

TABLE OF CONTENTS

Acknowledgments	5
1. Introduction	9
1.1. Application in Empirical Linguistics	10
1.2. Applications in Psychology	13
2. The Mathematical Theory of Languages.	16
2.1. Preliminaries	16
2.2. The Theory of Grammar	18
2.3. Automata Theory	22
2.4. Functions on Sets of Words	31
3. Arguments Against the Adequacy of Finite State Gram- mar	33
3.1. Introduction	33
3.2. Chomsky's Argument.	35
3.3. An Argument by Bar-Hillel and Shamir	44
3.4. On the Justification of Empirical Premisses	47
4. Arguments Against the Adequacy of Context-Free Gram- mar	56
4.1. An Argument by Bar-Hillel and Shamir	57
4.2. Postal's Argument	61
5. Performance Models	71
5.1. Chomskian Linguistic Performance Models	71
5.2. Behaviorist Performance Models	76
5.3. The Concept of Behavioral Repertory.	83

6. Arguments Against the Adequacy of Behaviorist Performance Models	87
6.1. The Arguments	87
6.2. Analysis	98
7. Conclusion	111
Bibliography	115
Index	117
