Introduction	I
I. The legal framework of the Human Fertilisation and Embryology Act	3
II. Resources, to fight and to enforce	3
III. The power of the media	4
IV. Politics	4
V. Ethics	4
The ongoing need for regulation	5
I. Reproductive Technologies and the Birth of the HFEA	7
Natural reproduction: what is 'supposed' to happen, and why does it go wrong?	11
<i>The process</i>	12
<i>When problems arise</i>	13
Artificial insemination (AI)	15
<i>In vitro</i> fertilization (IVF)	17
<i>Surplus embryos</i>	20
<i>Risks of IVF</i>	20
<i>Intracytoplasmic Sperm Injection (ICSI)</i>	21
Preimplantation genetic diagnosis (PGD) and preimplantation genetic screening (PGS)	22
Out of the freezer . . .	24
Cloning	25
<i>Therapeutic cloning and stem cell research</i>	28
2. Ethics, Embryos, and Infertility	29
Relief of infertility as a worthy goal	30
Ethics, law, and regulation	32
Respect for autonomy	34
Autonomy and safety	35
Autonomy and the public good	38

Autonomy and consent	39
Autonomy and privacy	42
Parental autonomy and harm to children	43
Health risks to children	44
Family setup and the welfare of the child	47
The non-identity problem	49
3. Saviour Siblings, Designer Babies, and Sex Selection	53
Preimplantation Genetic Diagnosis (PGD)	53
Positive selection	58
Screening for carriers	61
Sex selection	62
Saviour siblings	65
4. Fertility is a Feminist Issue	77
Equal interests in reproduction?	78
Egg freezing	81
The older mother	81
Risks associated with fertility treatment	87
Women's autonomy and fertility treatment	91
Future developments	95
<i>Artificial gametes</i>	95
<i>Artificial wombs</i>	97
5. Private Lives and Public Policy—The Story of Diane Blood	101
Consent	103
Does it matter what happens when we are irretrievably unconscious or dead?	104
Informed consent	106
Dignity	108
Is there a doctrine of 'best interests'?	109
Clinical and other interests	110
The spouse's testimony	112
Some further implications	117
Moral responsibility and the media	123
6. Human Rights and Reproduction	127
Prisoners and the right to reproduce	127
<i>The rights in question</i>	130
The extreme view: the right to reproductive choice	134
The right to privacy and family life: does it entail a right to reproduce?	135

Positive and negative rights	138
Rights and duties	138
The right to marry	140
Rights and regulation	141
The individual and society	142
A perverse incentive?	148
The downside of rights and European law	149
Rights and the precautionary principle	150
Homogeneity and national integrity	152
7. Deconstructing The Family	153
Donated gametes	155
Different views on anonymity	157
Babies with two mothers?	158
Surrogacy	159
Single parents: no need for a father ... or a mother?	165
Non-discrimination	172
The role of empirical data	174
Same sex parents	175
Changing values	177
8. Embryonic Stem Cells and Therapeutic Cloning	179
What are embryonic stem cells?	182
Foetal stem cells	186
Adult stem cells	187
Ethical concerns	188
Loss of potential	190
'Personhood' and special attributes	192
Social harms	194
Obtaining eggs	196
Do the benefits outweigh the harm?	198
Global concerns	199
Broadening the scope	200
Legal challenges	201
Other ways of obtaining stem cells	203
<i>Single cell biopsy</i>	203
<i>Dead embryos</i>	204
<i>Parthenogenesis</i>	204
The role of the HFEA	206
National differences in legislation/regulation	206
<i>A. Germany</i>	206

<i>B. Italy</i>	209
<i>C. The USA</i>	209
<i>How do the various approaches compare?</i>	211
Afterword	215
<i>Notes</i>	217
<i>Index</i>	231
