Summary	xi
Poverty and wealth	xi
Overall results up to 2000	xii
Spatial patterns and polarisation	xiii
Since 2000	xiii
Conclusions	xiv

1 Background	1
A history of the geography of poverty	1
Recent poverty research	2
Wealth and affluence	3

2 Methods	7
Time periods and data sources	7
Geography	8

3 The measures: breadline poor, core poor, asset wealthy and exclusive wealthy	9
Poverty	10
Wealth	12

4 National totals and trends	16
-------------------------------------	-----------

5 National maps and geographical changes over time	18
Poverty	18
Wealth	22
Non-poor, non-wealthy	25

6 Polarisation and spatial concentration	28
Polarisation	28
Spatial clustering	36
Segregation	46

7 Local issues	48
Locally sensitive poverty measures?	48
Local case studies	49

8	What has happened since 2000?	65

List of tables, figures and maps

Tables

1	Trends in the distribution of marketable wealth (assets owned that could be sold, that is, excluding occupational pensions that cannot be 'cashed in')	4
2	The distribution of wealth from Wolff's study of the US (1998), 1983-95	6
3	Time periods and datasets	7
4	An example of estimating breadline poor in a hypothetical census area	11
5	Inheritance Tax thresholds and proportions of wealth held in housing used to derive asset wealth thresholds	13
6	An example of estimating exclusive wealthy households	14
7	Housing wealth thresholds used to define exclusive wealthy households using the asset wealthy method	15
8	Poor and wealthy households in Britain (1970-2000)	16
9	Distribution of contemporary population across tracts categorised by breadline poverty density (% poor households in each tract), for each time period, the change over each decade, and the change 1970-2000	29
10	Distribution of contemporary population across tracts categorised by asset wealth density (% asset wealthy households in each tract), for each time period, the change over each decade, and the change 1980-2000	34
11	Global Moran's I statistics for breadline poor and core poor measures	37
12	High and low breadline poverty clusters occurring at every time period	41
13	Moran's I statistics for asset wealth and exclusive wealth measures	43
14	The Index of Dissimilarity for each measure at each time period	46
15	The association between each poverty index and constituent census variables (correlation coefficients calculated separately for tracts in London and those in the rest of Britain)	49
16	Thresholds used for estimation of asset wealthy households (2002 and 2003)	76
A1	Census weightings used to calculate breadline and core poor measures for each time period	93
A2	Family Expenditure Survey wealth model sample sizes (1970-2000)	97
A3	Income and expenditure thresholds (£) and frequencies (%) for Family Expenditure Survey exclusive wealth (1971-2001)	100
A4	Family Expenditure Survey exclusive wealthy: univariate and multivariate analyses and census weights	101

Figures

i	Distribution of all households (2000)	xi
ii	Overall percentages of households in the core poor, breadline poor, asset wealthy and exclusive wealthy groups (1970-2000)	xii
1	Change in % of households in breadline poor and core poor poverty from 1970-2000	17
2	Change in % of asset wealthy and exclusive wealthy households from 1970/80-2000	17
3	Change in breadline poverty and core poverty levels by tract for each decade (1970-2000)	21
4	Change in asset wealthy and exclusive wealthy household percentages by tract (1980-2000)	26
5	Spatial polarisation of the population by tract breadline poverty density during the 1970s, 1980s and 1990s	30
6	Spatial polarisation of the population by tract breadline poverty density across the study period (1970-2000)	31
7	Change in population of tracts by 1970 breadline poverty decile from 1971-2001	32
8	Spatial polarisation of the population by tract asset wealthy density during the 1980s and 1990s	35
9	Spatial polarisation of the population by tract asset wealthy density (1980-2000)	36
10	Change in population of tracts by 1980 asset wealthy decile from 1981-2001	36
11	Number of tracts in each of the four LISA categories for both breadline poverty and core poverty (1970-2000)	42
12	Dissimilarity indices for each of the five measures across all tracts in Britain across the study period	47
13	Scatter plot of constituency average income (2003) against absolute (£) and relative (%) change in income (2003-05)	67
14	Change in constituency average income (2003-05) by breadline poverty decile (2000)	69
15	Change in HE participation rates between 1997/2001 and 2001/05 exit cohorts, by decile of participation rate for both cohorts combined	71
16	Change in HE participation rates between 1997/2001 and 2001/05 cohorts, by decile of percentage of poor households (2001)	71
17	Absolute and proportional change in tract JSA claimant percentages (2000-05), by JSA claimant % decile for 2000/05	74
18	Absolute and proportional change in tract JSA claimant percentages (2000-05), by breadline poverty decile (2000)	75
19	Change in % of asset wealthy households from 1983-2003	77
20	Percentage point and proportional change in asset wealthy households from 1999-2005	78
21	Spatial polarisation of the population by tract asset wealthy density (1999-2003)	80
22	Absolute and proportional change in tract IB claimant percentages (2000-05), by IB claimant % decile	82
23	Absolute and proportional change in tract IB claimant percentages (2000-05), by breadline poverty decile (2000)	83
A1	Histograms of 1980 exclusive wealthy percentages across all tracts using both methods	102
A2	The wealth measures, including exclusive wealthy, from the alternative (Family Expenditure Survey/census) method	103
A3	Associations between asset and exclusive wealthy and the % of households owning shares in private companies, and total shareholdings value, by tract	104
A4	Associations between asset and exclusive wealthy and luxury car share, by tract	105
A5	Results of HEFCE analysis of HE young participation rates: absolute change since 1994	106
A6	Results of HEFCE analysis of HE young participation rates: relative change since 1994	107

