

CONTENTS

INTRODUCTION	1
PART I	
THE VIEW FROM THE PRESENT TOWARDS THE PAST	
1. THE FOSSIL RECORD	9
2. THE STARTING MATERIALS OF MOLECULAR PALAEONTOLOGY	27
Examination of recent sediments as models for the evolu- tion of molecular fossils	28
Lifetimes of molecular 'fossil' types as potential residues	34
3. THE NATURE OF HYDROCARBONS IN MICRO- ORGANISMS	39
Organic geochemistry and ancient sediments	58
San Joaquin oil	58
Green River Shale	62
4. MOLECULAR PALAEONTOLOGY	70
Molecular palaeontology of ancient rocks	70
Nonesuch Shale	71
Gunflint Shale	73
Soudan Shale	78
Fig Tree Shale	85
Onverwacht Series	85
Carbon isotope ratios as criteria for biological origin	88
Organic geochemistry—summary	91

PART II

THE VIEW FROM THE PAST TOWARDS THE PRESENT

5. CHEMICAL EVOLUTION	103
Introduction: chemical evolution	104
The 'final' state—life	106
The initial state	107
Energy sources—inputs	113
6. PRIMITIVE (PREBIOTIC) CHEMISTRY	121
The evolution of 'small' molecules	122
Experiments with primitive atmospheres	122
(a) Electric-discharge experiments	127
(b) Electron-bombardment experiments	130
(c) Thermal experiments	130
Hydrogen cyanide polymerization	132
7. SELECTION AND THE GROWTH OF MOLECULES	144
Autocatalysis	144
Growth of molecules	152
Thermal dehydration condensation reactions	155
Use of polyphosphate esters in dehydration condensation reactions	158
8. GROWTH OF MOLECULES AND INFORMATION COUPLING	162
Aqueous dehydration condensation reactions	162
Sequence determination by 'growing-end' control	170
Chemical systems—coupling of replicating systems	176
9. THREE-DIMENSIONAL STRUCTURE AND SELF-ASSEMBLY	184
Polypeptide structure	184
Polynucleotide structure	190
Quaternary and higher orders of structures	196

CONTENTS

ix

10. GENERATION OF MEMBRANE STRUCTURE	224
Physical and chemical processes for concentration and separation by membranes	230
The nature of membranes	237
Summary of chemical evolutionary processes	241
Lunar and planetary exploration	243

PART III

THE VIEW FROM THE PRESENT TOWARDS THE FUTURE

11. THE SEARCH FOR SIGNIFICANCE	251
Science and technology	254
Personal experience	258
APPENDIX	261
GENERAL BIBLIOGRAPHY	264
AUTHOR INDEX	267
SUBJECT INDEX	270
