

## CONTENTS

|   |    |
|---|----|
| <b>Preface</b>  | V  |
| <b>Chapter 1. Introduction</b>  | 1  |
| <b>FORMAT AND SCOPE OF BOOK</b>   | 5  |
| Name and description  | 5  |
| Occurrence and origin   | 7  |
| Preservation of structures  | 14 |
| References and illustrations  | 16 |
| <b>Chapter 2. Erosional structures</b>  | 17 |
| <b>SCOUR HOLE (cut-and-fill, scour-and-fill, wash-out, ripple scour, toroid, obstacle mark)</b>                           | 18 |
| Description   | 18 |
| Occurrence  | 18 |
| Origin  | 18 |
| Preservation and occurrence in sedimentary rocks  | 22 |
| Other occurrences   | 23 |
| Significance  | 23 |
| Selected references   | 23 |
| <b>CRESCENT SCOUR (current crescent, crescentic scour mark, crescent cast, horse-shoe flute cast, wash-over crescent)</b> | 23 |
| Description   | 23 |
| Occurrence  | 24 |
| Origin  | 24 |
| Preservation and occurrence in sedimentary rocks  | 27 |
| Other occurrences   | 27 |
| Significance  | 27 |
| Selected references   | 27 |
| <b>TOOL MARK (prod, drag, bounce, hrush, slide mark)</b>  | 27 |
| Description   | 27 |
| Occurrence  | 28 |
| Origin  | 28 |
| Preservation and occurrence in sedimentary rocks  | 28 |
| Other occurrences   | 29 |
| Significance  | 29 |
| Selected reference  | 29 |
| <b>GROOVE (current mark, erosion groove, current erosional mark, longitudinal rectilinear groove)</b>                     | 30 |
| Description   | 30 |
| Occurrence  | 30 |
| Origin  | 30 |
| Preservation and occurrence in sedimentary rocks  | 32 |
| Other occurrences   | 32 |
| Significance  | 32 |
| Selected references   | 33 |
| <b>RILL (channel, 2nd- and 3rd-order channel)</b>   | 33 |
| Description   | 33 |
| Occurrence  | 33 |

|   |    |
|---|----|
| Origin . . . . .  | 33 |
| Preservation and occurrence in sedimentary rocks . . . . .  | 35 |
| Other occurrences . . . . .   | 36 |
| Significance . . . . .  | 36 |
| Selected reference . . . . .  | 37 |
| <b>INCIPIENT RIB-AND-FURROW (current break-through)</b> . . . . .   | 37 |
| Description . . . . .   | 37 |
| Occurrence . . . . .  | 37 |
| Origin . . . . .  | 37 |
| Preservation and occurrence in sedimentary rocks . . . . .  | 38 |
| Other occurrences . . . . .   | 38 |
| Significance . . . . .  | 39 |
| <b>MICRO-TERRACE (water-level mark)</b> . . . . .   | 39 |
| Description . . . . .   | 39 |
| Occurrence . . . . .  | 39 |
| Origin . . . . .  | 39 |
| Preservation and occurrence in sedimentary rocks . . . . .  | 41 |
| Other occurrences . . . . .   | 41 |
| Significance . . . . .  | 41 |
| Selected references . . . . .   | 41 |
| <b>FLUTED STEPS</b> . . . . .   | 43 |
| Description . . . . .   | 43 |
| Occurrence . . . . .  | 43 |
| Origin . . . . .  | 43 |
| Preservation and occurrence in sedimentary rocks . . . . .  | 44 |
| Other occurrences . . . . .   | 44 |
| Significance . . . . .  | 44 |
| Selected references . . . . .   | 44 |
| <b>DENDRITIC MARKS (<i>Dendrophycus</i>, dendritic surge marks)</b> . . . . .   | 44 |
| Description . . . . .   | 44 |
| Occurrence . . . . .  | 45 |
| Origin . . . . .  | 45 |
| Preservation and occurrence in sedimentary rocks . . . . .  | 45 |
| Other occurrences . . . . .   | 47 |
| Significance . . . . .  | 48 |
| Selected reference . . . . .  | 48 |
| <b>ARMORED MUD BALLS (clay ball, pudding ball, mud pebble, mud ball)</b> . . . . .  | 49 |
| Description . . . . .   | 49 |
| Occurrence . . . . .  | 49 |
| Origin . . . . .  | 50 |
| Preservation and occurrence in sedimentary rocks . . . . .  | 51 |
| Other occurrences . . . . .   | 51 |
| Significance . . . . .  | 51 |
| Selected references . . . . .   | 51 |
| <b>Chapter 3. Structures formed during transportation and deposition</b> . . . . .  | 53 |
| <b>CUSPATE RIPPLE MARK (current ripple mark, asymmetrical ripple mark, current mark, linguoid ripple mark, cusp ripple mark, normal ripple mark, sand wave, transverse ripple mark, crescentic ripple mark, lunate ripple mark, dune)</b> . . . . . | 54 |

