

TABLE OF CONTENTS

	Page
Introduction and Summary	1
1. Multiplication Theorems and Square Theorems; Bourlet Operators	5
2. Substitutions Operators. The Schröder Equation	21
3. Continuous Iteration. Commuting Substitution Operators . . .	31
4. Relations Between Bourlet Operators of the Specific Form . .	45
5. Superposition of Substitution Operators	56
6. Integral Operators: Remarks and Definitions	61
7. The Theorems of Weyl and von Neumann on Hermitean Carleman Operators	70
8. Recent Results on Carleman Operators	75
9. Strong Carleman Operators	86
10. Convergence Theorems	92
11. Transformation of Strong Kernels	99
12. Operators of Locally Bounded Range	102
13. Concluding Remarks. Open Questions	104
List of References	108
