<b>Editors' Introduction</b>	1
 <b>Part 1 The Framing Papers</b>	
Systems Design: A Creative Response to the Current Educational Predicament <i>Bela H. Banathy</i>	9
Principles of Educational Systems Design <i>Charles M. Reigeluth</i>	50
Structuring the Program of the NATO Advanced Research Workshop: An Architecture of Decision-Oriented Disciplined Enquiry <i>Bela H. Banathy</i>	67
 <b>Part 2 Thematic Contributions</b>	
 <b>1 The Conceptual and Empirical Contexts of Comprehensive Systems Design</b>	
Education as a Process of Increasing Access to Societal Resources: Design and Methodology <i>Gerard de Zeeuw</i>	85
Human Learning and Its Relation to Evolution and Needs Satisfaction: Implications for the Design of Educational Systems <i>Nicolas C. Paritsis</i>	95
The Empirical Grounding of System Performance Measurements <i>Bela Antal Banathy</i>	104
The Designing Community: A Learning Community <i>Georges Goulet, André Dolbec</i>	109
Definition of Education and Meta-Design of Educational Systems <i>Nagib Callaos, Belkis de Callaos</i>	121
Assessing the Adequacy of a Social System Design <i>C. Lynn Jenks, Mary Amsler</i>	134

## 2 The Systems Design Focus

Design Inquiry as an Intellectual Technology for the Design of Educational Systems . . . . .	145
<i>Harold G. Nelson</i>	
The Evolution of a Design Approach: A Historical Perspective and Its Relevance to the Design of Educational Systems . . . . .	154
<i>Wojciech Gasparski</i>	
Surrendering to the Environment in Educational System Design . . . . .	165
<i>Oguz N. Babüroglu</i>	
'Jumping Out' of the Existing System During Design Genesis: Penetrating the Anxiety Barrier . . . . .	174
<i>Tad Gougen Frantz</i>	
Designing Value-Based Educational Systems . . . . .	191
<i>Thorbjörn Meyer, Peter Pruzan</i>	
Retrospective Design Analysis: A New Educational Technology . . . . .	206
<i>Ian Macnaughton</i>	

## 3 A Systems View of Designing Educational Systems

The Application of Systems Thinking to the Design of Educational Systems . . . . .	225
<i>Rafael Rodriguez Delgado</i>	
A Systems-Approach Knowledge Base for Education . . . . .	238
<i>Hilda J. Blanco</i>	
Approaches and Methods of Systems Design: Critical Pedagogy . . . . .	253
<i>Wendy Gregory</i>	
A Systems View of Restructuring Education . . . . .	260
<i>Theodore W. Frick</i>	
Openness in a General Process Model for Systems Design in Education . . . . .	272
<i>Arne Collen, Giafranco Minati</i>	

## 4 The Educational Context of Systems Design

School Reform Movements: Tinkering with the System . . . . .	281
<i>Dwight W. Allen</i>	
Characteristics of Educational Systems and Their Development: A Contribution to Understanding Differences in Systems in Europe and the United States . . . . .	302
<i>Theo M.E. Liket</i>	
Applying Systems Theory Through the Lens of Learning: What Does Learning Research Say? . . . . .	314
<i>Beau Fly Jones, Randy A. Knuth, Steve Baxendale</i>	

The Next Step in Educational Systems Design: Some Contributions From Learning Systems Design <i>Ian McArthur</i>	334
Learning Systems: Is There a Need for Change? <i>Nimal Jayaratna</i>	350
Systems Design Guidelines for Change <i>Nimal Jayaratna</i>	354
A Conceptual Framework for Systems Design of Education <i>P. David Mitchell</i>	357

## 5 High Technology Focus in Systems Design

Hypersystems: A Base for Specification of Computer-Supported Self-Learning Social Systems <i>Kristo Ivanov</i>	381
New Educational Technologies Cannot be Fully Integrated in Existing Educational Systems <i>Monique Grandbastien</i>	408
Educational Technology Planning: Scanning the North American K-12 Education Environment <i>Wayne G. Blair</i>	421