|   |    |
|---|----|
| Description . . . . .   | 54 |
| Occurrence . . . . .  | 57 |
| Origin . . . . .  | 57 |
| Preservation and occurrence in sedimentary rocks . . . . .  | 59 |
| Other occurrences . . . . .   | 59 |
| Significance . . . . .  | 59 |
| Selected references . . . . .   | 60 |
| SINUOUS RIPPLE MARK (current ripple, sand wave) . . . . .   | 60 |
| Description . . . . .   | 60 |
| Occurrence . . . . .  | 60 |
| Origin . . . . .  | 60 |
| Preservation and occurrence in sedimentary rocks . . . . .  | 64 |
| Other occurrences . . . . .   | 64 |
| Significance . . . . .  | 64 |
| Selected references . . . . .   | 64 |
| LINEAR ASYMMETRIC RIPPLE MARK (wave ripple mark, parallel ripple mark,<br>rectilinear ripple mark, combined-flow ripples) . . . . . | 64 |
| Description . . . . .   | 64 |
| Occurrence . . . . .  | 65 |
| Origin . . . . .  | 65 |
| Preservation and occurrence in sedimentary rocks . . . . .  | 67 |
| Other occurrences . . . . .   | 67 |
| Significance . . . . .  | 67 |
| Selected references . . . . .   | 67 |
| SECONDARY RIPPLE MARK . . . . .   | 68 |
| Description . . . . .   | 68 |
| Occurrence . . . . .  | 71 |
| Origin . . . . .  | 71 |
| Preservation and occurrence in sedimentary rocks . . . . .  | 71 |
| Other occurrences . . . . .   | 71 |
| Significance . . . . .  | 71 |
| Selected references . . . . .   | 72 |
| EOLIAN RIPPLE MARK . . . . .  | 72 |
| Description . . . . .   | 72 |
| Occurrence . . . . .  | 72 |
| Origin . . . . .  | 72 |
| Preservation and occurrence in sedimentary rocks . . . . .  | 73 |
| Other occurrences . . . . .   | 73 |
| Significance . . . . .  | 75 |
| Selected references . . . . .   | 75 |
| LAG RIPPLE MARK (new structure) . . . . .   | 76 |
| Description . . . . .   | 76 |
| Occurrence . . . . .  | 76 |
| Origin . . . . .  | 76 |
| Preservation and occurrence in sedimentary rocks . . . . .  | 76 |
| Other occurrences . . . . .   | 77 |
| Significance . . . . .  | 77 |
| LONGITUDINAL RIPPLE MARK (sand shadow, window ridge) . . . . .  | 77 |
| Description . . . . .   | 77 |

