

Table of Contents

Preface	X
Matthias Kuhle	
Pleistocene Glaciations in the Himalayas and Tibet: New Findings from the Himalaya North Slopes to Central and Western Tibet	1
Stephan Naumann & Michael Walther	
Mid-Holocene Lake Level Fluctuations of Bayan Nuur (North-West Mongolia)	15
Lasafam Iturrizaga	
The Distribution of Debris Accumulations in the Rakhiot Valley, Nanga Parbat North Side (Pakistan)	28
Jussi Baade & Roland Mäusbacher	
Environmental Change and Settlement History – Preliminary Results from the Mukthinath Valley, Inner Himalayas, Nepal	40
Wolfgang Zech, Rupert Bäumler, Georg Guggenberger, Maxim Petrov, Anatoli Ni & Ivan Lemzin	
Pleistocene and Holocene Landscape Development in the Kichik Alay and Hissar Ranges (Khyrgyzia and Uzbekistan) as Deduced from Soil Morphology	53
Rupert Bäumler & Wolfgang Zech	
Soil Development as an Indicator of the Pleistocene and Holocene Landscape History in Western Tien Shan and Nepal	69
Wolfgang Zech, Bruno Glaser & María-Belén Turrión Nieves with Dawit Solomon, Girma Hailu, Anatoli Ni, Maxim Petrov & Ivan Lemzin	
Effects of Deforestation on Organic Matter Properties of Mountain Soils of the Alay Range, Khyrgyzia: A Geoecological Case Study in High Asia	83
Karl Tilman Rost & Sun Jianzhong	
Traces of Late-Holocene Deforestation and Climatic Changes in the Upper Wutai Shan (Shanxi, China) Derived from Loess-like Sediments	94

Achim Bräuning	
Ecological Division of Forest Regions of Eastern Tibet by Use of Dendroecological Analyses	111
Fei Yong	
Adaptation of Alpine Cushion Plants to their Environment in the Kunlun Mountains	128
L. Chimedregzen	
Distribution, Importance and Protection of Natural Oases in the Gobi Desert of Mongolia	134
Peter D. Gunin & Nikolai N. Slemnev	
Geobotanical Findings on the Desiccation of Arid Landscapes of Central Asia	140
Uwe Treter	
Recent Extension and Regeneration of the Larch Forest in the Mountain Steppe of North-West Mongolia	156
Werner Hilbig	
Forest Distribution and Retreat in the Forest Steppe Ecotone of Mongolia	171
Wu Ning	
Vegetation Pattern in Western Sichuan, China and Humankind's Impact on its Dynamics	188
Daniel Winkler	
Patterns of Forest Distribution and the Impact of Fire and Pastoralism in the Forest Region of Tibet	201
Sabine Miehe, Georg Miehe, Huang Jian, Otsu Tsewang, Tuntsu Tseren & Tu Yanli	
Sacred Forests of South-Central Xizang and their Importance for the Restauration of Forest Resources	228
Udo Schickhoff	
Persistence and Dynamics of Long-lived Forest Stands in the Karakorum under the Influence of Climate and Man	250

Markus Nüsser	
Recent Land Cover and Land Use Dynamics in the Nanga Parbat Area (NW Himalaya): Human-Ecological Landscape Monitoring Using Repeat Photography	265
Georg Miehe & Sabine Miehe	
Environmental Changes in the Pastures of Xizang	282
Thomas Peer	
The Highland Steppes of the Hindukush Range as Indicators of Centuries Old Pasture Farming	312
Alain Dubois	
The Influence of Man on the Distribution of Amphibians in the Himalayas of Nepal: An Example of Critical Evaluation of Biogeographical Data	326
Ravčigijn Samjaa, Ulrich Zöphel & Jens Peterson	
The Impact of the Vole <i>Microtus brandti</i> on Mongolian Steppe Ecosystems	346
Hermann Kreutzmann	
Animal Husbandry in High Asia. Yak-Keeping at the Upper Pastoral Limits	361
Egbert Pelinck	
Regional and International Collaboration on Research for Sustainable Development in the Hindukush-Himalayas	376
Authors' and Participants' Addresses	386
