# Contents

| | | |
|---|---|---|
| List of Tables | | vii |
| Introduction | | ix |
| Chapter 1. | Classification of Explosives | 1 |
| Chapter 2. | Chemical Methods | 29 |
| | 1. Nitroaromatic Compounds | 30 |
| | 2. Nitrate Esters and Nitramines | 37 |
| Chapter 3. | Column Chromatography (Classical Liquid Chromatography) | 47 |
| Chapter 4. | Paper Chromatography | 55 |
| Chapter 5. | Thin Layer Chromatography (TLC) | 59 |
| | 1. TLC of High Explosives | 61 |
| | 2. TLC in Forensic Identification of Explosives Residues | 72 |
| | 3. TLC of Propellants | 78 |
| Chapter 6. | Gas Chromatography (GC) | 86 |
| | 1. High Explosives | 89 |
| | 2. Propellants | 101 |
| Chapter 7. | High-Performance Liquid Chromatography (HPLC) | 108 |
| | 1. High Explosives | 111 |
| | 2. Propellants | 118 |
| Chapter 8. | Polarography | 122 |
| Chapter 9. | Thermal Analysis | 133 |

Chapter 10. Ultraviolet and Visible Spectroscopy 141

Chapter 11. Infrared Spectroscopy 154

Chapter 12. Magnetic Resonance Methods 167

1. Nuclear Magnetic Resonance (NMR) 167

2. Electron Spin Resonance (ESR) 174

Chapter 13. Mass Spectrometry 178

1. Electron Impact Mass Spectrometry 180

2. Chemical Ionization Mass Spectrometry 192

3. Negative Ion Mass Spectrometry 201

4. Field Ionization and Field Desorption Mass Spectrometry 206

5. Plasma Chromatography and Atmospheric Pressure Ionization Mass Spectrometry 209

Chapter 14. Detection and Identification of Residues 216

1. Post Explosion Residues 216

2. Explosive Residues on Suspects 232

3. Gunshot Residues 237

4. Tagging of Explosives for Identification 238

Chapter 15. Detection of Hidden Explosives 241

1. Methods Based on the Detection of Explosive Vapor ("Sniffing") 242

2. Methods Based on Bulk Detection 259

3. Tagging of Explosives for Detection 263
