

Contents

Sustainable approaches

- 1 **Evaluating integrated urban water systems alternatives for Brisbane, Australia**
G. Mitchell, S. Gray, B. Sipton, R. Woolley, J. Erbacher, G. Egerton and J. McKnolty
- 11 **A conceptual framework for the sustainable management of wastewater in Harare, Zimbabwe** I. Nhapi, H.J. Gijzen and M.A. Siebel
- 19 **Integrated urban water planning: big picture planning is good for the wallet and the environment** J. Anderson and R. Iyaduri
- 25 **Sustainable water cycle design for urban areas** M. Maher and T. Lustig
- 33 **Sustainability concept for a newly built urban area in Malmö, Sweden**
C. Gruvberger, H. Aspegren, B. Andersson and J. la Cour Jansen
- 41 **Aral Sea and sustainable development** R.M. Usmanova
- 49 **Hydraulics of sub-superficial flow constructed wetlands in semi arid climate conditions** E. Ranieri
- 57 **Water recycling: a major new initiative for Melbourne – crucial for a sustainable future** M. Arbon and M. Ireland
- 65 **Wastewater services for small communities** S. Gray and N. Booker
- 73 **Sustainable urban development in Brisbane City – the Holy Grail?** K. Rahman and T. Weber
- 81 **Integrated water resources management in the Ruhr River Basin, Germany** H. Bode, P. Evers and D.R. Albrecht
- 87 **Integrated water cycle planning for towns in New South Wales, Australia**
P. Schneider, A. Davison, A. Langdon, G. Freeman, C. Essery, R. Beatty and P. Toop

Quality and quantity assessment

- 95 **Bacterial source tracking and shellfish contamination in a coastal catchment**
P.M. Geary and C.M. Davies
- 101 **Climate change and reliability of urban water supply** S. Maheepala and C. Perera
- 109 **Integrated environmental assessment of tertiary and residuals treatment – LCA in the wastewater industry** P. Beavis and S. Lundie
- 117 **The effects of humic substances on the intake of micro-organic pollutants into the aquatic biota** J. Matsubara, J. Takahashi, K. Ikeda, Y. Shimizu and S. Matsui
- 125 **Periphyton collectors as a tool to measure environmental performance of ocean outlets** S. Lemmens
- 133 **Ordination and classification of macroinvertebrates and environmental data of a stream in Turkey** S. Girgin, N. Kazancı and M. Dügel

Water management case studies

- 141 **River basin management, described for the example of the Emschergerossenschaft**
H.-C. Baumgart, F. Sperling and J. Stemplewski
- 149 **Management strategies for a eutrophic water supply reservoir – San Roque, Argentina** J.P. Antenucci, R. Alexander, J.R. Romero and J. Imberger
- 157 **Use of active barriers to reduce eutrophication problems in urban lakes** B. Hart, S. Roberts, R. James, J. Taylor, D. Donnert and R. Furrer

- 165 **Potential impacts of global warming on water resources in southern California**
M. Beuhler
- 169 **Wastewater quality improvement through storage: a case study in Sicily**
S. Barbagallo, G. Luigi Cirelli, S. Consoli and F. Somma
- 177 **Baseline hydraulic performance of the Heathrow constructed wetlands subsurface flow system** K.M. Richter, J.R. Margetts, A.J. Saul, I. Guymer and P. Worrall

Catchment management

- 183 **Buffer distances for on-site sewage systems in Sydney's drinking water catchments**
K. Charles, D. Roser, N. Ashbolt, D. Deere and R. McGuinness
- 191 **An integrated water resources management approach for the River Spree and its catchment** F. Schlaeger, H. Schonlau, J. Köngeter
- 201 **Dryland salinity in Western Australia: managing a changing water cycle** R.J. Taylor and G. Hoxley
- 209 **Water quality management in the Kaoping River watershed, Taiwan** C.-M. Kao, K.-F. Chen, Y.-L. Liao and C.-W. Chen
- 217 **The Three Rivers Project – water quality monitoring and management systems in the Boyne, Liffey and Suir Catchments in Ireland** J.R. Earle

Diffuse pollution

- 227 **Evaluation of factors influencing diffusion of pollutant loads in urban highway runoff** M. Shinya, K. Tsuruho, T. Konishi and M. Ishikawa
- 233 **Assessment of sediment toxicity by metal speciation in different particle-size fractions of river sediment** J.G. Lin, S.Y. Chen and C.R. Su
- 243 **Effect of non-aqueous phase liquid on biodegradation of PAHs in spilled oil on tidal flat** T. Kose, A. Miyagishi, T. Mukai, K. Takimoto and M. Okada
- 251 **Emissions of heavy metals into river basins of Germany** U. Scherer, S. Fuchs, H. Behrendt and T. Hillenbrand
- 259 **Pollution potential of oil-contaminated soil on groundwater resources in Kuwait** P. Literathy, M. Quinn and M. Al-Rashed
- 267 **The PPL filtration treatment for highway runoff** S. Kimura, S. Matsui, Y. Simuzu, B.-C. Lee and M. Shinya
- 275 **Agricultural land use and N losses to water: the case study of a fluvial park in Northern Italy** F. Morari, E. Lugato and M. Borin
- 283 **Determination of faecal pollutants in Torrens and Patawalonga catchment waters in South Australia using faecal sterols** I. Suprihatin, H. Fallowfield, R. Bentham and N. Cromar
- 291 **Accounting for water quality effects of future urbanization: diffuse pollution loads estimates and control in Mantua's Lakes (Italy)** A.G. Capodaglio, A. Muraca and G. Becchi
- 299 **Effects of seasonal variation in precipitation on estimation of non-point source pollution** Y.-C. Lin and J.-J. Kao
- 305 **Strategic management of non-point source pollution from sewage sludge** S. Burke, L. Heathwaite, P. Quinn, S. Merrett, P. Whitehead, N. Preedy, D. Lerner and A. Saul

Urban drainage

- 311 **A comparative analysis: storm water pollution policy in California, USA and Victoria, Australia** X. Swamikannu, D. Radulescu, R. Young and R. Allison
- 319 **Estimation of urban runoff and water quality using remote sensing and artificial intelligence** S. R. Ha, S. Y. Park and D. H. Park

- 327 **Field monitoring and evaluation of innovative solutions for cleaning storm water runoff** S. Papiri, C. Ciaponi, A. Capodaglio, C. Collivignarelli, G. Bertanza, F. Swartling, M. Crow, M. Fantozzi and P. Valcher
- 335 **The vortex concentrator for suspended solids treatment** J. Lee, K. Bang, J. Choi, L.H. Ketchum Jr and Y. Cho

Sewer systems

- 343 **Changes in water quality parameters due to in-sewer processes** J. Boxall, W. Shepherd, I. Guymer and K. Fox
- 351 **Research of the flow procedures in a pressure sewer system** C. Dohse and H. Eckstädt
- 357 **Prevention of odour emergence in sewage networks** M. Barjenbruch
- 365 **Real time control of a combined sewer system using radar-measured precipitation – results of the pilot study** A. Petruck, E. Holtmeier, A. Redder and B. Teichgräber