|  |           |
|--|-----------|
| Occurrence . . . . .   | 77        |
| Origin . . . . .   | 78        |
| Preservation and occurrence in sedimentary rocks . . . . .   | 78        |
| Other occurrences . . . . .  | 79        |
| Significance . . . . .   | 79        |
| Selected reference . . . . .   | 79        |
| <b>SIMPLE INTERFERENCE RIPPLE MARK: MULTIPLE SECONDARY, CHEVRON, RHOMBOID RIPPLE PATTERNS . . . . .</b>  | <b>79</b> |
| Description . . . . .  | 79        |
| Occurrence . . . . .   | 81        |
| Origin . . . . .   | 82        |
| Preservation and occurrence in sedimentary rocks . . . . .   | 82        |
| Other occurrences . . . . .  | 82        |
| Significance . . . . .   | 83        |
| Selected references . . . . .  | 83        |
| <b>COMPLEX INTERFERENCE RIPPLE MARK: LINEAR ASYMMETRIC AND SECONDARY, CUSPATE AND SECONDARY (compound ripple mark, cross-ripple, dimpled current mark, tadpole nest) . . . . .</b> | <b>84</b> |
| Description . . . . .  | 84        |
| Occurrence . . . . .   | 86        |
| Origin . . . . .   | 86        |
| Preservation and occurrence in sedimentary rocks . . . . .   | 88        |
| Other occurrences . . . . .  | 88        |
| Significance . . . . .   | 88        |
| Selected references . . . . .  | 88        |
| <b>STREAMING LINEATION (sand streak, parting lineation, primary current lineation, parting plane lineation, harrow mark, graination) . . . . .</b>                                 | <b>89</b> |
| Description . . . . .  | 89        |
| Occurrence . . . . .   | 89        |
| Origin . . . . .   | 89        |
| Preservation and occurrence in sedimentary rocks . . . . .   | 91        |
| Other occurrences . . . . .  | 92        |
| Significance . . . . .   | 93        |
| Selected references . . . . .  | 93        |
| <b>PARTING LINEATION (primary current lineation, current lineation, current parting, parting step lineation) . . . . .</b>   | <b>93</b> |
| Description . . . . .  | 93        |
| Occurrence . . . . .   | 93        |
| Origin . . . . .   | 96        |
| Preservation and occurrence in sedimentary rocks . . . . .   | 97        |
| Other occurrences . . . . .  | 97        |
| Significance . . . . .   | 98        |
| Selected references . . . . .  | 98        |
| <b>IMBRICATION (edgewise structure, shingle structure) . . . . .</b>   | <b>98</b> |
| Description . . . . .  | 98        |
| Occurrence . . . . .   | 98        |
| Origin . . . . .   | 99        |
| Preservation and occurrence in sedimentary rocks . . . . .   | 100       |
| Other occurrences . . . . .  | 100       |

|   |            |
|---|------------|
| Significance . . . . .  | 100        |
| Selected references . . . . .   | 101        |
| <b>Chapter 4. Post-depositional structures . . . . .</b>  | <b>103</b> |
| <b>POLYGONAL-SHRINKAGE CRACK (mud crack, desiccation crack, sun crack) . . .</b>  | <b>104</b> |
| Description . . . . .   | 104        |
| Occurrence . . . . .  | 105        |
| Origin . . . . .  | 107        |
| Preservation and occurrence in sedimentary rocks . . . . .  | 108        |
| Other occurrences . . . . .   | 109        |
| Significance . . . . .  | 109        |
| Selected references . . . . .   | 109        |
| <b>LINEAR-SHRINKAGE CRACK (incomplete shrinkage crack, pseudo mud crack, sub-<br/>aqueous shrinkage crack) . . . . .</b>                                  | <b>109</b> |
| Description . . . . .   | 109        |
| Occurrence . . . . .  | 109        |
| Origin . . . . .  | 110        |
| Preservation and occurrence in sedimentary rocks . . . . .  | 111        |
| Other occurrences . . . . .   | 111        |
| Significance . . . . .  | 113        |
| Selected references . . . . .   | 113        |
| <b>MUD CURL (clay gall, shale pebble, mud crust) . . . . .</b>  | <b>113</b> |
| <b>MUD PEBBLE . . . . .</b>   | <b>113</b> |
| Description . . . . .   | 113        |
| Occurrence . . . . .  | 113        |
| Origin . . . . .  | 114        |
| Preservation and occurrence in sedimentary rocks . . . . .  | 114        |
| Other occurrences . . . . .   | 115        |
| Significance . . . . .  | 116        |
| <b>REVERSE MUD CURL . . . . .</b>   | <b>116</b> |
| Description . . . . .   | 116        |
| Occurrence . . . . .  | 116        |
| Origin . . . . .  | 116        |
| Preservation and occurrence in sedimentary rocks . . . . .  | 120        |
| Other occurrences . . . . .   | 120        |
| Significance . . . . .  | 120        |
| Selected references . . . . .   | 120        |
| <b>EARTH CRACK (subaerial sun-crack) . . . . .</b>  | <b>120</b> |
| Description . . . . .   | 120        |
| Occurrence . . . . .  | 120        |
| Origin . . . . .  | 121        |
| Preservation and occurrence in sedimentary rocks . . . . .  | 121        |
| Other occurrences . . . . .   | 122        |
| Significance . . . . .  | 122        |
| Selected reference . . . . .  | 122        |
| <b>SALINE FEATURES: SALT CRUST, SALT RIDGE, WRINKLED SURFACE,<br/>CRYSTAL MOLD (creep wrinkles, crinkle marks, pseudo-ripples, "namak sefid") . . . .</b> | <b>122</b> |
| Description . . . . .   | 122        |
| Occurrence . . . . .  | 125        |

