CONTENTS

Preface ix

I. Paleoenvironments

Primary and secondary controls on carbon-isotopic compositions of sedimentary organic matter
R. TAKIGIKU, B.N. POPP, M.W. JOHNSON, J.M. HAYES, P. ALBRECHT, H.J. CALLOT and R. OCAMPO 3

Amber and the direct observation of paleomicrobiota
A. NISSENBAUM 15

IIa. Natural and Xenobiotic Organic Indicators: Natural Compounds in Different Environments

Microbial transformation of fecal pellet lipids during sedimentation
H.R. HARVEY, G. EGLINTON, S.C.M. O'HARA and E.D.S. CORNER 25

Application of hydrocarbon biochemical markers to the study of particulate matter in a high turbidity estuary
P. SCRIBE, A. BAROUXIS, J. TRONCZYNSKI and A. SALIOT 37

Biogeochemical changes in lipids in a model marine food chain
S.A. BRADSHAW, G. EGLINTON, S.C.M. O'HARA and E.D.S. CORNER 49

Biomarkers in the bituminous fraction of a Spanish brown coal
J.C. DEL RIO, F.J. GONZALEZ-VILA and F. MARTIN 59

Geolipid content of sediments from an isolated lake: Evidence for diagenetic alteration of source indicators
E.S. HO, P.A. MEYERS and S. PETTINGILL 67

Preliminary study of extractable organic matter in aerosols from Beijing and Guiyang, China
SHENG GUOYING, FU JIAMO, ZHANG JIAN, ZU YUPING and B.R.T. SIMONEIT . . . 77

IIb. Natural and Xenobiotic Organic Indicators: Xenobiotic Compounds in Soils

Microbial transformation of the herbicide metolachlor
J.M. BOLLAG and S.Y. LUI 89

Biomineralization and long-term fate of ^{14}C-labelled organic xenobiotic compounds in soil
I. SCHEUNERT 97

Contribution to the study of non-extractable pesticide residues in soils: Incorporation of atrazine in model humic acids prepared from catechol
G. BERTIN, M. SCHIAVON, F. ANDREUX and J.M. PORTAL 105

III. Organic Matter and Carbon Cycle in Recent Sediments

Transfer and biogeochemistry of organic matter at the sediment–water interface on the Northwestern Mediterranean margin
R. BUSCAIL and F. GADEL 113

Budget of organic matter and behaviour of phenolic compounds in a Mediterranean lagunal ecosystem
B. CHARRIERE, G. GADEL and L. SERVE 131
Biogeochemistry of organic matter at the fresh water/sea water interface in the Rhône Delta, Mediterranean Sea, France
V. DENANT and A. SALIOT 145
Behaviour of dissolved organic matter in pore waters of near-shore marine sediments
J. FAGANELI and G.J. HERNDL 157
Evolution of organic matter diagenesis at water–sediment interface off-shore from the Mahakam Delta, Indonesia
M.N. HERMIN and S. CASTANIER 171
Giant marine amorphous aggregations in the Northern Adriatic Sea
P. PEDUZZI and G.J. HERNDL 185

IV. Deep Reservoirs and Extreme Environments

Biodegradation of crude oils
K. BOSECKER, M. TESCHNER and H. WEHNER 195
The role of microbiology in the geological containment of radioactive wastes
J.M. WEST, H.A. GROGAN and I.G. McKINLEY 205
MnO_2 reduction by marine Mn^{2+} oxidizing bacteria from around hydrothermal vents at a Mid-Ocean spreading center and from the Black Sea
H.L. EHRLICH, L.A. GRAHAM and J.C. SALERNO 217
Diversity of microbial life in highly acidic, mesophilic environments
D.B. JOHNSON 225
Cometabolic transformation of O-xylene in groundwater
C. JØRGENSEN and J. AAMAND 239
The microbiology of high pH springwaters of Northern Oman with reference to waste disposal
N. CHRISTOFI and J.C. PHILP 245

