

TABLE OF CONTENTS

Chapter 1 ADDRESSING THE ECONOMICS OF WASTE – AN INTRODUCTION	7
1. Introduction.....	7
2. Trends in Waste Generation and Waste Policies.....	7
3. Economic Analysis of Solid Waste Management Policies.....	9
4. The Development and Implementation of a Landfill Tax in the UK.....	10
5. Waste Tax in Norway.....	11
6. Costs and benefits of alternative treatments of PVC waste in Denmark	13
7. Efficient Targeting of Waste Policies in the Product Chain	14
8. Targeting Lead in Solid Waste	15
9. Changing Product Characteristics to Reduce Waste Generation	17
10. Issues for Further Work – Conclusions.....	19
Chapter 2 WASTE GENERATION AND RELATED POLICIES: BROAD TRENDS OVER THE LAST TEN YEARS.....	23
1. Introduction.....	23
2. The findings.....	23
3. The environmental impacts of waste management	31
4. Measures and policies	32
5. Conclusions	34
6. Avenues for further research	36
Chapter 3 ECONOMIC ANALYSIS OF SOLID WASTE MANAGEMENT POLICIES	39
1. Solid Waste Around the World	40
2. A Simple Conceptual Model.....	44
3. Various Considerations in the Choice Among Policies.....	48
4. Unit Pricing Systems	50
5. Deposit-Refund Systems.....	53
6. Mandates.....	55
7. Manufacturer Take-Back Programs.....	55
8. Conclusion	56
Chapter 4 THE DEVELOPMENT AND IMPLEMENTATION OF A LANDFILL TAX IN THE UK.....	63
1. Introduction.....	63
2. Background to the introduction of the landfill tax.....	63
3. Development work on a Landfill Tax	64
4. Implementation of the Landfill tax proposals	68
5. Changes to the landfill tax since its introduction and recent new proposals.....	69
6. Evaluation of the success of the UK landfill tax	74
7. Conclusion	77

Chapter 5	WASTE TAX IN NORWAY	81
1.	Background	81
2.	Environmental costs of final waste treatment	84
3.	Measures to stimulate energy production from waste	91
Chapter 6	PVC WASTE IN DENMARK - COSTS AND BENEFITS OF ALTERNATIVE TREATMENTS	93
1.	Introduction	93
2.	Approach	94
3.	Treatment technologies	99
4.	Economic Analysis	106
5.	Conclusions	111
Chapter 7	EFFICIENT TARGETING OF WASTE POLICIES IN THE PRODUCT CHAIN	117
1.	Introduction	117
2.	The Cost of Waste Market Price Failures	119
3.	Waste Pricing With No Recycling And No Littering	121
4.	Waste Pricing With Recycling But No Littering	124
5.	Waste Pricing With Recycling and Littering	128
6.	Mandatory Deposits	132
7.	Setting Recycling Targets	138
8.	Demand-Side Policies	140
9.	Supply-Side Policies	142
10.	Producer Take-Back Responsibility	143
11.	Regulating Packaging	145
12.	Restricting Solid Waste Trade	146
13.	Conclusion	150
Chapter 8	TARGETING LEAD IN SOLID WASTE	161
1.	Introduction	161
2.	Lead in municipal solid waste	161
3.	Analysis of public policies	167
4.	Empirical effects of battery recycling policies	171
5.	Desirability of reducing lead in municipal solid waste	174
6.	Conclusion	176
Chapter 9	CHANGING PRODUCT CHARACTERISTICS TO REDUCE WASTE GENERATION	181
1.	Introduction	181
2.	Product characteristics and waste production - Facts and statistics	182
3.	Economic properties of innovation and implications for waste policies	186
4.	Extended Producer Responsibility and product innovation	189
5.	Waste policy instruments and product innovation	192
6.	Conclusion	197