|  |            |
|--|------------|
| Origin . . . . .   | 125        |
| Preservation and occurrence in sedimentary rocks . . . . .                         | 126        |
| Other occurrences . . . . .  | 126        |
| Significance . . . . .   | 126        |
| Selected reference . . . . .   | 127        |
| <b>TRACKS, TRAILS, BURROWS (Lebensspuren, ichnofossil, trace fossil) . . . . .</b> | <b>127</b> |
| Description . . . . .  | 127        |
| Occurrence . . . . .   | 129        |
| Origin . . . . .   | 129        |
| Preservation and occurrence in sedimentary rocks . . . . .                         | 129        |
| Other occurrences . . . . .  | 130        |
| Significance . . . . .   | 130        |
| Selected references . . . . .  | 130        |
| <b>RAINDROP IMPRESSION . . . . .</b>   | <b>130</b> |
| Description . . . . .  | 130        |
| Occurrence . . . . .   | 130        |
| Origin . . . . .   | 131        |
| Preservation and occurrence in sedimentary rocks . . . . .                         | 131        |
| Other occurrences . . . . .  | 132        |
| Significance . . . . .   | 132        |
| Selected references . . . . .  | 132        |
| <b>TEXTURED SURFACE (eolian microridges, wrinkle marks) . . . . .</b>              | <b>132</b> |
| Description . . . . .  | 132        |
| Occurrence . . . . .   | 132        |
| Origin . . . . .   | 133        |
| Preservation and occurrence in sedimentary rocks . . . . .                         | 133        |
| Other occurrences . . . . .  | 134        |
| Significance . . . . .   | 134        |
| Selected references . . . . .  | 134        |
| <b>ALGAL MAT (stromatolite) . . . . .</b>  | <b>135</b> |
| <b>ALGAL MOUND (stromatolite, algal ball, algal biscuit) . . . . .</b>             | <b>135</b> |
| Description . . . . .  | 135        |
| Occurrence . . . . .   | 135        |
| Origin . . . . .   | 135        |
| Preservation and occurrence in sedimentary rocks . . . . .                         | 135        |
| Other occurrences . . . . .  | 136        |
| Significance . . . . .   | 136        |
| Selected references . . . . .  | 136        |
| <b>GAS BUBBLE (gas pit, bubble impression, pit-and-mound structure) . . . . .</b>  | <b>137</b> |
| Description . . . . .  | 137        |
| Occurrence . . . . .   | 138        |
| Origin . . . . .   | 138        |
| Preservation and occurrence in sedimentary rocks . . . . .                         | 138        |
| Other occurrences . . . . .  | 138        |
| Significance . . . . .   | 138        |
| Selected references . . . . .  | 138        |
| <b>SAND VOLCANO (patterned cones) . . . . .</b>                                    | <b>139</b> |
| Description . . . . .  | 139        |
| Occurrence . . . . .   | 140        |

