

CONTENTS

Preface	vii
Acknowledgments	xi
List of Contributors	xiii
Organizing Committee	xv
List of Participants	xvii
Effect of Biogeochemical, Hydrogeological, and Well Construction Factors on Riverbank Filtrate Quality	1
<i>Chittaranjan Ray</i>	
Hydrogeological Issues of Riverbank Filtration—A Review	17
<i>Eduard Hoehn</i>	
Organic Matter as the Driving Force in the Solubilization of Fe and Mn During Riverbank Filtration	43
<i>Alain C.M. Bourg, Monika A.M. Kedziorek and Dominique Darmendrail</i>	
Virus Removal by Soil Passage at Field Scale and Groundwater Protection	55
<i>Jack F. Schijven</i>	
Removal of <i>Cryptosporidium</i> Using Bank Filtration	85
<i>Philip Berger</i>	
Elimination of Microcystins by Slow Sand Filtration at the UBA Experimental Field	123
<i>Hartmut Bartel and Gesche Grützmacher</i>	
Experiences on the Fate of Organic Micropollutants During Riverbank Filtration	135
<i>Frank Sacher and Heinz-Jürgen Brauch</i>	
Public Health Aspects of Riverbank Filtration	153
<i>Rolf A. Deininger, Jiyoung Lee, Arvil Ancheta and Chak Somana</i>	
Groundwater Quality Processes After Bank Infiltration From the Danube at Čunovo	177
<i>Igor Mucha, Dalibor Rodák, Zoltán Hlavatý and L'Ubomir Banský</i>	
Use of Bank Filtration in Hungary	221
<i>Zsuzsa Homonnay</i>	

Laboratory and Field Studies of Pollutant Removal	229
<i>F. Laszlo and P. Literathy</i>	
Riverbank Filtration in Water Supply in Romania— Old Solutions, New Problems	235
<i>Vladimir Rojanschi, Luminita Mlenajek and Mariana Stanciulescu</i>	
Conclusions and Recommendations of the NATO Advanced Research Workshop: Contaminant Biogeochemistry and Pathogen Removal Efficiency	247
<i>Chittaranjan Ray</i>	
Index	251