Maps

1	The changing geography of breadline poverty (1970-2000)	19
2	The changing geography of core poverty (1970-2000)	20
3	The changing geography of asset wealthy households (1980-2000)	23
4	The changing geography of exclusive wealthy households (1980-2000)	24
5	Percentage of households classified as neither wealthy nor poor (1980-2000)	27
6	LISA for the % of households classified as breadline poor at each time period	38
7	LISA for the % of households classified as core poor at each time period	39
8	LISA for the % of households classified as asset wealthy at each time period	44
9	LISA for the % of households classified as exclusive wealthy at each time period	45
10	Breadline poor households across the Glasgow area (1970-2000)	51
11	Asset wealthy households across the Glasgow area (1980-2000)	52
12	Breadline poor households across the Yorkshire area (1970-2000)	53
13	Asset wealthy households across the Yorkshire area (1980-2000)	54
14	Breadline poor households across the Liverpool/Manchester area (1970-2000)	55
15	Asset wealthy households across the Liverpool/Manchester area (1980-2000)	56
16	Breadline poor households across the West Midlands conurbation (1970-2000)	57
17	Asset wealthy households across the West Midlands conurbation (1980-2000)	58
18	Breadline poor households across South Wales (1970-2000)	59
19	Asset wealthy households across South Wales (1980-2000)	60
20	Breadline poor households across London (1970-2000)	61
21	Asset wealthy households across London (1980-2000)	62
22	Breadline poor households across the Home Counties (including London) (1970-2000)	63
23	Asset wealthy households across the Home Counties (including London) (1980-2000)	64
24	Average income to bank accounts by parliamentary constituency (2005)	66
25	Change in average income to bank accounts by parliamentary constituency from 2003-05	66
26	Spatial concentration analysis of the change in income between 2003 and 2005 for parliamentary constituencies	68
27	Higher Education participation (1997-2001 exit cohort)	70
28	Geographical distribution of JSA claimants (August 2000)	72
29	Geographical distribution of change in JSA claimants (2000-05)	73
30	Spatial concentration analysis of the change in % of the working-age population claiming JSA (2000-05)	76
31	Percentage of asset wealthy households (2003), based on housing wealth data	77
32	Change in % of asset wealthy households between 1999 and 2003	78
33	Spatial concentration analysis of the change in asset wealthy households % between 1999 and 2003	79
34	Geographical distribution of IB claimants (August 2000)	81
35	Geographical distribution of change in IB claimants (2000-05)	81
36	Spatial concentration analysis of the change in % of the working-age population claiming IB (2000-05)	83
A1	Change in breadline poverty rates over time	108
A2	Change in core poverty rates over time	109
A3	Change in asset wealthy % over time	110
A4	Change in exclusive wealthy % over time	111
