

Suserup Skov: structures and processes in a temperate, deciduous forest reserve

Katrine Hahn and Jens Emborg

The history and present conditions of Suserup Skov – a nemoral, deciduous forest reserve in a cultural landscape	7	J. Heilmann-Clausen, R. H. W. Bradshaw, J. Emborg and G. Hannon
The structure of Suserup Skov, 2002. The first re-measurement of a long-term permanent plot study of forest dynamics started in 1992	19	J. Emborg and J. Heilmann-Clausen
The forest cycle of Suserup Skov – revisited and revisited	33	M. Christensen, J. Emborg and A. B. Nielsen
What is beneath the canopy? Structural complexity and understorey light intensity in Suserup Skov, eastern Denmark	43	A. B. Nielsen and K. Hahn
Suppression and release during canopy recruitment in <i>Fagus sylvatica</i> and <i>Fraxinus excelsior</i> , a dendro-ecological study of natural growth patterns and competition	53	J. Emborg
Structural impact of gale damage on Suserup Skov, a near-natural temperate deciduous forest in Denmark	69	J. Bigler and A. Wolf
Above and below ground gaps – the effects of a small canopy opening on throughfall, soil moisture and tree transpiration in Suserup Skov, Denmark	81	L. Dalsgaard
Nitrate in soil solution and nitrogen availability in litter and soil after gap formation in the semi-natural Suserup Skov and two managed beech <i>Fagus sylvatica</i> forests in Denmark	103	E. Ritter
The carbon pools in a Danish semi-natural forest	113	L. Vesterdal and M. Christensen
Nematode assemblages and their responses to soil disturbance differ between microsites in Suserup Skov, a semi-natural forest	123	L. Bjørnlund and J. D. Lekfeldt
Gap regeneration in four natural gaps in Suserup Skov – a mixed deciduous forest reserve in Denmark	133	K. Hahn, P. Madsen and S. Lindholt
Growth and photosynthesis of ash <i>Fraxinus excelsior</i> and beech <i>Fagus sylvatica</i> seedlings in response to a light gradient following natural gap formation	147	K. S. Einhorn
Ground flora in Suserup Skov: characterized by forest continuity and natural gap dynamics or edge-effect and introduced species?	167	K. Hahn and R. P. Thomsen
Natural forest stand dynamics in time and space – synthesis of research in Suserup Skov, Denmark and perspectives for forest management	183	K. Hahn, J. Emborg, L. Vesterdal, S. Christensen, R. H. W. Bradshaw, K. Raulund-Rasmussen and J. B. Larsen
