

Contents

List of Figures	ix
List of Tables	xi
Chapter 1. Introduction	3
Chapter 2. Foundations	19
1. General Properties of Space	19
2. The Spatial Weighting Matrix	20
3. Spatial Processes	31
Chapter 3. Why not Ignore the Problem?	39
1. Biased Estimation	40
2. Efficiency and Inference	44
3. Spatial Processes and Heteroskedasticity	46
Chapter 4. Testing for Spatial Processes	53
1. Presentation of the Test Statistics	53
2. Empirical Evidence from the Literature	65
3. Monte Carlo Evidence	70
Chapter 5. Estimating Spatial Processes	79
1. Presentation of the Estimators	80
2. Empirical Evidence from the Literature	92
3. Monte Carlo Evidence	95
Chapter 6. Application: Spatial Aspects of German Start-up Activity	101
1. Theory and Motivation	101
2. Data, Methodology and Testable Theses	105
3. Results	109
Chapter 7. Further Aspects and Research Topics	115

Bibliography	123
Appendix A. Design of the Monte Carlo Studies	133
1. Purpose	133
2. General Design	133
3. Regular Grids	134
4. Actually Existing Spatial Structures	135
5. Presentation of results	137
Appendix B. Monte Carlo Results	139
1. Tables and Figures Chapter 3	139
2. Tables and Figures Chapter 4	146
3. Tables and Figures Chapter 5	160
Appendix C. Mathematical Appendix	169
1. Mathematical Appendix Chapter 2	169
2. Mathematical Appendix Chapter 3	171
3. Mathematical Appendix Chapter 4	177
4. Mathematical Appendix Chapter 5	184
Appendix D. List of Symbols	189

List of Figures

1	Slope Parameter Estimation Neglecting a Spatial Lag	142
2	Slope Parameter Estimation Neglecting a Spatial AR	142
3	Slope Parameter Estimation Neglecting a Spatial MA	143
4	Error Term Variance Estimation Neglecting a Spatial Lag	143
5	Error Term Variance Estimation Neglecting a Spatial AR	144
6	Error Term Variance Estimation Neglecting a Spatial MA	144
7	Empirical distribution of KR93-estimates of ρ , I	162
8	Empirical distribution of KR93-estimates of ρ , II	162
9	Empirical distribution of ρ -estimates, KR93 vs. ML estimates	163
10	Empirical distribution of KP99-estimates of λ , I	167
11	Empirical distribution of KP99-estimates of λ , II	167
12	Empirical distribution of λ -estimates, KP99 vs ML	168

List of Tables

1	Descriptive statistics	107
2	Estimation of Persons' Start-ups	110
3	Estimation of Start-ups in the Services Sector	112
1	Biased Estimation when Ignoring Spatial Dependence in X_W	139
2	Biased Estimation when Ignoring a Spatial Lag, I	140
3	Biased Estimation when Ignoring a Spatial Lag, II	141
4	Tests for Heteroskedasticity when Ignoring a Spatial Lag	145
5	Tests for Heteroskedasticity when Ignoring a Spatial AR process	145
6	Type-I-Errors of spatial tests in dependence of n	146
7	Coincidence of Type-I-Errors made by spatial tests in dependence of n	147
8	Type-I-Errors of spatial tests in dependence of n	148
9	Performance of spatial tests in dependence of ρ	149
10	Infering on the true process in dependence of ρ	150
11	Performance of spatial tests in dependence of λ	151
12	Infering on the true process in dependence of λ	152
13	Performance of spatial tests in dependence of θ	153
14	Performance of spatial tests in dependence of n	154
15	Performance of spatial tests in dependence of n	155
16	Type-I-Errors of spatial tests for different Italian SWM's	156

17	Performance of spatial tests for different Italian SWM's	157
18	Type-I-Errors of spatial tests for different German SWM's	158
19	Performance of spatial tests for different German SWM's	159
20	Estimates of ρ if no Spatial Lag is present	160
21	Estimation of a Spatial Lag with KR93	161
22	Estimation of a Spatial Lag: KR93 vs ML	163
23	Standard Errors of KR-93 estimates of ρ	164
24	RELSE concerning ρ for KR-93 estimations	164
25	Estimates of λ if no Spatial AR is present	165
26	Estimation of a Spatial AR with KP99	166
27	Estimation of a Spatial AR: KP99 vs ML	168
