Preface	xi

Section 1: Cognition and the brain: measurement, tools, and interpretation

1	Introduction	3
	Christina A. Meyers and James R. Perry	
2	Clinical neuropsychology	6
	Jill B. Rich and Angela K. Troyer	
3	Brain imaging investigation of chemotherapy-induced neurocognitive changes	19
	Brenna C. McDonald, Andrew J. Saykin, and Tim A. Ahles	
4	Role of neuropsychological assessment in cancer patients	33
	Elana Farace	
5	Neuropsychological assessment of adults with cancer	44
	Anne E. Kayl, Robert Collins, and Jeffrey S. Wefel	
6	Neuropsychological assessment of children with cancer	56
	Louise Penkman Fennell and Robert W. Butler	

Section 2: Effects of cancer and cancer treatment on cognition

7	Biological bases of radiation injury to the brain	83
	Edward G. Shaw and Mike E. Robbins	
8	Cognitive dysfunction related to chemotherapy and biological response modifiers	97
	Jeffrey S. Wefel, Robert Collins, and Anne E. Kayl	
9	Effect of hormones and hormonal treatment on cognition	115
	Christien Schilder, Sanne Schagen, and Frits van Dam	
10	Low-grade gliomas	142
	Martin J. B. Taphoorn and Charles G. Niël	
11	High-grade gliomas	156
	Michael J. Glantz and John W. Conlee	
12	Brain metastases	170
	Deepak Khuntia, Beela S. Mathew, Christina A. Meyers, Sterling Johnson, and Minesh P. Mehta	
13	Primary central nervous system lymphoma	187
	Denise D. Correa	
14	Childhood brain tumors	198
	H. Stacy Nicholson, Louise Penkman Fennell, and Robert W. Butler	
15	Neurofibromatosis	211
	Bartlett D. Moore, III and John M. Slopis	
16	Hematological malignancies	228
	Melissa Friedman and Mercedes Fernandez	

17	Paraneoplastic disorders Edward Dropcho	239
18	Symptomatic therapies and supportive care issues Alan Valentine and Eduardo Bruera	258
19	Animal models and cancer-related symptoms Adrian Dunn	270

Section 3: Interventions and implications for clinical trials

20	Behavioral strategies and rehabilitation Dona E. C. Locke, Jane H. Cerhan, and James F. Malec	281
21	Support services Bebe Guill and Renee H. Raynor	295
22	Pharmacological interventions for the treatment of radiation-induced brain injury Edward G. Shaw, Jerome Butler, L. Douglas Case, Ralph d'Agostino, Jr., John Gleason, Jr., Edward Ip, Mike E. Robbins, Paul Saconn, and Stephen R. Rapp	312
23	Neurocognitive testing in clinical trials Jennifer A. Smith and Jeffrey S. Wefel	320
	Index	329
