

Contents

vii Preface

Institutional approaches/issues

- 1 **Building capacity of the Baltic States to meet the EU water framework directive through watershed demonstration projects** A.H. Vicory, J. Staniskis, J. Heath and T. Davenport
- 9 **Strategic water planning for South East England: preparing for proposed development** B.A. Carroll
- 17 **Regional water quality management for the Dong Nai River Basin, Vietnam** W. M. Grayman, H. J. Day and R. Luken

Water resources management

- 25 **Sustainable stormwater concepts as an essential instrument for river basin management** M. Becker and U. Raasch
- 33 **Identification of significant pressures and impacts upon receiving waters** D. Borchardt and S. Richter
- 39 **Measures for structural improvement with regard to the good status of water bodies – estimation of expenditure for a river basin in Germany** T. Grünebaum, G. Morgenschweis, E.A. Nusch, H. Schweder and M. Weyand
- 47 **RIONET: A water quality management tool for river basins** H. Reuter, G. Krause, A. Mönig, M. Wulkow and H. Horn
- 55 **Assessment of sustainable water management for rapidly developing urban regions in Guangzhou City** J. L. Eastcott, T. Aramaki, K. Hanaki, Z. Li and J. You
- 63 **Lake Kinneret watershed contamination transports – a GIS based hydrological model** A. Ostfeld and A. Pries

Water supply sources

- 71 **Multi-objective water resources systems analysis using genetic algorithms – application to Chou-Shui River Basin, Taiwan** J.-T. Kuo, W.-C. Cheng and L. Chen
- 79 **Improvement of pre-and post-processing environments of dynamic two-dimensional reservoir model CE-QUAL-W2 based on GIS** S.-R. Ha, G.-J. Bae, D.-H. Park and J.H. Cho
- 89 **Risk assessment of a dam-break using GIS technology** D.Z. Seker, S. Kabadasi and B. Rudvan
- 97 **Monitoring of water transfer from Katse Dam into the Upper Vaal river system: water utility's perspective** T. Lepono, H.H. Du Preeze and M. Thokoa

Monitoring

- 103 **A European scale monitoring system to assess water quality of multi-national river basins in the accession countries** J. Fehér and A. Lázár

Flow related issues

- 111 **Operational water quantity management in a river basin** G. Morgenschweis, T. Brudy-Zippelius and J. Ihringer

- 119 **Low Flows 2000: A national water resources assessment and decision support tool**
A. R. Young, R. Grew and M.G.R. Holmes
- 127 **Modelling the influence of irrigation abstractions on Scotland's water resources**
S.M. Dunn, N. Chalmers, M. Stalam, A. Lilly, R.Crabtree and L. Johnston
- 135 **Investigation of coastal morphological changes due to river basin characteristics by means of remote sensing and GIS techniques** D.Z. Seker, C. Goksel, S. Kabdasli, N. Musaoglu and S. Kaya

Sediments

- 143 **River Rhine as a source of micro-pollutants in the canal sediments of the city of Delft (the Netherlands)** P. Kelderman, Y. Xuedong, Q. Wenchuan and W.M.E. Drossaert
- 151 **Effects of sediment phosphorus release associated with the density current on water quality of a subtropical and deep reservoir in Taiwan** Y.-J. Chen and S.-C. Wu
- 159 **Phosphate and arsenate retention in sediments of the Anllóns river (northwest Spain)** D. Rubinos, M. T. Barral, B. Ruiz, M. Ruiz, M. E. Rial, M. Álvarez and F. Diaz-Fierros

Pollution sources and control

- 167 **Evaluation of the methods for first flush analysis in urban watersheds** J. H. Lee, M. J. Yu, K. W. Bang and J. S. Choe
- 177 **A multiobjective model for non-point source pollution control for an off-stream reservoir catchment** J.-J. Kao and W. J. Chen
- 185 **Waste load allocation for water quality management of heavily polluted river using linear programming** J.H.Cho, K.H.Ahn, W.J.Chung and E.M. Gwon
- 191 **Measuring in-stream productivity: the potential of continuous chlorophyll and dissolved oxygen monitoring for assessing the ecological status of surface waters** H.P.Jarvie, A. J.Love, R.J.Williams and C. Neal
- 199 **Prediction of climate change effects on fish communities in the Mackinaw River watershed, Illinois** E. E. Herricks and E. R. Bergner
- 209 **Nitrogen removal from water containing high nitrate nitrogen in a paddy field (wetland)** H.Nakasone, H.Kuroda, T.Kato, and T. Tabuchi
- 217 **Impact of agricultural practices and river catchment characteristics on river and bathing water quality** M. N. Aitken
- 225 **Predicting near-shore coliform bacteria concentrations using ANNS** B. Lin, S. M. Kashefipour and R.A.Falconer