V. Sulfur and Nitrogen Oxido-Reduction Processes

Survival of sulphate-reducing bacteria in oxic layers of paddy soils
C. FURUSAKA, Y. NAGATSUKA and H. ISHIKURI 259
Enzymatic mechanisms in the "dehydrogenation" of ferrous ions by *Thiobacillus ferrooxidans*
T. YAMANAKA, Y. FUKUMORI, T. YANO, M. KAI and A. SATO 267
The role of certain infauna and vascular plants in the mediation of redox reactions in marine sediments
M.E. HINES 275
Ecological conditions and physiological mechanism of N_2O-formation by nitrite by *Fusarium solani*
P. MALINOWSKY and J.C.G. OTTOW 287

Dissimilative nitrate reduction to ammonium in different soils in waterlogged conditions
E. FAZZOLARI CORREA and J.C. GERMON 295
Nitrous oxide emission from soil as determined by the composition of denitrifying microbial population
J.C. MUNCH 309

VI. Weathering and Formation of Minerals
Bacteria as nucleation sites for authigenic minerals
F.G. FERRIS, W.S. FYFE and T.J. BEVERIDGE 319
Siliceous crusts, quartz rinds and biotic weathering of sandstones in the cold desert of Antarctica
R. WEED and S.A. NORTON 327
Differences in decomposition of carbonate and silicate minerals as influenced by humic acid
K.H. TAN 341
Freshwater calcitic and manganic algal crusts from the "Plaine Lorraine" (Eastern Paris Basin)
J. ALLOUC, J.F. PIERRE and B. GUILLET 349
The *in situ* weathering of a test mineral (vermiculite) introduced in a podzol (haplaquod) and in a hydromorphic soil (haplaquept) compared to the soil clay minerals evolution
D. RIGHI, J. RANGER, M. ROBERT, C. FELIX and P. BONNAUD 361
Nitrification related to acidification and silicate weathering
G. SIMON-SYLVESTRE, M. ROBERT, G. VENEAU and A. BEAUMONT 371

VII. Soil Functioning Processes
Regulation of the formation and degradation of humic substances in soil
K. HAIDER 381
Carbon dioxide and climate: Climatic impact of soil-borne CO_2
H.G. BERTRAM 391
Changes in organic matter in an oxisol from the Central Amazonian Forest during eight years as pasture, determined by ^{13}C isotopic composition
T. CHONE, F. ANDREUX, J.C. CORREA, B. VOLKOFF and C.C. CERRI 397
The dynamics of organic matter in a latosol–podzol toposequence in Amazonia (Brasil)
S. BRAVARD and D. RIGHI 407
Effect of plants on nitrogen and carbon turnover in soil
K. HAIDER, A. MOSIER and O. HEINEMEYER 419
Effect of metals on the biodegradation of root exudates by a rhizosphere microbiota
J.L. MOREL, M. CHAVANON, M. SAGNARD, J. BERTHELIN and A. GUCKERT 427
Differences induced in the soil organic matter characteristics and microbial activity by various management practices in long term field experiments
S. HOUOT, R. CHAUSSOD, C. HOUNEMENOU, E. BARRIUSO and S. BOURGEOIS . . 435

Impact of an oil spill on microbial activities in a Danish saltmarsh
H.-J. ALBRECHTSEN 445
Iron sulphide accumulation in the rhizosphere of wetland rice (*Oryza sativa* L.) as the result of sequential microbial activities
V.A. JACQ, K. PRADE and J.C.G. OTTOW 453
Nitrogen transformations in irradiated soil as determined by ^{15}N dilution isotopic technique
R. CASTET and G. GUIRAUD 469
Evolution of the mineral composition of the leaves and branches in three forest ecosystems of the "Sierra de Bejar" Mountain
J.F. GALLARDO, I. SANTA REGINA, M.I.N. GONZALEZ and J.A. EGIDO 477
Influence of mineral nutrients redistribution in Eucalyptus plantations on soil properties
M.A.V. MADEIRA 485
Comparative physico-chemical analyses of soil-feeding *Thoracotermes macrothorax* and fungus-growing *Macrotermes mülleri* termite mounds
E. GARNIER SILLAM 495
Spatial patterns of soil composition around isolated trees
A. ESCUDERO, M.M. HERNANDEZ and J.M. DEL ARCO 507
An *in situ* experimental study of forest soil functioning using the mineral bag technique
J. RANGER, M. ROBERT, C. NYS and C. BLET-CHARAUDEAU 519

Acknowledgements 537