|  |            |
|--|------------|
| Origin . . . . .   | 140        |
| Preservation and occurrences in sedimentary rocks . . . . .  | 141        |
| Other occurrences . . . . .  | 141        |
| Significance . . . . .   | 141        |
| Selected references . . . . .  | 141        |
| <b>Chapter 5. Stratification . . . . .</b>   | <b>143</b> |
| <b>HORIZONTAL PARALLEL STRATIFICATION (uniform stratification) . . . . .</b>   | <b>144</b> |
| Description . . . . .  | 144        |
| Occurrence and associated sedimentary structures . . . . .   | 144        |
| Origin . . . . .   | 145        |
| Preservation and occurrence in sedimentary rocks . . . . .   | 147        |
| Other occurrences . . . . .  | 147        |
| Significance . . . . .   | 147        |
| Selected reference . . . . .   | 147        |
| <b>HORIZONTAL DISCONTINUOUS STRATIFICATION (planar bedding, plane bedding) . . . . .</b>   | <b>147</b> |
| Description . . . . .  | 147        |
| Occurrences and associated sedimentary structures . . . . .  | 148        |
| Origin . . . . .   | 149        |
| Preservation and occurrence in sedimentary rocks . . . . .   | 150        |
| Other occurrences . . . . .  | 150        |
| Significance . . . . .   | 150        |
| Selected references . . . . .  | 150        |
| <b>LENTICULAR STRATIFICATION . . . . .</b>   | <b>150</b> |
| Description . . . . .  | 150        |
| Occurrence . . . . .   | 151        |
| Origin . . . . .   | 152        |
| Preservation and occurrence in sedimentary rocks . . . . .   | 152        |
| Other occurrences . . . . .  | 152        |
| Significance . . . . .   | 153        |
| <b>GRADED STRATIFICATION (interrupted graded bedding, fining-upward cycles) . . . . .</b>  | <b>153</b> |
| Description . . . . .  | 153        |
| Occurrence . . . . .   | 154        |
| Origin . . . . .   | 154        |
| Preservation and occurrence in sedimentary rocks . . . . .   | 154        |
| Other occurrences . . . . .  | 154        |
| Significance . . . . .   | 155        |
| Selected references . . . . .  | 155        |
| <b>MICRO CROSS-STRATIFICATION (small-scale trough cross-stratification, wispy cross-stratification, ripple-drift cross-stratification) . . . . .</b> | <b>155</b> |
| <b>FESTOON CROSS-STRATIFICATION (medium-scale trough cross-stratification) . . . . .</b>   | <b>155</b> |
| Description . . . . .  | 155        |
| Occurrence and associated sedimentary structures . . . . .   | 155        |
| Origin . . . . .   | 158        |
| Preservation and occurrence in sedimentary rocks . . . . .   | 159        |
| Other occurrences . . . . .  | 159        |
| Significance . . . . .   | 160        |
| Selected references . . . . .  | 161        |

|   |     |
|---|-----|
| <b>RIPPLE STRATIFICATION</b> (ripple-drift stratification, climbing ripples, pseudo cross-stratification)   | 161 |
| Description   | 161 |
| Occurrence and associated sedimentary structures  | 161 |
| Origin  | 163 |
| Preservation and occurrence in sedimentary rocks  | 163 |
| Other occurrences   | 164 |
| Significance  | 164 |
| Selected references   | 164 |
| <b>INCLINED STRATIFICATION</b> (parallel inclined stratification, scour-and-fill, washouts)   | 164 |
| Description   | 164 |
| Occurrence  | 165 |
| Origin  | 165 |
| Preservation and occurrence in sedimentary rocks  | 166 |
| Other occurrences   | 168 |
| Significance  | 168 |
| Selected references   | 168 |
| <b>LOW-ANGLE CROSS-STRATIFICATION</b> (point-bar cross-stratification, tabular cross-stratification, planar cross-stratification)   | 168 |
| Description   | 168 |
| Occurrence  | 168 |
| Origin  | 169 |
| Preservation and occurrence in sedimentary rocks  | 171 |
| Other occurrences   | 171 |
| Significance  | 172 |
| Selected reference  | 172 |
| <b>AVALANCHE-FRONT CROSS-STRATIFICATION</b> (mega ripple bedding, high-angle planar cross-stratification, tabular cross-stratification, torrential cross-stratification)  | 173 |
| Description   | 173 |
| Occurrence  | 174 |
| Origin  | 174 |
| Preservation and occurrence in sedimentary rocks  | 174 |
| Other occurrences   | 175 |
| Significance  | 175 |
| Selected references   | 175 |
