	<i>List of tables</i>	page viii
	<i>List of maps</i>	x
	<i>Foreword by Harry Hoijer</i>	xi
	<i>Preface</i>	xiii
	<i>Acknowledgments</i>	xvi
	<i>List of abbreviations</i>	xix
1	The controversy over Proto-Athapaskan kinship	1
2	Lexical reconstruction	5
	Introduction	5
	Lexical reconstruction defined	7
	Subgrouping the Athapaskan languages	10
	The procedure of lexical reconstruction	15
	Near-inclusion	19
	The contrast of meanings	20
	The principle of reconstruction by contrast	20
	Addition	22
3	The reconstruction of Proto-Athapaskan kinship	23
	A note on new lists	23
	The reconstruction	23
	Characteristics of Proto-Athapaskan terminology	66
4	Kinship-term patterns as bases for inferences about kinship organization	71
5	Interpretation of Proto-Athapaskan terminology	116
	Introduction	116
	How shall we regard the kinship terminology of a proto-language?	117
	Bases for interpretation	120

	Inferences based on statistics	<i>page</i> 122
	Inferences based on experience and intuition	128
	Recapitulation	133
6	Approaches to the study of differentiation	135
	The terminology of daughter languages and larger major subgroups	135
	The analysis of dialect differentiation	141
	Plan for the analysis of dialect differentiation	157
7	The Pacific Subgroup	158
	Introduction	158
	The reconstruction of Proto-Pacific and early Hupic terminology	159
	Terminological pattern of early Hupic	162
	Use of predictor patterns to interpret early Hupic terminology	163
	Interpretations based on experience and intuition	164
	Summary and implications	165
	Internal differentiation of Hupic	165
	The ethnological record	186
	Conclusions	192
8	Apachean	193
	Introduction	193
	Terminological pattern of early Apachean	193
	Interpretations based on statistics	202
	Interpretations based on experience and intuition	204
	Internal differentiation of the Apachean subgroup	205
	Interpretation of the various systems	225
	The ethnological record	229
	Apachean and Apachean differentiation reconsidered	231
9	Canadian differentiation	236
	Introduction	236
	Early Canadian terminology and Canadian differentiation	255
	Canadian differentiation reconsidered	274
	Interpretation of Canadian Athapaskan	276
	Descent in Canadian	289
	Recapitulation	291
	The diffusion of kinship terminology	292
	Addendum	292

10	The methods and results of prior reconstructions	page 294
	Introduction	294
	The history of Athapaskan reconstruction	294
	Lexical reconstruction and homotypical reconstruction	296
	Murdock's use of internal reconstruction and homotypical reconstruction	309
	Charles B. White's use of internal reconstruction and congruity	331
	Archetypical reconstruction	338
	Summary and conclusions	348
11	Ethnological implications	352
	Introduction	352
	Reconstruction of PA kinship organization	352
	The diffusion hypothesis	360
	The plausibility of PA matrilineality	373
	Evaluation of various reconstructions	383
	Recapitulation	421
12	Summary	424
	<i>Glossary of terms used to describe kinship systems</i>	429
	<i>Rosters of kinship terms</i>	436
	<i>Works cited</i>	460
	<i>Index</i>	473

## Tables

2.1	Percentages of shared cognates among Athapaskan languages	page 12
3.1.1	Grandparents	24
3.1.2	Grandchildren	26
3.1.3	Parents, parents' siblings, step-parents	30
3.1.4	Sons and daughters	34
3.1.5	Nephews and nieces	36
3.1.6	Siblings	40
3.1.6.1	Appearances of term 40	42
3.1.7	Male parallel cousins	44
3.1.8	Female parallel cousins	46
3.1.9	Male cross cousins	50
3.1.10	Female cross cousins	54
3.1.11	Parents' siblings' spouses, parents-in-law	56
3.1.12	Children's spouses	59
3.1.13	Siblings' spouses, spouse's siblings	60
3.1.14	Spouses' siblings' spouses, spouses, co-wife	64
4.1	Descent and cousin terms	75
4.2	Descent and first ascending generation terms	76
4.3	Residence and cousin terms	76
4.4	Residence and first ascending generation terms	77
4.5	Form of marriage and cousin terms	77
4.6	Form of marriage and first ascending generation terms	78
4.7	First ascending generation terms and cousin terms	78
4.8	Major areas and rejected cases	78
4.9	Omaha prediction pattern, descent	82
4.10	Crow prediction pattern, descent	83
4.11	Iroquois prediction pattern, descent	84
4.12	Iroquois prediction pattern, form of marriage	86
4.13	Cousin terms as predictors of types of descent	87
4.14	First ascending generation terms as predictors of types of descent	90
4.15	Cousin terms as predictors of types of residence	92
4.16	First ascending generation terms as predictors of types of residence	93

