

CONTENTS

INTRODUCTION

VOLCANISM, TECTONICS AND SEDIMENTATION	<i>Richard V. Fisher and Gary A. Smith</i>	1
--	--	---

I. VOLCANISM AS A PROCESS OF SEDIMENTOLOGICAL SIGNIFICANCE

VOLCANISM, CLIMATIC CHANGE, AND THE GEOLOGICAL RECORD	<i>Michael R. Rampino</i>	9
FRAGMENTATION PROCESSES IN EXPLOSIVE VOLCANIC ERUPTIONS	<i>Grant Heiken and Kenneth Wohletz</i>	19
VOLCANICLASTIC DEPOSITS: IMPLICATIONS FOR HYDROCARBON EXPLORATION	<i>Mark E. Mathisen and John G. McPherson</i>	27

II. VOLCANICLASTIC PROCESSES OF TRANSPORT AND DEPOSITION

TRANSPORT AND DEPOSITION OF TEPHRA BY PYROCLASTIC FLOWS AND SURGES	<i>Steven N. Carey</i>	39
LAHARS: VOLCANO-HYDROLOGIC EVENTS AND DEPOSITION IN THE DEBRIS FLOW-HYPERCONCENTRATED FLOW CONTINUUM	<i>Gary A. Smith and Donald R. Lowe</i>	59
RAIN-LAHAR GENERATION AND SEDIMENT-DELIVERY SYSTEMS AT MAYON VOLCANO, PHILIPPINES	<i>Kelvin S. Rodolfo and A. Tevfik Arguden</i>	71
VOLCANIC-DEBRIS-AVALANCHE DEPOSITS IN NEW ZEALAND—LITHOFACIES ORGANIZATION IN UNCONFINED WET AVALANCHE FLOWS	<i>Beth A. Palmer, Brent V. Alloway, and Vincent E. Neall</i>	89
FACIES ARCHITECTURE OF LARGE VOLCANIC-DEBRIS AVALANCHES	<i>Harry Glicken</i>	99

III. VOLCANICLASTIC SEDIMENTATION IN CONTINENTAL SETTINGS

FACIES SEQUENCES AND GEOMETRIES IN CONTINENTAL VOLCANICLASTIC SEQUENCES	<i>Gary A. Smith</i>	109
LANDSCAPE RESPONSE TO A MAJOR IGNIMBRITE ERUPTION, TAUPO VOLCANIC CENTER, NEW ZEALAND	<i>Robyn C. M. Smith</i>	123
CHANGES IN DEPOSITIONAL ENVIRONMENTS RESULTING FROM EMPLACEMENT OF A LARGE-VOLUME IGNIMBRITE	<i>David C. Buesch</i>	139
THE DEPOSITIONAL RECORD OF SMALL, MONOGENETIC VOLCANOES WITHIN TERRESTRIAL BASINS	<i>James D. L. White</i>	155

IV. VOLCANICLASTIC SEDIMENTATION IN OCEANIC SETTINGS

VOLUMINOUS SHALLOW-WATER-TO-EMERGENT BASALTIC VOLCANICLASTIC ROCKS, PROTEROZOIC (~1880 Ma) AMISK LAKE COMPOSITE VOLCANO, FLIN FLON GREENSTONE BELT, CANADA	<i>L. D. Ayres, N. A. Van Wagoner, and W. S. Ferreira</i>	175
PARNELL GRITS—LARGE SUBAQUEOUS VOLCANICLASTIC GRAVITY FLOWS WITH MULTIPLE PARTICLE-SUPPORT MECHANISMS	<i>Peter F. Ballance and Murray R. Gregory</i>	189
PLIOCENE-QUATERNARY SUBMARINE PUMICE DEPOSITS IN THE SUMISU RIFT AREA, IZU-BONIN ARC	<i>A. Nishimura, K. M. Marsaglia, K. S. Rodolfo, A. Colella, R. N. Hiscott, K. Tazaki, J. B. Gill, T. Janecek, J. Firth, M. Isiminger-Kelso, Y. Herman, R. N. Taylor, B. Taylor, K. Fujioka, and Leg 126 Scientific Party</i>	201

V. PETROLOGY OF VOLCANICLASTICS

PRE-DIAGENETIC SEDIMENTARY FRACTIONATION OF ANDESITIC DETRITUS IN A SEMI-ARID CLIMATE: AN EXAMPLE FROM THE EOCENE DATIL GROUP, NEW MEXICO	<i>Steven M. Cather and Robert L. Folk</i>	211
RECONSTRUCTION OF OLIGO-MIOCENE VOLCANICLASTIC DISPERSAL PATTERNS IN NORTH-CENTRAL NEW MEXICO USING SANDSTONE PETROFACIES	<i>Raymond V. Ingersoll and William Cavazza</i>	227
PROVENANCE OF SANDS AND SANDSTONES FROM A RIFTED CONTINENTAL ARC, GULF OF CALIFORNIA, MEXICO	<i>Kathleen M. Marsaglia</i>	237
