comptes Rendus du I Congrès de Mathématiciens des Pays Slaves</i> , Warsaw, 355–66 (1929)	35
8 Contribution to the theory of certain test criteria. <i>Bull. Int. Stat. Inst.</i> 3–48 (1929)	43
9 Counting virulent bacteria and particles of virus. (With K. Iwaskiewicz.) <i>Acta Biologiae Exp.</i> 6 , 101–42 (1931)	71
10 On the two different aspects of the representative method. <i>J. Royal Stat. Society</i> , 97 , 558–625 (1934). (Spanish version of this paper appeared in the <i>Estadística</i> , <i>J. Inter-Amer. Stat. Inst.</i> 17 , 587–651 (1959).	98
11 On the problem of confidence intervals. <i>Annals of Mathematical Statistics</i> , 6 , 111–6 (1935)	142
12 Sur la vérification des hypothèses statistiques composées. <i>Bull. Soc. Math. de France</i> , 63 , 346–66 (1935)	147
13 Statistical problems in agricultural experimentation. (With K. Iwaskiewicz and St. Kołodziejczyk.) (Paper read before the Industrial and Agricultural Section of the Royal Statistical Society, March 28, 1935.) <i>J. Royal Stat. Soc. Suppl.</i> 2 , 107–80 (1935).	160
14 Statistical studies in questions of bacteriology. Part I. The accuracy of the 'dilution method'. (With T. Matuszewski and J. Supińska.) <i>J. Royal Stat. Soc. Suppl.</i> 2 , 63–82 (1935)	209
15 Complex Experiments. Contribution to the discussions of the paper by F. Yates, <i>J. Royal Stat. Soc. Suppl.</i> 2 , 235–42 (1935)	225

	<i>page</i>
16 The labour bill and output of arable farms. Contribution to the discussion of the paper by R. McG. Carslaw and P. E. Staves, <i>J. Royal Stat. Soc.</i> 97 , 627–35 (1935)	233
17 Errors of the second kind in testing ‘Student’s’ hypothesis. (With B. Tokarska.) <i>J. Amer. Stat. Assoc.</i> 31 , 318–26 (1936)	238
18 La vérification de l’hypothèse concernant la loi de probabilité d’une variable aléatoire. <i>Comptes Rendus de l’Académie des Sci., Paris</i> , 203 , 1047–9 (1936)	246
19 Sur la loi de probabilité limite d’un système de variables aléatoires. <i>Comptes Rendus de l’Académie des Sci., Paris</i> , 203 , 1211–13 (1936)	248
20 Outline of a theory of statistical estimation based on the classical theory of probability. <i>Phil. Trans. R. S. of London</i> , Ser. A, No. 767, 236 , 333–80 (1937)	250
21 ‘Smooth’ test for goodness of fit. <i>Skandinavisk Aktuarietidskrift</i> , 20 , 149–99 (1937)	291
22 Contributions to the theory of sampling human populations. <i>J. Amer. Stat. Assoc.</i> 33 , 101–16 (1938)	320
23 L’estimation statistique traitée comme un problème classique de probabilité. <i>Actualités Scientifiques et Industrielles</i> , No. 739, 25–57 (1938)	322
24 On statistics, the distribution of which is independent of parameters involved in the original probability law of the observed variables. <i>Statistical Research Memoirs</i> , 2 , 58–9 (1938)	354
25 On a new class of ‘contagious’ distributions, applicable in entomology and bacteriology. <i>Annals of Mathematical Statistics</i> , 10 , 35–57 (1939)	356
26 Fiducial argument and the theory of confidence intervals. <i>Biometrika</i> , 32 , 128–50 (1941)	375
27 Un théorème d’existence. <i>Comptes Rendus de l’Acad. des Sci., Paris</i> , 222 , 843–5 (1946)	395
28 Contribution to the theory of the chi-square test. <i>Proc. Berkeley Symposium on Math. Stat. and Prob.</i> 1945 (J. Neyman, Editor), University of California Press, Berkeley, 1949, pp. 239–73	397
<i>Appendix: Bibliography of Scientific papers by J. Neyman</i>	424