4.17	Cousin terms as predictors of forms of marriage	page 95
4.18	First ascending generation terms as predictors of forms of marriage	97
4.19	Prediction of first ascending generation terms from cousin terms and vice versa	100
4.20	Prediction pattern summary	103
4.21	Social features as predictors of terminology	105
4.22	Random associations	107
4.23	Descent and combinations of cousin terms and first ascending generation terms	110
4.24	Residence and combinations of cousin terms and first ascending generation terms	111
4.25	Forms of marriage and combinations of cousin terms and first ascending generation terms	112
4.26	Terminological combinations and social variables, best dichotomies	113
5.1	PA terminology summarized	123
5.2	Tables derived from Murdock (1949)	127
6.1	Hypothetical variable and its attributes	143
6.2	Two ways of coding innovations	146
6.3	A third way of coding terms	152
7.1	Proto-Pacific and early Hupic terminology	161
7.2.1	G scores, Hupic	166
7.2.2	I scores, Hupic	166
7.3.1	Hupic G score dendrogram	167
7.3.2	Hupic I score dendrogram	168
7.4	Innovations and clusters in Hupic dialects	172
7.5	Ethnological data and interpretations of Hupic terminology compared	191
8.1	PA retentions in Apachean	194
8.2	Distribution of certain terms in Apachean	200
8.3	PA retentions and early innovations in Apachean	203
8.4.1	G scores, Apachean	206
8.4.2	I scores, Apachean	206
8.5.1	Apachean G score dendrogram	207
8.5.2	Apachean I score dendrogram	208
8.6	Innovations and clusters in Apachean dialects	215
8.7	Apachean interpretations summarized	228
8.8	Selected social features of Apachean tribes	230
9.1	I scores, mean I scores, and number of meanings with data, Canadian versions and subdialects	242
9.2.1	Canadian I score matrix	247

## x Tables

9.2.2	Canadian I score dendrogram	page 248
9.3	PA forms found in PA meanings in Canadian	256
9.4	Early Canadian terms in Ego's generation	272
9.5	Lineality, secondary marriages, and selected terminological features of Canadian	279
9.6	Association of terminological indices and lineality and secondary marriage, Canadian	280
9.7	In-laws, cross-relatives, lineality, and cross-cousin marriage, Canadian	282
9.8	Mother-in-law usages and cross-cousin marriage, Canadian	285
9.9	Father-in-law usages and cross-cousin marriage, Canadian	286
9.10	Parent-in-law usages and cross-cousin marriage, Canadian	287
9.11	Cousin usages and cross-cousin marriage, Canadian	287
10.1	Murdock's reconstruction of prior states of eight Athapaskan kinship systems	322
10.2	Various reconstructions compared	350
11.1	Residence, Eyak and Athapaskan	357
11.2	Comparison of possible Carrier prototypes and actual Carrier systems	416
A.1	Sources and groupings used in the rosters	439

## Maps

1	Northern Athapaskan groups and location of other Athapaskan speakers (after Cornelius Osgood, 'The distribution of the Northern Athapaskan Indians', <i>Yale University Publications in Anthropology</i> , 7, 1936)	6
2	Athapaskan groups of Southwest Oregon (after Philip Drucker, 'The Tolowa and their Southwest Oregon kin', <i>University of California Publications in American Archaeology and Ethnology</i> , vol. 36, no. 4, 1937) and Northern California (after Alfred L. Kroeber, 'Handbook of the Indians of California', <i>U. S. Bureau of American Ethnology Bulletin</i> , 78, 1925)	8
3	Southwest Athapaskan groups (after Alfred L. Kroeber, 'Cultural and natural areas of native North America', <i>University of California Publications in American Archaeology and Ethnology</i> , vol. 38, 1939)	9
