

Contents

Contributors	vii
Preface	ix
1. Linking Biological and Physical Processes at the River Basin Scale: the Origins, Scientific Background and Scope of Ecohydrology	1
<i>M. Zalewski, D.M. Harper, B. Demars, G. Jolánkai, G. Crosa, G.A. Janauer and N. Pacini</i>	
2. Patterns and Processes in the Catchment	18
<i>D. Gutknecht, G. Jolánkai and K. Skinner</i>	
3. Nutrient Processes and Consequences	30
<i>N. Pacini, D.M. Harper, V. Ittekot, C. Humborg and L. Rahm</i>	
4. Lotic Vegetation Processes	46
<i>G.A. Janauer and G. Jolánkai</i>	
5. Processes Influencing Aquatic Fauna	62
<i>J.A. Gore, J. Mead, T. Penczak, L. Higler and J. Kemp</i>	
6. Ecohydrological Modelling for Managing Scarce Water Resources in a Groundwater-dominated Temperate System	88
<i>J.-P.M. Witte, J. Runhaar and R. Van Ek</i>	
7. The Benefits and Risks of Ecohydrological Models to Water Resource Management Decisions	112
<i>J.A. Gore and J. Mead</i>	

8. Nutrient Budget Modelling for Lake and River Basin Restoration	138
<i>G. Jolánkai and I. Bíró</i>	
9. Ecohydrology Driving a Tropical Savannah Ecosystem	171
<i>E. Gereta and E. Wolanski</i>	
10. The Mid-European Agricultural Landscape: Catchment-scale Links between Hydrology and Ecology in Mosaic Lakeland Regions	187
<i>A. Hillbricht-Ilkowska</i>	
11. The Ecohydrological Approach as a Tool for Managing Water Quality in Large South American Rivers	207
<i>M.E. McClain</i>	
12. Ecohydrological Analysis of Tropical River Basin Development Schemes in Africa	223
<i>N. Pacini and D.M. Harper</i>	
13. Ecohydrological Management of Impounded Large Rivers in the Former Soviet Union	247
<i>B. Fashchevsky, V. Timchenko and O. Oksiyuk</i>	
14. Palaeohydrology: the Past as a Basis for Understanding the Present and Predicting the Future	276
<i>L. Starkel</i>	
15. Ecohydrology: Understanding the Present as a Perspective on the Future – Global Change	303
<i>I. Wagner</i>
